APMG-International Agile Project Management (AgilePM) Foundation Exam Sample Questions (Q25-Q30):

NEW QUESTION # 25

What DSDM product describes how the benefits have actually accrued following a period in live operation?

- A. Benefits Assessment
- B. Delivery Plan
- C. Project Review Report
- D. Prioritized Requirement List

Answer: A

NEW QUESTION # 26

According to the DSDM principle 'Never Compromise Quality, when should the overall level of quality to be delivered within the solution be agreed?

- A. When the Business Advisor is available
- **B. At the start of the project**
- C. During evolutionary development
- D. Whenever the level of solution quality is known.

Answer: B

Explanation:

According to the DSDM principle 'Never Compromise Quality,' the overall level of quality to be delivered within the solution should be agreed at the start of the project⁵. This principle ensures that quality is not compromised to recover from deviations; instead, the scope of the project will be dynamic⁶.

NEW QUESTION # 27

How are the business roles critical to the success of a DSDM project?

- A. Provide formal progress reporting
- B. Lead Solution Developer demonstrations
- **C. Guide the evolution of the solution at the detailed level**
- D. Make all decisions

Answer: C

Explanation:

Business roles are critical in a DSDM project as they guide the evolution of the solution at a detailed level⁶.

They provide day-to-day business direction and ensure that the solution being developed aligns with the business needs and objectives.

NEW QUESTION # 28

Which competence is NOT required within the Solution Development team?

- A. Technical expertise
- **B. All members to be multi-skilled experts**
- C. Willingness to work with other
- D. Business knowledge

Answer: B

Explanation:

Within the Solution Development team, it is not required for all members to be multi-skilled experts¹. While a diverse set of skills is beneficial, DSDM emphasizes collaboration and the effective use of individual strengths rather than expecting every team member to be an expert in all areas¹.

NEW QUESTION # 29

Which of the following is NOT a Project Artifact relevant to Financial Governance?

- A. Foundation Summary
- B. Feasibility Assessment
- **C. Sprint Review Record**
- D. Project Review Report

Answer: C

Explanation:

Comprehensive and Detailed Explanation (paraphrased from AgilePM governance guidance):

AgilePM's financial governance relies on artifacts that demonstrate continuing business justification, predictable control, and informed decision-making. Core project artifacts include the Feasibility Assessment (early viability and value assessment), the Foundations Summary (establishes the Business Case, scope, approach, plans, and controls), and the Project Review Report (evidence-based assessments of progress, benefits, and risks). These directly support budget stewardship, investment decisions, and release planning.

A Sprint Review Record is a Scrum team-level event output focused on inspecting increments and adapting the Product Backlog; it is not a defined AgilePM project artifact nor specifically a financial governance instrument. While insights from reviews inform governance, the formal artifacts tied to AgilePM's project-level financial control are exemplified by options A, C, and D-hence B is the correct "NOT" choice.

NEW QUESTION # 30

.....

If you are motivated to pass AgilePM-Foundation certification exams and you are searching for the best practice material for the AgilePM-Foundation exam; then you are at the right place. We provide 100% guaranteed success for AgilePM-Foundation exams.
