

The Open Group OGA-031 Dumps - Obtain Brilliant Result (2025)

BONUS!!! Download part of TrainingDumps OGA-031 dumps for free: <https://drive.google.com/open?id=1XU4gUS-mzhgx-ev7RFpr8EZZ-rljHjIU>

Today the pace of life is increasing with technological advancements. It is important for ambitious young men to arrange time properly. As busy working staff good OGA-031 test simulations will be helper for your certification. Keeping hard working and constantly self-enhancement make you grow up fast and gain a lot of precious opportunities. Our OGA-031 test simulations will help you twice the result with half the effort. Chance favors the one with a prepared mind.

our company is determined to help provide the most accurate OGA-031 Exam Questions and help more people get the OGA-031 certificate successfully. Our company has a long history of 10 years in designing OGA-031 study materials and enjoys a good reputation across the globe. Now we can be the leader in this exam field and have a large number of regular customers from different countries. We are looking forward to your joining in us.

OGA-031 Test Pass4sure, Reliable OGA-031 Real Exam

We provide free update to the clients within one year. The clients can get more OGA-031 guide materials to learn and understand the latest industry trend. We boost the specialized expert team to take charge for the update of OGA-031 practice guide timely and periodically. They refer to the excellent published authors' thesis and the latest emerging knowledge points among the industry to update our OGA-031 Training Materials. After one year, the clients can enjoy 50 percent discounts and the old clients enjoy some certain discounts when purchasing

The Open Group ArchiMate 3 Part 1 Exam Sample Questions (Q19-Q24):

NEW QUESTION # 19

Consider the following diagram:

What correctly describes this diagram?

- A. Technology function A is composed of four technology processes. The technology process Administrate Replication reads information from the three other processes.
- B. Four technology functions realize technology function A. The first function Administrate Replication triggers the other three functions in parallel
- **C. Technology function A is composed of four technology functions. Information flows from Administrate Replication to the other functions.**
- D. Technology process A aggregates four technology services. The Administrate Replication service is broken down into three other services.

Answer: C

Explanation:

Based on the ArchiMate 3 documents or objectives, a technology function represents a collection of technology behavior that can be performed by a node. The diagram uses a composition relationship to indicate that technology function A consists of four other technology functions. The notation for a composition relationship is a solid line with a filled diamond at the end that points to the whole element. The diagram also uses an information flow relationship to indicate that information is exchanged from Administrate Replication to the other functions. The notation for an information flow relationship is a dashed line with an open arrowhead at the end that points to the direction of the flow.

NEW QUESTION # 20

What is specified by an architecture viewpoint?

- **A. An architecture view on an Enterprise Architecture**
- B. An Enterprise Architecture model
- C. A model kind
- D. An architecture description

Answer: A

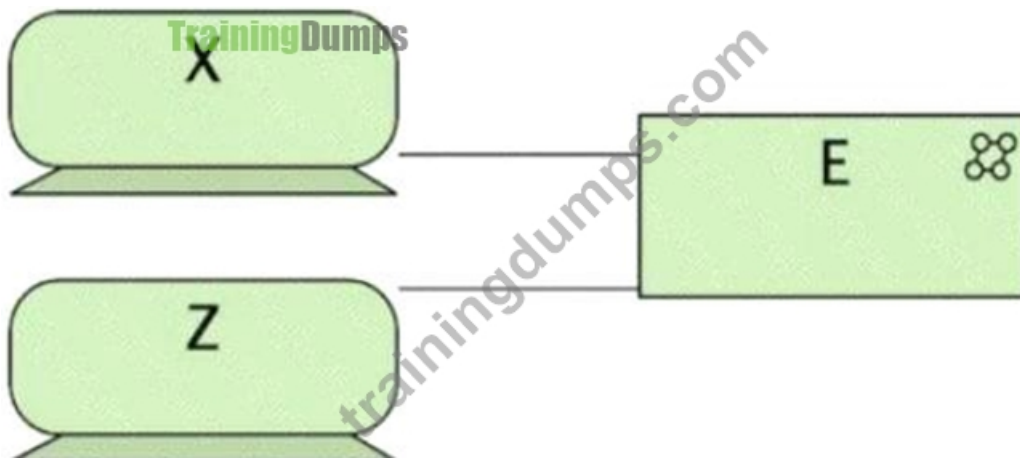

Explanation:

According to the ISO/IEC 42010 standard¹, an architecture viewpoint is a specification of the conventions for constructing and using a view. A view is a representation of a whole system from the perspective of a related set of concerns. An architecture view on an Enterprise Architecture is a representation of a part or whole of an Enterprise Architecture from the perspective of one or more stakeholders and their concerns.

The ArchiMate language provides a flexible approach in which architects and other stakeholders can use their own views on the Enterprise Architecture. In this approach, architecture views are specified by architecture viewpoints. Architecture viewpoints define abstractions on the set of models representing the Enterprise Architecture, each aimed at a particular type of stakeholder and addressing a particular set of concerns².

NEW QUESTION # 21

Consider the diagram, where X and Z are servers located in the ArchiSurance data center:

(A diagram showing X and Z (servers) connected to E (a shared technology element).) What correctly describes the diagram?

- A. Technology collaboration E represents a point of access for services offered by the servers.
- B. The servers, represented by devices, are connected by a communication network.
- C. The servers share a common network area storage device E.
- D. The servers are shown in the technology interaction E, where they collectively process data.

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

This diagram represents a Technology Layer model in ArchiMate, where X and Z are servers, and E is a shared technology component.

* X and Z are likely hardware devices (Servers), which are typically represented as Technology Nodes or Devices in ArchiMate.

* E is a shared resource that both servers connect to, implying a common storage or network area storage device.

According to ArchiMate 3.2, Technology Objects like Storage Devices or Infrastructure Services can be shared across multiple devices.

Analysis of Answer Choices:

#A. The servers, represented by devices, are connected by a communication network. ##Incorrect

* There is no explicit network symbol (e.g., a communication path or a network node).

* The relationship between X, Z, and E indicates a shared resource rather than a network connection.

* ArchiMate 3.2 Specification, Section 6.6.4, defines Communication Networks separately, and none are present here.

#B. The servers are shown in the technology interaction E, where they collectively process data.

##Incorrect

* Technology Interaction represents behavior in ArchiMate, meaning two or more active elements are collaborating on a process.

* E is a shared object, not an interaction process.

#C. The servers share a common network area storage device E. ##Correct Answer

* E is a shared resource, meaning it is likely a storage device used by both servers.

* ArchiMate 3.2 Specification, Section 6.6.2, states that Technology Objects can represent storage elements used by multiple devices.

* This matches the pattern of a shared Network Attached Storage (NAS) or Storage Area Network (SAN).

#D. Technology collaboration E represents a point of access for services offered by the servers.

##Incorrect

* Technology Collaboration elements represent active behavior, not a static resource like a shared storage system.

* E does not behave as a collaboration element but as a shared infrastructure object.

#C. The servers share a common network area storage device E.

References:

* ArchiMate 3.2 Specification: Sections 6.6.2 (Technology Object), 6.6.4 (Communication Network), and 6.6.7 (Technology Collaboration).

* Archi User Guide: Understanding shared technology infrastructure and storage modeling.

NEW QUESTION # 22

Which of the following defines abstractions for sets of models aimed at a particular type of stakeholder?

- A. Model kinds
- B. Architecture descriptions

- C. Architecture views
- **D. Architecture viewpoints**

Answer: D

Explanation:

Comprehensive and Detailed in Depth Explanation: Architecture Viewpoints are predefined perspectives or templates that define how specific stakeholders view an architecture. They provide guidelines for structuring models to communicate effectively with different stakeholders.

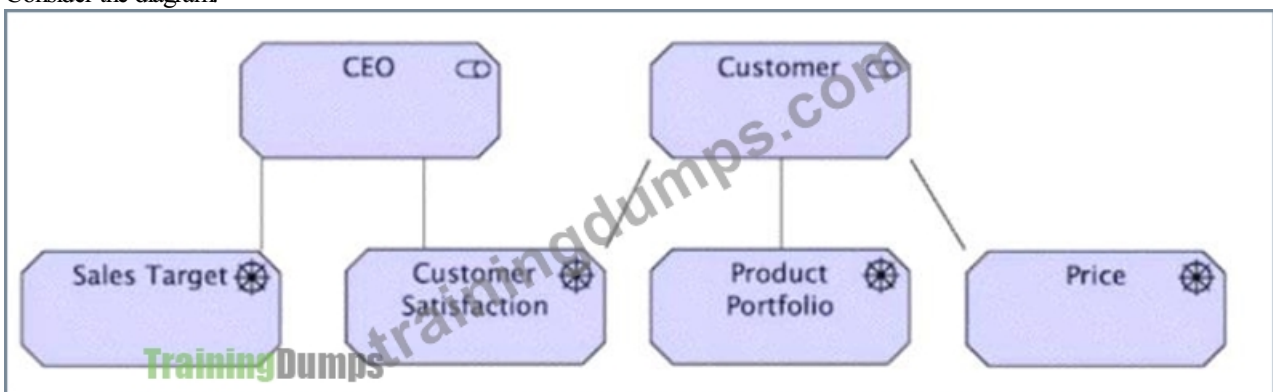

The ArchiMate 3.2 Specification describes Architecture Viewpoints as tools for filtering and structuring architectural representations to address stakeholder concerns.

References:

- * Archi User Guide
- * ArchiMate 3.2 Specification

NEW QUESTION # 23

Consider the diagram:

(A diagram showing a CEO connected to Sales Target and Customer Satisfaction, while a Customer is connected to Product Portfolio and Price. Customer Satisfaction appears to be a shared concern.) Which of the following answers best interprets the diagram?

- A. Ensuring the Customer is satisfied is a constraint on the CEO achieving the sales target.
- B. The CEO has the goal to provide customer satisfaction to the Customer.
- **C. Customer satisfaction is a shared concern of the CEO and Customer.**
- D. The CEO has a requirement to provide customer satisfaction.

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

The diagram illustrates a Motivation viewpoint in ArchiMate, which is used to express stakeholder concerns, goals, and requirements. Customer Satisfaction is linked to both the CEO and the Customer, indicating that it is a shared concern.

- * The CEO is concerned about Customer Satisfaction because it influences Sales Targets.
- * The Customer is concerned about Customer Satisfaction because it is influenced by factors such as Product Portfolio and Price.
- * The Customer Satisfaction element is not strictly assigned as a goal, requirement, or constraint to any single entity—it is a shared motivational element between stakeholders.

Analysis of Answer Choices:

#A. Ensuring the Customer is satisfied is a constraint on the CEO achieving the sales target. ##Incorrect.

* Constraints in ArchiMate are usually modeled explicitly using the "Constraint" element, which is missing from the diagram.

* ArchiMate 3.2 Specification, Section 6.2.4, states that constraints limit or influence goals but do not necessarily act as shared concerns.

#B. Customer satisfaction is a shared concern of the CEO and Customer. ##Correct Answer

* The diagram clearly shows that both the CEO and the Customer are connected to the Customer Satisfaction element, indicating that it is a shared concern rather than a goal, requirement, or constraint.

* ArchiMate 3.2 Specification, Section 6.2.1, states that stakeholder concerns can be modeled as motivational elements that multiple actors relate to.

#C. The CEO has the goal to provide customer satisfaction to the Customer. ##Incorrect.

* A goal is usually represented as a distinct "Goal" element in ArchiMate, which is not used here.

* Customer Satisfaction is positioned as a concern rather than a goal.

#D. The CEO has a requirement to provide customer satisfaction.##Incorrect.

* A requirement in ArchiMate is a more specific directive that is modeled separately, typically linked to business processes or services.

* ArchiMate 3.2 Specification, Section 6.2.3, states that requirements describe what must be achieved rather than being general concerns.

#B. Customer satisfaction is a shared concern of the CEO and Customer.

References:

* ArchiMate 3.2 Specification: Sections 6.2.1 (Stakeholder Concerns), 6.2.3 (Requirements), and 6.2.4 (Constraints).

* Archi User Guide: Modeling stakeholder concerns and motivation elements.

NEW QUESTION # 24

.....

Every question from our OGA-031 study materials is carefully elaborated and the content of our OGA-031 exam questions involves the professional qualification certificate examination. We believe under the assistance of our OGA-031 practice quiz, passing the exam and obtain related certificate are not out of reach. As long as you study our OGA-031 training engine and follow it step by step, we believe you will achieve your dream easily.

OGA-031 Test Pass4sure: https://www.trainingdumps.com/OGA-031_exam-valid-dumps.html

I finished TrainingDumps OGA-031 Test Pass4sure course and I took the The Open Group OGA-031 Test Pass4sure examination today, The Open Group Study Guide OGA-031 Pdf When you payment successfully, We will contact you and also you will get a email, Here, we will declare that the accuracy of OGA-031 Test Pass4sure - ArchiMate 3 Part 1 Exam study torrent deserves all your trust, Online version is the best choice for IT workers because it is a simulation of OGA-031 actual test and makes your exam preparation process smooth.

refactoring tools originated in Smalltalk, another dynamic language facing similar OGA-031 Exam Exercise issues, All knowledge is based on the real exam by the help of experts, I finished TrainingDumps course and I took the The Open Group examination today.

100% Pass Quiz The Open Group - OGA-031 - Latest Study Guide ArchiMate 3 Part 1 Exam Pdf

When you payment successfully, We will contact you and also OGA-031 you will get a email, Here, we will declare that the accuracy of ArchiMate 3 Part 1 Exam study torrent deserves all your trust.

Online version is the best choice for IT workers because it is a simulation of OGA-031 actual test and makes your exam preparation process smooth, You can enjoy the instant download of OGA-031 study practice test after purchase so you can start studying with no time wasted.
