In a make-to-order process, a raw material needs to be issued from the warehouse to the manufacturing line.
To which order will you post the goods issue?

- A. Outbound delivery order
- B. Sales order
- C. Stock transport order
- D. Production order

Answer: D

Explanation:

* Make-to-Order Process: In a make-to-order production environment, products are manufactured specifically based on customer

orders, requiring a direct linkage between the sales order and the production process.

* Goods Issue to Production Order:

* Material Consumption: Raw materials are issued to specific production orders, ensuring the materials are directly associated with the customer order they are intended for.

* Inventory Management: This process ensures accurate tracking of inventory consumption and cost allocation to the correct production order.

* Implementation Steps:

* Create Production Order: Based on the sales order, create a production order in the system.

* Issue Materials: Perform a goods issue against the production order to supply the required raw materials to the manufacturing line.
