ABPMP International Certified Business Process Associate (CBPA) Exam Sample Questions (Q64-Q69):

NEW QUESTION # 64

Which type of software supports custom application generation in business process management?

- A. Enterprise Architecture Management System
- B. Enterprise Resource Planning Systems
- C. Document Management Systems
- **D. Intelligent Business Process Management System**

Answer: D

Explanation:

An Intelligent Business Process Management System (iBPMS) supports not only execution and monitoring but also custom application generation, often including low-code or no-code development platforms for business users.

"iBPMS extends traditional BPM systems by integrating real-time analytics, low-code application platforms, and decision management to support dynamic, custom applications."

NEW QUESTION # 65

Which is NOT an activity of process transformation?

- A. Change management in organizations
- **B. Selection of outsource vendors**
- C. Selection of methodologies for process improvement
- D. Process optimization

Answer: B

Explanation:

Process transformation activities focus on redesigning business processes, improving performance, ensuring alignment with strategy, and managing the human side of change. Selecting outsourcing vendors is a procurement or operational activity, not a core transformation initiative.

"Process transformation includes activities such as process redesign, optimization, alignment with strategy, and managing the organizational and cultural change through change management."

NEW QUESTION # 66

Which statement is true for process-driven organizations?

- A. They are structured, managed, and controlled around business functions.
- **B. They are structured, managed, and controlled around core processes.**
- C. They avoid organizational changes to provide stable processes.
- D. Roles across departments are managed by business rules.

Answer: B

Explanation:

A process-driven organization is organized around core, end-to-end processes rather than traditional functions. This fosters cross-functional collaboration, clarity in ownership, and improved alignment with customer outcomes.

"Process-driven organizations are designed and managed around core processes rather than functional departments, enabling better customer value delivery and agility."

- ABPMP CBOK, Chapter 9 - Process Organization

NEW QUESTION # 67

What are the minimum critical success factors for a successful process analysis?

- **A. Executive leadership, appropriate metrics and their measures, and customer interactions**

- B. Teams of organizational managers whose members have access to all experts in the process
- C. Executive leadership, benchmarks, customer interactions, and non-cultural considerations
- D. Executive leadership, front-line managers, consultants, and technology experts

Answer: A

Explanation:

Successful process analysis requires:

- * Executive sponsorship to enable change and allocate resources
- * Meaningful metrics and measurements to assess current state and identify opportunities
- * Customer insights to ensure changes align with value creation

"Key success factors for process analysis include strong executive leadership, relevant and well-understood performance metrics, and engagement with the customer perspective to assess the value delivered."

- ABPMP CBOK, Chapter 4 - Process Analysis

Without these, analysis may lack:

- * Authority to change
- * Valid performance benchmarks
- * Understanding of customer impact

NEW QUESTION # 68

Which option is NOT used in Business Process Management (BPM)?

- A. Lean Management
- B. Total Quality Management (TQM)
- C. Six Sigma
- **D. Overhead value analysis**

Answer: D

Explanation:

Overhead value analysis is not a standard BPM methodology. The most commonly integrated methodologies in BPM include:

- * Six Sigma (focuses on reducing variation and defects)
- * Lean (focuses on removing waste)
- * TQM (continuous quality improvement across the organization)

"BPM incorporates tools and methodologies such as Lean, Six Sigma, and TQM to drive process improvement. Overhead value analysis is not a formally recognized BPM technique."
