The CAMS certification is highly valued by employers in the financial industry, including banks, insurance companies, and investment firms. Certified Anti-Money Laundering Specialists (the 6th edition) certification demonstrates a commitment to the highest standards of AML compliance and highlights the holder's ability to identify and mitigate the risks associated with money laundering. The CAMS credential is recognized by regulatory bodies worldwide, including the Financial Crimes Enforcement Network (FinCEN) in the United States, the Financial Action Task Force (FATF) and the Office of Foreign Assets Control (OFAC).

ACAMS CAMS (Certified Anti-Money Laundering Specialists) Exam is a globally recognized certification program designed for professionals who are working in the anti-money laundering (AML) industry. It is a rigorous program that measures the knowledge and skills of individuals who are responsible for detecting and preventing money laundering activities in their organizations. The CAMS exam is a well-respected credential that demonstrates a professional's commitment to AML compliance and their expertise in the field.

It is one of the most prestigious certifications in the AML industry, and it is highly valued by employers and regulatory agencies around the world.

ACAMS Certified Anti-Money Laundering Specialists (the 6th edition)

Sample Questions (Q186-Q191):

NEW QUESTION # 186

You have a solution that runs on a five-node Azure Kubernetes Service (AKS) cluster. The cluster uses an N- series virtual machine.

An Azure Batch AI process runs once a day and rarely on demand.

You need to recommend a solution to maintain the cluster configuration when the cluster is not in use. The solution must not incur any compute costs.

What should you include in the recommendation?

- A. Downscale the cluster to one node
- B. Delete the cluster
- C. Downscale the cluster to zero nodes

Answer: A

Explanation:

An AKS cluster has one or more nodes.

NEW QUESTION # 187

OFAC-issued regulations apply to which entities? (Choose two.)

- A. Foreign banks with US customers
- B. Foreign subsidiaries of US banks
- C. Foreign import-export companies
- D. Intermediaries transacting with US banks
- E. US branches of a foreign bank

Answer: B,E

Explanation:

OFAC-issued regulations apply to all U.S. persons, including U.S. banks, bank holding companies, and non- bank subsidiaries, regardless of where they are located. This means that foreign subsidiaries of U.S. banks and U.S. branches of a foreign bank are also subject to OFAC compliance. However, intermediaries transacting with U.S. banks, foreign banks with U.S. customers, and foreign import-export companies are not necessarily subject to OFAC regulations, unless they are involved in transactions that involve U.S. jurisdiction or U.S. persons.

NEW QUESTION # 188

What correspondent banking risk factor increases the risk for a Correspondent Bank?

- A. Major service provider to money service businesses
- B. Offers international funds transfer to customers
- C. Multi-national financial institution with global operations
- D. Limited product offering to customers in high-risk jurisdictions

Answer: A

NEW QUESTION # 189

Findings from a regulatory examination report states that the job descriptions of personnel outside of the compliance department do

not include references to anti-money laundering responsibilities.
Which action should the firm take?

- A. Reply that a description of anti-money laundering responsibilities is included in the annual training
- B. Update all job descriptions to include anti-money laundering responsibilities
- C. Send an email to all staff stating that personnel must observe the anti-money laundering policy
- D. Respond that only compliance personnel have anti-money laundering responsibilities

Answer: A

NEW QUESTION # 190

A new customer has just been onboarded in a securities firm. After a few weeks, there are unusual trading patterns that are being flagged. Which pattern is most concerning to the compliance officer?

- A. The customer accumulates securities of a low volume counter in small increments on a weekly basis.
- B. The customer engages in large trading in securities that are liquid or highly priced from the trading account.
- C. The customer's repeated trading in securities that are low priced and low volume counters.
- D. The customer receives many incoming wire transfers from related parties to the trading account.

Answer: A

Explanation:

The most concerning trading pattern for a compliance officer when a new customer has been onboarded in a securities firm is the customer accumulating securities of a low volume counter in small increments on a weekly basis. This type of behavior could indicate that the customer is attempting to obscure their identity or the true purpose of their trading activity, which can be indicative of money laundering or other suspicious activity. (CAMS Manual, 6th Edition, Page 170).
