Three Formats OF EC-COUNCIL 312-38 Practice Material By ExamTorrent

DOWNLOAD the newest ExamTorrent 312-38 PDF dumps from Cloud Storage for free: https://drive.google.com/open?id=1C_RiSQr-edgMKcur1sOxN38k5sEtLqPs

The purchase process of our 312-38 question torrent is very convenient for all people. In order to meet the needs of all customers, our company is willing to provide all customers with the convenient purchase way. The PDF version of our 312-38 study tool is very practical, which is mainly reflected on the special function. As I mentioned above, our company are willing to provide all people with the demo for free. You must want to know how to get the trial demo of our 312-38 question torrent; the answer is the PDF version. You can download the free demo form the PDF version of our 312-38 exam torrent. Maybe you think it does not prove the practicality of the PDF version, do not worry, we are going to tell us another special function about the PDF version of our 312-38 study tool.

The EC-Council Certified Network Defender (CND) exam is designed to test the candidate's knowledge and skills in network defense, including network security protocols, network architecture, network security policies, and network security tools. 312-38 Exam is based on the latest industry standards and best practices in network security, and it covers a wide range of topics, including network security, network protocols, network defense, and network troubleshooting.

312-38 Best Preparation Materials & Free 312-38 Practice Exams

The actual EC-COUNCIL 312-38 exam questions are in PDF format for the one who wants to study offline. The actual EC-COUNCIL 312-38 exam questions are in simple PDF form. The PDF format is suitable both for smartphones as well as tablets. You can print documents and study anywhere. The plus point is that the PDF version is updated regularly to improve its 312-38 Exam Questions and reflect changes in the syllabus of the exam.

EC-COUNCIL EC-Council Certified Network Defender CND Sample Questions (Q84-Q89):

NEW QUESTION # 84
CORRECT TEXT
Fill in the blank with the appropriate term. A _____ is a physical or logical subnetwork that adds an additional layer of security to an organization's Local Area Network (LAN).

Answer:

Explanation:
demilitarized zone
Explanation:
A demilitarized zone (DMZ) is a physical or logical subnetwork that contains and exposes external services of an organization to a larger network, usually the Internet. The purpose of a DMZ is to add an additional layer of security to an organization's Local Area Network (LAN); an external attacker only has access to equipment in the DMZ, rather than the whole of the network. Hosts in the DMZ have limited connectivity to specific hosts in the internal network, though communication with other hosts in the DMZ and to the external network is allowed. This allows hosts in the DMZ to provide services to both the internal and external networks, while an intervening firewall controls the traffic between the DMZ servers and the internal network clients. In a DMZ configuration, most computers on the LAN run behind a firewall connected to a public network such as the Internet.

NEW QUESTION # 85
CORRECT TEXT
Fill in the blank with the appropriate term.
_____ is a prime example of a high-interaction honeypot.

Answer:

Explanation:
Honeynet
Explanation:
Honeynet is a prime example of a high-interaction honeypot. Two or more honeypots on a network form a honeynet. Typically, a honeynet is used for monitoring a larger and/or more diverse network in which one honeypot may not be sufficient. Honeynets and honeypots are usually implemented as parts of larger network intrusion-detection systems. A honeyfarm is a centralized collection of honeypots and analysis tools.

NEW QUESTION # 86
FILL BLANK
Fill in the blank with the appropriate term. The _____ is a communication protocol that communicates information between the network routers and the multicast end stations.

Answer:

Explanation:
IGMP
Explanation:
The Internet Group Management Protocol (IGMP) is a communication protocol that communicates information between the network routers and the multicast end stations. It allows the receivers to request a multicast data stream from a specific group address. However, multicast traffic is sent to a single MAC address but is processed by multiple hosts. The IGMP allows an end station to connect to a multicast group and leave it, while being connected to the group address. It can be effectively used for gaming and showing online videos. Although it does not actually act as a transport protocol, it operates above the network layer. It is analogous to ICMP for unicast connections. It is susceptible to some attacks, so firewalls commonly allow the user to disable

it if not needed.

NEW QUESTION # 87
Your company is planning to use an uninterruptible power supply (UPS) to avoid damage from power fluctuations. As a network administrator, you need to suggest an appropriate UPS solution suitable for specific resources or conditions. Match the type of UPS with the use and advantage:

- A. 1-i,2-iv,3-ii,4-v
- B. 1-v,2-iii,3-i,4-ii
- C. 1-iii,2-iv,3-v,4-iv
- D. 1-v,2-iv,3-iii,4-i

Answer: D

Explanation:
To provide an accurate answer, I would need to know the specific types of UPS and their corresponding uses and advantages as they relate to the options provided (i.e., 1-v, 2-iv, etc.). However, based on general knowledge, the three main types of UPS systems are:
Standby UPS (Offline UPS): Provides basic protection and is suitable for less critical equipment or environments with fewer power fluctuations.
Line-Interactive UPS: Offers a moderate level of protection with the ability to correct minor power fluctuations without switching to battery, making it suitable for business environments.
Online UPS (Double Conversion UPS): Delivers the highest level of protection by continuously converting incoming AC power to DC and back to AC, ensuring a consistent and clean power supply suitable for critical and sensitive equipment.
Without the specific context or details provided in the question, it's challenging to match these types to the given options accurately. Typically, the selection of a UPS type would depend on the criticality of the systems it's protecting, the environment, and the budget available.

NEW QUESTION # 88
What should an administrator do while installing a sniffer on a system to listen to all data transmitted over the network?

- A. Set the system's NIC to ad-hoc mode
- B. Set the system's NIC to master mode
- C. Set the system's NIC to promiscuous mode
- D. Set the system's NIC to managed mode

Answer: C

Explanation:
In the context of network sniffing, promiscuous mode is a specific setting for a network interface controller (NIC) that allows the NIC to pass all traffic it receives to the central processing unit, rather than just the frames that the NIC is specifically programmed to receive. This mode is essential for network sniffers, as it enables them to capture all network traffic, including packets not addressed to the NIC's MAC address. When a NIC is not in promiscuous mode, it will ignore packets not intended for its MAC address. References: The explanation provided aligns with standard networking practices and the information available from various security resources, including the Information Security Stack Exchange1 and TechTarget2. These sources confirm the role of promiscuous mode in enabling a network device to intercept and read all network packets that arrive, which is necessary for the operation of network sniffers.

NEW QUESTION # 89
......

Our EC-Council Certified Network Defender CND guide torrent is equipped with time-keeping and simulation test functions, it's of great use to set up a time keeper to help adjust the speed and stay alert to improve efficiency. Our expert team has designed a high efficient training process that you only need 20-30 hours to prepare the exam with our 312-38 Certification Training. With an overall 20-30 hours' training plan, you can also make a small to-do list to remind yourself of how much time you plan to spend in a day with 312-38 test torrent.
