If you want to get SAP certification and get hired immediately, you've come to the right place. Real4exams offers you the best exam dump for SAP certification i.e. actual C_S4TM_2023 brain dumps. With the guidance of no less than seasoned C_S4TM_2023 professionals, we have formulated updated actual questions for C_S4TM_2023 Certified exams, over the years. To keep our questions up to date, we constantly review and revise them to be at par with the latest C_S4TM_2023 syllabus for SAP certification. With our customizable learning experience and self-assessment features of practice exam software for C_S4TM_2023 exams, you will be able to know your strengths and areas of improvement. We provide authentic brandumps for C_S4TM_2023 certification exams.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition - Transportation Management Sample Questions (Q31-Q36):**NEW QUESTION # 31**

Forwarding house FWH1 is responsible for a forwarding order (FWO). The stages are set up as shown in the attached table 1. In total two freight orders are created for the three stages. The freight charges for execution organization FWH_Ex01 (see attached table 2) are calculated with resolution base 'root'.

If there is an internal agreement based on costs between FWH1 and FWH_Ex01, what is the internal settlement charge owed by FWH1 to FWH_Ex01? (1 correct answer)

- A. USD 400
- B. USD 450
- **C. USD 375**
- D. USD 475

Answer: C

NEW QUESTION # 32

You create a freight agreement request for quotation (RFQ) master with seven RFQ items. Carrier A is NOT incumbent for three items and is removed from those items. Four other carriers are assigned to this freight agreement RFQ master. You generate the individual freight agreement RFQs. How many individual freight agreement RFQs are created for carrier A?

- A. 0
- **B. 1**
- C. 2
- D. 3

Answer: B

Explanation:

In SAP S/4HANA Transportation Management, a freight agreement RFQ master is used to solicit bids from carriers for multiple RFQ items. According to the SAP documentation, when Carrier A is not incumbent for three RFQ items and is removed from those, it remains eligible for the remaining four items. When individual freight agreement RFQs are generated, one RFQ is created per carrier for the items they are assigned to. Since Carrier A is assigned to four RFQ items, four individual freight agreement RFQs are created for Carrier A, one for each item.

The other options are incorrect:

- * A (1) is incorrect because a single RFQ would not cover multiple items for a carrier.
- * C (3) is incorrect because it reflects the items Carrier A was removed from, not the ones assigned.
- * D (7) is incorrect because Carrier A is not assigned to all seven items.

NEW QUESTION # 33

Which of the following incompatibility types can you use in the Automatic and Manual Planning incompatibility area?

Note: There are 2 correct answers to this question.

- A. Carrier - Transportation order
- B. Transportation request header - Transportation request header
- C. Vehicle resource - Location (stay level)
- D. Freight unit - Freight booking

Answer: C,D

NEW QUESTION # 34

What is frequently the leading master data system? (1 correct answer)

- A. component under
- B. environment PPF
- C. application reusable
- D. the ERP system

Answer: D

NEW QUESTION # 35

How can the optimizer distinguish between currently used and new carriers in a strategic freight procurement process?

- A. By defining rate tables
- B. By sending the request for quotation (RFQ) to new carriers first
- C. By defining target rates
- D. By defining a target share strategy

Answer: D

NEW QUESTION # 36

.....
