

Unlimited CMMC-CCP Exam Practice, CMMC-CCP Latest Test Fee

CMMC CCP PRACTICE EXAM QUESTIONS (DERIVED FROM SHANE'S PRACTICE TEST AND DIRECTLY FROM THE CAP) QUESTIONS WITH COMPLETE SOLUTIONS!!

What is a CUI Asset? Answer - Asset that stores, processes, or transmits CUI
Examples: Servers, Printers, Endpoints, Cloud Services, ERP Systems

Where do you document a CUI Asset? Answer - Document in Asset Inventory
Document in SSP
Document in Network Diagram

What practices do you apply to a CUI Asset? Answer - CMMC Level 2

What does CMMC stand for? Answer - Cybersecurity Maturity Model Certification

How many controls are in CMMC L2? Answer - 110 controls

What impact level is required when storing CUI? Answer - IL4

What contract clause is used for CMMC L1? Answer - FAR 52.204-21 (17 practices in total)

If you want to be CMMC L2 compliant, do you need to also be CMMC L1 compliant?
Answer - Yes

What do you call the part before the first period in the following control? AC.L1-3.1.1
Answer - Domain

What do you call the part after the first period in the following control? AC.L1-3.1.1
Answer - Level

What do you call the part after the dash in the following control? AC.L1-3.1.1 Answer
- Security Practice Number

What is confidentiality? Answer - Information Access and disclosure includes means for protecting personal privacy and proprietary information.

Pass4suresVCE almost aimed to meet the needs of all candidates who want to pass the CMMC-CCP exam. If someone who don't have enough time to prepare for their exam, our website provide they with test answers which only need 20-30 hours to grasp; If someone who worry about failed the CMMC-CCP Exam, our website can guarantee that they can get full refund. In summary, the easiest way to prepare for CMMC-CCP certification exam is to complete CMMC-CCP study material.

Our CMMC-CCP guide torrent is compiled by experts and approved by the experienced professionals. They are revised and updated according to the change of the syllabus and the latest development situation in the theory and practice. The language is easy to be understood to make any learners have no learning obstacles and our CMMC-CCP study questions are suitable for any learners. Our CMMC-CCP study questions are linked tightly with the exam papers in the past and conform to the popular trend in the industry. Our product convey you more important information with less amount of the questions and answers. Thus we can be sure that our CMMC-CCP guide torrent are of high quality and can help you pass the exam with high probability.

100% Pass 2025 Perfect CMMC-CCP: Unlimited Certified CMMC Professional (CCP) Exam Exam Practice

The Certified CMMC Professional (CCP) Exam (CMMC-CCP) certification has become a basic requirement to advance rapidly in the information technology sector. Since Certified CMMC Professional (CCP) Exam (CMMC-CCP) actual dumps are vital to prepare quickly for the examination. Therefore, you will need them if you desire to ace the Certified CMMC Professional (CCP) Exam (CMMC-CCP) exam in a short time.

Cyber AB Certified CMMC Professional (CCP) Exam Sample Questions (Q64-Q69):

NEW QUESTION # 64

A company is about to conduct a press release. According to AC.L1-3.1.22: Control information posted or processed on publicly accessible systems, what is the MOST important factor to consider when addressing CMMC requirements?

- A. That the information is correct
- B. That so long as the information is only FCI, it can be released
- **C. That the company has to safeguard the release of FCI**
- D. That the CEO approved the message

Answer: C

Explanation:

AC.L1-3.1.22 states: "Control information posted or processed on publicly accessible systems." This control requires organizations to ensure that FCI (Federal Contract Information) is not publicly posted or made accessible in an uncontrolled manner.

FCI must be protected from unauthorized disclosure, even if it is not classified or CUI.

Reference:

NIST SP 800-171, Requirement 3.1.22

CMMC Level 1 Practice AC.L1-3.1.22

Step 2: Why Safeguarding FCI is Critical in a Press Release If the company releases a press statement that includes FCI, it must ensure that the information is not inadvertently exposing sensitive contract-related data.

FCI includes information provided by or generated for the DoD under a contract that is not intended for public release.

Organizations must implement controls to prevent unintentional exposure.

Step 3: Why Other Answer Choices Are Incorrect A. That the information is correct (Incorrect):

While accuracy is important, CMMC requirements focus on protecting sensitive information, not just ensuring correctness.

B). That the CEO approved the message (Incorrect):

CEO approval does not satisfy CMMC compliance, as it does not address safeguarding FCI.

D). That so long as the information is only FCI, it can be released (Incorrect):

FCI must be protected and cannot be publicly disclosed unless specifically authorized by the DoD.

Final Confirmation of Correct Answer The company must safeguard FCI and ensure that no unauthorized disclosures occur in a public press release.

Thus, the correct answer is: C. That the company has to safeguard the release of FCI

NEW QUESTION # 65

An OSC needs to be assessed on RA.L2-3.11.1: Periodically assess the risk to organizational operations (including mission, functions, image, or reputation), organizational assets, and individuals, resulting from the operation of organizational systems and the associated processing, storage, or transmission of CUI. What is in scope for a Level 2 assessment of RA.L2-3.11.1?

- A. Enterprise systems
- B. IT systems
- **C. Processes, people, physical entities, and IT systems in which CUI processed, stored, or transmitted**
- D. CUI Marking processes

Answer: C

Explanation:

Understanding RA.L2-3.11.1 Risk Assessment Scope in CMMC Level 2 The CMMC Level 2 control RA.L2-

3.11.1 aligns with NIST SP 800-171, Requirement 3.11.1, which mandates that organizations periodically assess risks to operations, assets, and individuals arising from the processing, storage, or transmission of CUI.

What is Required for Compliance?

The organization must perform risk assessments on all assets and entities involved in handling CUI.

Risk assessments must evaluate potential threats, vulnerabilities, and impacts on CUI security.

The scope must include people, processes, physical locations, and IT systems to ensure comprehensive risk management. Why the Correct Answer is "Processes, people, physical entities, and IT systems in which CUI is processed, stored, or transmitted": CUI can be exposed to risk in multiple ways—not just IT systems but also human error, physical security gaps, and process weaknesses.

Risk assessments must evaluate all areas that could impact CUI security, including:

Personnel security risks (e.g., insider threats, phishing attacks).

Process vulnerabilities (e.g., mishandling of CUI, policy weaknesses).

Physical security risks (e.g., unauthorized access to servers, storage rooms).

IT systems (e.g., networks, servers, cloud environments processing CUI).

A). "IT systems" Too narrow. Risk assessment must cover more than just IT systems, including people, physical assets, and processes affecting CUI.

B). "Enterprise systems" Too broad. While enterprise systems might be assessed, the focus is specifically on areas handling CUI, not all enterprise operations.

C). "CUI Marking processes" Incorrect focus. While marking CUI correctly is important, RA.L2-3.11.1 pertains to risk assessments, not data classification.

References: NIST SP 800-171 Rev. 2 - Requirement 3.11.1 (NIST Official Site) CMMC 2.0 Level 2 Assessment Guide - Risk Assessment Domain (Cyber AB)

Final Answer D. Processes, people, physical entities, and IT systems in which CUI is processed, stored, or transmitted.

NEW QUESTION # 66

During the planning phase of the Assessment Process, C3PAO staff are reviewing the various entities associated with an OSC that has requested a CMMC Level 2 Assessment. Which term describes the people, processes, and technology external to the HQ Organization that participate in the assessment but will not receive a CMMC Level unless an enterprise Assessment is conducted?

- A. Organization
- B. Coordinating Unit
- C. Host Unit
- D. Supporting Organization/Unit

Answer: D

Explanation:

In the context of the Cybersecurity Maturity Model Certification (CMMC) Assessment Process, understanding the roles of various entities associated with an Organization Seeking Certification (OSC) is crucial during the planning phase. When a Certified Third-Party Assessment Organization (C3PAO) staff reviews these entities for a CMMC Level 2 Assessment, it's essential to distinguish between internal components and external participants.

Step-by-Step Explanation:

* Definition of the HQ Organization:

* The HQ Organization refers to the entire legal entity delivering services under the terms of a Department of Defense (DoD) contract. This entity is responsible for ensuring compliance with CMMC requirements.

* Identification of External Entities:

* External entities encompass people, processes, and technology that are not part of the HQ Organization but support its operations. These entities participate in the assessment process due to their involvement in handling Controlled Unclassified Information (CUI) or Federal Contract Information (FCI) related to the DoD contract.

* Role of Supporting Organizations/Units:

* According to the CMMC Assessment Process documentation, Supporting Organizations are defined as "the people, procedures, and technology external to the HQ Organization that support the Host Unit." These external entities are integral to the operations of the Host Unit but are not encompassed within the HQ Organization's immediate structure.

* Assessment Implications:

* While Supporting Organizations/Units play a vital role in supporting the Host Unit, they do not receive a separate CMMC Level certification unless an enterprise assessment is conducted. In such cases, the assessment would encompass both the HQ Organization and its Supporting Organizations to ensure comprehensive compliance across all associated entities.

References:

CMMC Assessment Process documentation defines Supporting Organizations as external entities that support the Host Unit. Cyberab

By accurately identifying and understanding the role of Supporting Organizations/Units, the C3PAO ensures that all relevant entities are considered during the assessment planning phase, thereby maintaining the integrity and comprehensiveness of the CMMC Level 2 Assessment.

NEW QUESTION # 67

A server is used to store FCI with a cloud provider long-term. What is the server considered?

- **A. In scope, because the cloud provider will be storing the FCI data**
- B. Out of scope, because encryption is always used when the cloud provider stores the FCI data
- C. Out of scope, because the cloud provider stores the FCI data long-term
- D. In scope, because the cloud provider is required to be CMMC Level 2 certified

Answer: A

Explanation:

Assets that store, process, or transmit FCI or CUI are always in scope for CMMC. If a server with a cloud provider is used for long-term storage of FCI, that server is considered in scope because it directly holds covered data.

Supporting Extracts from Official Content:

- * CMMC Scoping Guide for Level 1: "Assets that store, process, or transmit FCI are in scope."
- * CMMC Scoping Guide for Level 2: confirms the same rule applies for CUI.

Why Option A is Correct:

- * The server stores FCI, making it automatically in scope.
- * Option B is incorrect because long-term storage does not make an asset out of scope.
- * Option C is incorrect - Level 1 (FCI) does not require a Level 2 certified provider.
- * Option D is incorrect because encryption does not remove scope requirements.

References (Official CMMC v2.0 Content):

- * CMMC Scoping Guide, Level 1.
- * CMMC Model v2.0, Scoping and Implementation guidance.

NEW QUESTION # 68

A defense contractor needs to share FCI with a subcontractor and sends this data in an email. The email system involved in this process is being used to:

- A. generate FCI
- B. process FCI.
- **C. transmit FCI.**
- D. manage FCI.

Answer: C

NEW QUESTION # 69

.....

No matter you are exam candidates of high caliber or newbies, our Cyber AB CMMC-CCP exam quiz will be your propulsion to gain the best results with least time and reasonable money. Not only because the outstanding content of CMMC-CCP Real Dumps that produced by our professional expert but also for the reason that we have excellent vocational moral to improve our CMMC-CCP learning materials quality.
