

UiPath-TAEPv1 Question Explanations | Reliable UiPath-TAEPv1 Test Experience

SE	Reg no : _____ Name : _____
AMAL JYOTHI COLLEGE OF ENGINEERING AUTONOMOUS Module Preview 23EET301 Power Systems I-Module 4	
Time: 3 Hours	Maximum Marks: 100

PART A
Answer all questions, each carries 3 Marks.

1. Define the different ratings of a circuit breaker (3)
2. Define RRRV. Derive an expression for it. (3)
3. Discuss the different factors which affect arc extinction in circuit breakers (3)
4. List the causes of overvoltages in a power system (3)
5. With the help of a block diagram, explain the working of a static relay. (3)
6. Define the following terms. (3)
 1. Arc voltage,
 2. Restriking voltage,
 3. Recovery voltage
7. Define the terms Restriking voltage, Recovery voltage and rate of rise of restriking voltage with reference to the operation of circuit breakers (3)
8. Explain the principle of fibre optic communication in transmission system (3)
9. Write notes on insulation co-ordination (3)
10. With the help of a neat diagram, explain the working of a thermal relay (3)
11. What are the advantages and disadvantages of a numeric relay (3)
12. Explain the significance of insulation coordination in power system (3)

PART B
Answer any 1 question(s) from each module, each carries 14 Marks.

Module 4

- 13 a. Explain the phenomenon of arc formation. What are different arc interruption methods used? (5)
- b. With the help of a neat diagram explain the working of Puffer type SF6 circuit breaker. (5)
- c. List out the advantages of GIS (4)

OR

- 14 a. Explain the operation of a Vacuum CB using a neat sketch and write its advantages (7)
- b. Write notes on GIS (7)
- 15 a. What are the basic requirements of a protective relaying (5)
- b. Draw the block diagram of microprocessor based over current relay. (5)

The language in our UiPath UiPath-TAEPv1 test guide is easy to understand that will make any learner without any learning disabilities, whether you are a student or a in-service staff, whether you are a novice or an experienced staff who has abundant experience for many years. It should be a great wonderful idea to choose our UiPath-TAEPv1 Guide Torrent for sailing through the difficult test.

UiPath UiPath-TAEPv1 Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"> UiPath Test Manager: This section of the exam measures the skills of Test Automation Engineers and focuses on using UiPath Test Manager for managing test lifecycles. It includes actions like defining custom fields, managing access, importing exporting projects, and documenting manual steps using UiPath Task Capture. It also explains how to analyze test results, handle execution re-runs, manage KPIs, and create defects for failed test cases, along with troubleshooting common errors.:

Topic 2	<ul style="list-style-type: none"> • UiPath Studio - Testing Panels and Templates: This section of the exam measures the skills of RPA Developers and focuses on how to work with testing panels in UiPath Studio. It includes how to create, import, and manage test cases, along with the use of Test Explorer for analyzing test outcomes. It also covers Descriptor and Activity Coverage panels used for examining object recognition and checking redundancy in test cases. The section further explains testing project templates, the Test Automation Framework, and how to customize execution and test case templates.
Topic 3	<ul style="list-style-type: none"> • UiPath Studio - Test Activities and Workflow Best Practices: This section of the exam measures the skills of Test Automation Engineers and evaluates knowledge of using verification activities and test-specific functions within UiPath Studio. It involves working with test data generation, document attachments in test cases, and applying workflow analyzer rules for stable collaboration. It also includes mock testing to isolate test case components and ensure focused validations.
Topic 4	<ul style="list-style-type: none"> • Testing Process: This section of the exam measures the skills of Test Automation Engineers and focuses on applying best practices in test case design and execution. It outlines the importance of structured application testing in UiPath and emphasizes quality assurance through automation.
Topic 5	<ul style="list-style-type: none"> • Environments, Applications, and • or Tools: This section of the exam measures the skills of RPA Developers and evaluates comfort with various tools and environments commonly used with UiPath. These include Microsoft Excel, JSON, XML, ERPs, web elements, browsers, virtual machines, version control systems, and UiPath components such as Studio, Orchestrator, and Robots.
Topic 6	<ul style="list-style-type: none"> • UiPath Test Suite – Orchestrator: This section of the exam measures the skills of Test Automation Engineers and covers how to manage test sets in UiPath Orchestrator. It includes creating, executing, scheduling, and deleting test sets, using test data queues, and analyzing results from the Test Execution page. It also discusses re-executing tests and linking test sets for better orchestration of test activities.

Reliable UiPath-TAEPv1 Test Experience - UiPath-TAEPv1 Reliable Test Cost

ValidVCE presents its UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) exam product at an affordable price as we know that applicants desire to save money. To gain all these benefits you need to enroll in the UiPath Test Automation Engineer Professional v1.0 EXAM and put all your efforts to pass the challenging UiPath Test Automation Engineer Professional v1.0 (UiPath-TAEPv1) exam easily. In addition, you can test specs of the UiPath Test Automation Engineer Professional v1.0 practice material before buying by trying a free demo. These incredible features make ValidVCE prep material the best option to succeed in the UiPath UiPath-TAEPv1 examination. Therefore, don't wait. Order Now !!!

UiPath Test Automation Engineer Professional v1.0 Sample Questions (Q64-Q69):

NEW QUESTION # 64

Here's a more structured interpretation of the options:

- A. Only the Test Executor can perform re-executions.
- B. Only the Test Manager can perform re-executions.
- C. The pre-defined user roles that can perform re-executions are: Test Manager, Test Executor and Manual Tester.
- D. Any user with access to the Test Manager can perform re-executions.

Answer: C

Explanation:

In UiPath Test Manager, the ability to re-execute test executions is granted to specific pre-defined user roles, including Test Manager, Test Executor, and Manual Tester. These roles are designed to manage and validate test runs as part of the testing lifecycle.

NEW QUESTION # 65

What are the possible scenarios where Test Manager API can be used to integrate UiPath Test Manager with other tools?

- A. Assign test cases to external automations.
- B. Create requirements in external tools.
- C. Synchronize test sets with external automations.
- D. Fetch results into external tools.

Answer: D

Explanation:

The Test Manager API can be used to fetch test execution results into external tools, enabling integration with dashboards, reporting systems, or other ALM platforms for analysis and traceability.

NEW QUESTION # 66

In which of the following cases is the Self-Hosted agent needed when creating a pipeline using the UiPath Integration for Azure DevOps?

- A. In cases where the Orchestrator is not accessible from the public internet.
- B. In cases where UiPath Orchestrator is not available.
- C. In cases where Cross-Platform projects are built and deployed.
- D. In cases where an External Application cannot be created in order to connect to UiPath Orchestrator.

Answer: A

Explanation:

A Self-Hosted agent is required when creating a pipeline using the UiPath Integration for Azure DevOps in cases where Orchestrator is not accessible from the public internet. This agent acts as an intermediary to facilitate communication between the DevOps pipeline and Orchestrator when direct internet access is not available.

NEW QUESTION # 67

Why are test cases duplicated in orchestrator for the scenario below?

Test Sets Test Cases Test Executions Test Schedules Test Data Queues			
Q Test Case		Columns	Project: All
0 rows selected			
<input type="checkbox"/>	Test Case	Project	↻
<input type="checkbox"/>	TestCase	TestAutomationProject	↻
<input type="checkbox"/>	TestCase	TestAutomationProject	↻
<input type="checkbox"/>	TestCase	TestAutomationProject	↻

- A. Different project versions were used while publishing the test automation project.
- B. Different test automation project machine hosts were used while publishing.
- C. The Test Case is used in multiple Test Sets.
- D. The Test Case is linked to multiple Test Manager projects.

Answer: A

Explanation:

Test cases are duplicated in Orchestrator when different project versions are used while publishing the test automation project. Each published version of the project includes its own instance of the test case, resulting in multiple entries appearing in Orchestrator.

NEW QUESTION # 68

According to best practices, how should the renaming, moving, or deleting of test cases in the project be handled?

- A. Test cases should be renamed or moved outside of Studio and then re-imported.
- **B. Do not rename move or delete the test cases outside of Studio.**
- C. Test cases can be renamed, moved or deleted outside of Studio.
- D. The renaming, moving or deleting of test cases can be handled either inside or outside Studio, there is no preferred way.

Answer: B

Explanation:

According to best practices, test cases should not be renamed, moved, or deleted outside of UiPath Studio. Making such changes externally can lead to discrepancies in the project structure and potentially break links or references within the testing framework. Performing these actions within Studio ensures that all changes are properly tracked and synchronized across the test suite.

NEW QUESTION # 69

.....

We provide varied functions to help the learners learn our UiPath-TAEPv1 study materials and prepare for the exam. The self-learning and self-evaluation functions of our UiPath-TAEPv1 exam questions help the learners check their learning results and the statistics and report functions help the learners find their weak links and improve them promptly. And you will be more confident as you know the inform of the UiPath-TAEPv1 Exam and the questions and answers.
