NEW QUESTION # 210

You are scheduling a customer for preventative maintenance performed on a predictable schedule.

The customer wants the work performed within two (2) days of the 15th of each month, and an Agreement has already been created.

Which three elements of the booking setup are valid? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Preferred Resource either contains data or is blank
- B. Preferred Resource contains data
- C. Auto Generate Work Order = Yes
- D. Auto Generate Work Order = No
- E. Pre-Booking Flexibility = 2 and Post Booking Flexibility = 2

Answer: A,C,E

NEW QUESTION # 211

You are a dispatcher for a cable installation company that provides installation services in multiple territories.

The company is using Dynamics 365 for Field Service to manage their work orders. Every time a work order is created, the dispatch team is manually assigning the work order to a territory in order to book the correct resources.

You are tasked with ensuring that Dynamics 365 will automatically assign work orders to territories so that the dispatcher can search for the correct resources.

Which four steps, in sequence, must be configured to ensure that when work orders are created they will automatically be mapped to the correct territory? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Steps

Add new resource territories.

Add new service territories.

Assign members to territories.

Map postal codes to service territories.

From the view of Active Resources, click the assign territories button in the menu ribbon.

Use the territory lookup on each user record to assign territory.

Answer:

Explanation:

Steps

Add new resource territories.

Add new service territories.

Assign members to territories.

Map postal codes to service territories.

From the view of Active Resources, click the assign territories button in the menu ribbon.

Use the territory lookup on each user record to assign territory.
