

UiPath-TAEPv1 Latest Test Guide & UiPath-TAEPv1 Exam Test

P.S. Free & New UiPath-TAEPv1 dumps are available on Google Drive shared by Real4exams: <https://drive.google.com/open?id=1ullek9BCGcjMk7ktL9dhvZZXZIVZqJ>

The industry experts hired by UiPath-TAEPv1 exam materials are those who have been engaged in the research of UiPath-TAEPv1 exam for many years. They have a keen sense of smell in the direction of the exam. Therefore, they can make accurate predictions on the exam questions. Therefore, our study materials specifically introduce a mock examination function. With UiPath-TAEPv1 exam materials, you can not only feel the real exam environment, but also experience the difficulty of the exam. You can test your true level through simulated exams. At the same time, after repeated practice of UiPath-TAEPv1 study braindumps, I believe that you will feel familiar with these questions during the exam and you will feel that taking the exam is as easy as doing exercises in peace.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	• UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.
Topic 2	• UiPath Test Suite Architecture and API Integrations: This section of the exam measures the skills of Test Automation Engineers and covers the fundamental capabilities of UiPath Test Suite in automating different types of testing such as UI, API, and data-driven testing. It includes an overview of Test Suite tools and how they integrate with each other, as well as with third-party application lifecycle management (ALM) tools through APIs. Candidates are expected to understand API testing concepts and how external tools can be connected for requirement synchronization, defect management, and test case tracking.
Topic 3	• Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.

Topic 4	• UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 5	• CI • CD Implementation: This section of the exam measures the skills of RPA Developers and introduces the concepts of Continuous Integration and Continuous Delivery (CI • CD). It covers how to implement pipelines and perform tasks using the UiPath Command Line Interface (CLI) for streamlined and automated deployments of test workflows and processes.

UiPath-TAEPv1 Exam Test - UiPath-TAEPv1 Reliable Guide Files

Unfortunately, many candidates don't pass the UiPath-TAEPv1 exam because they rely on outdated UiPath Test Automation Engineer Professional v1.0 exam preparation material. Failure leads to anxiety and money loss. You can avoid this situation with Real4exams that provides you with the most reliable and actual UiPath UiPath-TAEPv1 Dumps with their real answers for UiPath-TAEPv1 exam preparation. This UiPath-TAEPv1 exam material contains all kinds of actual UiPath Test Automation Engineer Professional v1.0 exam questions and practice tests to help you to ace your exam on the first attempt.

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q101-Q106):

NEW QUESTION # 101

What should be ensured before uploading items to test data queues?

- A. The administrator permissions for Orchestrator is obtained.
- B. The test data queue was uploaded to the server.
- C. All the items in the queue are set as consumed.
- **D. The creation of a test data queue with a corresponding JSON schema.**

Answer: D

Explanation:

Before uploading items to test data queues, it is essential to ensure that the test data queue is created with a corresponding JSON schema. This schema defines the structure of the data to be uploaded, ensuring that the items are correctly formatted and compatible with the test case execution.

NEW QUESTION # 102

What happens with the attachment if an Attach Document activity in a workflow is run, as part of an automation job?

- A. Attachments support only the following type of files: JSON, TXT, XML, PNG and JPEG formats.
- B. The attachment is available.
- **C. The attachment is unavailable.**
- D. The attachments are available only if the workflow is run as part of a job.

Answer: C

Explanation:

When an Attach Document activity is run as part of an automation job, the attachment is unavailable. This activity is intended for test case execution contexts where attachments are linked to test results, not regular automation jobs.

NEW QUESTION # 103

What does the Run All in View action in the Test Explorer panel do?

- A. It runs all test cases and workflows.
- B. It runs only failed test cases.
- **C. It runs tests that are currently in view through all filters.**
- D. It runs only selected test cases and workflows.

Answer: C

Explanation:

The Run All in View action in the Test Explorer panel executes all test cases currently visible after applying filters or folder selections. This allows users to target specific subsets of test cases without manually selecting each one.

NEW QUESTION # 104

What is a primary distinction between manual and automated test execution in UiPath Test Manager?

- A. Manual executions are done for test sets created in UiPath Test Manager or linked from Orchestrator with manual steps, while automated executions are invoked through Orchestrator for test cases linked from Studio.
- **B. Manual executions require user interaction for each test step, while automated executions are self-running without any manual intervention.**
- C. Manual and automated test executions do not have specific distinctions and can be executed interchangeably.
- D. Automated test executions can be performed only in UiPath Orchestrator, while manual executions can only be performed in UiPath Test Manager.

Answer: B

Explanation:

The primary distinction is that manual executions require user interaction for each test step, making them suitable for scenarios like exploratory testing or steps requiring human validation. In contrast, automated executions are fully self-running, executed via Orchestrator without manual involvement.

NEW QUESTION # 105

A developer has a test case created in Studio that is linked to a Test Data Queue in Orchestrator. Recently, the data in the Test Data Queue have been updated. What is the fastest way for the developer to test with the new test data?

- A. Right click on the test case in Project panel + 'Update Test Data' + 'Run File' on the specific test case in Design tab.
- **B. Using 'Update Test Data' + 'Run' in Test Explorer panel.**
- C. Using 'Run File' on the specific test case in Design tab.
- D. Using 'Run' on the specific test case in Test Explorer panel.

Answer: B

Explanation:

The fastest way to test with updated data from a Test Data Queue is by selecting 'Update Test Data' followed by 'Run' from the Test Explorer panel. This ensures the latest queue items are pulled and used during execution.

NEW QUESTION # 106

.....

There are only key points in our UiPath-TAEPv1 training materials. From the experience of our former customers, you can finish practicing all the contents in our UiPath-TAEPv1 guide quiz within 20 to 30 hours, which is enough for you to pass the UiPath-TAEPv1 Exam as well as get the related certification. That is to say, you can pass the UiPath-TAEPv1 exam as well as getting the related certification only with the minimum of time and efforts under the guidance of our study prep.
