2025 Certinia PSA-Sysadmin: PSA System Administrator 2023 Fantastic Real Question

Our PSA-Sysadmin study materials do our best to find all the valuable reference books, then, the product we hired experts will carefully analyzing and summarizing the related materials, such as: PSA-Sysadmin PSA-Sysadmin exam, eventually form a complete set of the review system. Experts before starting the compilation of "the PSA-Sysadmin study materials ", has put all the contents of the knowledge point build a clear framework in mind, though it needs a long wait, but product experts and not give up, but always adhere to the effort, in the end, they finished all the compilation. So, you're lucky enough to meet our PSA-Sysadmin Study Materials I, and it's all the work of the experts.

Certinia PSA System Administrator 2023 Sample Questions (Q42-Q47):

NEW QUESTION # 42

Where would you go to delete Actuals, Billing, and EVAs app logs?

- A. Foundations Set Up > Scheduled Jobs > App Log Cleanup Job
- **B. PSA Administration page > PSA Batch Processes > App Log Cleanup Job**
- C. Set Up > Scheduled Jobs > App Log Cleanup Job

Answer: B

Explanation:

To delete Actuals, Billing, and EVAs app logs, follow these steps:

- * Navigate to PSA Administration:
- * Click on App Launcher in Salesforce.
- * Search for and select PSA Administration.
- * Locate the App Log Cleanup Job:
- * Go to PSA Batch Processes.
- * Look for App Log Cleanup Job.
- * Execute the Cleanup Job:
- * Click on Run Now to initiate the job.
- * This will delete old app logs related to Actuals, Billing, and EVAs.
- * Schedule Automatic Cleanup (Optional):
- * If frequent cleanup is required, schedule the App Log Cleanup Job to run periodically.
- * PSA System Administration Guide
- * Certinia PSA Data Dictionary and Administration Guide

NEW QUESTION # 43

When a Timecard is entered into the system, a record is generated that can be used in calculating Actuals. What is that record called?

- A. A "Transaction Delta" record
- B. A "Revenue Item" record
- C. An "Accounting Log" record

Answer: A

Explanation:

When a timecard is entered into the system, a Transaction Delta record is generated. This record is essential for calculating actuals.

- * What is a Transaction Delta Record?
- * It is a record that tracks the impact of approved timecards, budgets, billable milestones, and other financial elements.
- * It signals which fields need to be updated in project actuals.
- * Process Flow in Scheduled Mode:
- * When a timecard is approved, the system creates a Transaction Delta record.
- * The Actuals Job picks up this delta record and updates actuals.
- * The Transaction Delta record is deleted once the update is complete.
- * Where to Monitor Transaction Delta Records?
- * Add the following related lists to the Project page layout:
- * Project Actuals
- * Transaction Log
- * Transaction Deltas
- * Troubleshooting Errors with Actuals:
- * If actuals are not reflecting, check for unprocessed Transaction Delta records.
- * Manually trigger the Actuals Calculation Job from the PSA Administration tab.
- * Certinia PSA Actuals Processing Guide
- * Certinia PSA System Administration Essentials

NEW QUESTION # 44

You have set up a Flow to automatically assign a resource's manager to the approver field on Timecards.

Users have reported that submitted Timecards are going to the Project Manager for approval and not the resource's manager. Of the following, which could be a reason for this?

- A. The configuration option Assign Project Manager To Time card Approver is set to True
- B. The process builder to assign the resource's manager is not active
- C. PSA requires that only Project Managers can approve Timecards

Answer: A

Explanation:

Step-by-Step Comprehensive Detailed Explanation

- * Understanding the Timecard Approval Process in PSA
- * By default, the timecard approval process in Certinia PSA (formerly FinancialForce PSA) follows a specific hierarchy.
- * If the project is a billable project and the Project Manager field is filled, the Project Manager is automatically assigned as the approver for timecards.
- * If the Project Manager field is blank or the project is non-billable, PSA uses the resource's manager as the approver (based on the Manager field in the Salesforce User record).
- * How Flows Work in Assigning Approvers
- * If you have created a Flow to automatically assign the resource's manager as the timecard approver, it means you are trying to override the default approval process.
- * However, if the Assign Project Manager To Timecard Approver configuration option is enabled, PSA will still prioritize the Project Manager over the resource's manager, regardless of your Flow settings.
- * This would explain why submitted timecards are still being assigned to the Project Manager instead of the resource's manager.
- * Why the Other Options Are Incorrect
- * A. PSA requires that only Project Managers can approve Timecards
- * This is incorrect because PSA allows timecards to be approved by either the Project Manager or the Resource's Manager, depending on the project settings.

- * B. The process builder to assign the resource's manager is not active
 - * While this could be a factor, the main reason is the configuration setting that forces the Project Manager to be the default approver.
 - * Even if the Flow was working correctly, the Assign Project Manager To Timecard Approver setting would still take precedence.
 - * How to Fix the Issue
 - * Navigate to PSA Configuration Settings and check the Assign Project Manager To Timecard Approver setting.
 - * If it is set to True, change it to False to allow the Flow to correctly assign the resource's manager as the approver.
 - * Test by submitting a new timecard and verifying the assigned approver.
- References and Verified Certinia PSA Documentation
- * PSA System Administration Guide: Timecard Approval Process.
 - * FinancialForce PSA Approval Workflow: Default Approver Rules.

NEW QUESTION # 45

In your Company, a Resource Manager wants to provide the option for Resources to nominate themselves for upcoming work they are interested in. How can you set this up?

- A. Enable "Self-Nominate for Work" custom setting > add the "PSA Self-Nomination" Lightning component to the Project Detail Page
- **B. Enable "Self-Nominate for Resource Request" custom setting > add the "PSA Resource Self-Nomination" Lightning component to the Resource Request Detail Page**
- C. Enable "Candidates Can Self-Nominate for Work" custom setting > add the "PSA Resource Self-Nomination" Lightning component to the Lightning Home page

Answer: B

Explanation:

- * Understanding Self-Nomination for Resource Requests
- * PSA allows resources to express interest in upcoming projects using the Self-Nomination feature.
- * This feature can be enabled through a Custom Setting, which then allows the "PSA Resource Self-Nomination" Lightning component to be used.
- * How to Enable Self-Nomination for Resource Requests
- * Step 1: Navigate to Setup in Salesforce.
- * Step 2: Search for Custom Settings and select it.
- * Step 3: Find and enable "Self-Nominate for Resource Request".
- * Step 4: Open the Lightning App Builder and edit the Resource Request Detail Page.
- * Step 5: Add the "PSA Resource Self-Nomination" Lightning component to the page.
- * Step 6: Save and activate the page.
- * Why This Works?
- * The "Self-Nominate for Resource Request" setting allows resources to nominate themselves for work using the Lightning component.
- * By adding this component to the Resource Request Detail Page, eligible resources can easily apply for available projects.
- * PSA Sys Admin Essentials Student Guide Fall 20 (2).pdf, Page 65.
