Virginia Insurance Virginia Life, Annuities, and Health Insurance Examination Series 11-01 Sample Questions (Q34-Q39):

NEW QUESTION # 34

No existing agent's license will be revoked until:

- A. The agent has been afforded a right to a hearing on the charges
- B. A jury has decided upon such action
- C. At least three violations have been incurred
- D. A cease and desist order has been issued

Answer: A

Explanation:

Detailed Answer in Step-by-Step Solution:

* Virginia law requires due process, meaning an agent's license cannot be revoked until they've had a hearing (A) to contest the charges.

* Options B (three violations), C (jury), and D (cease and desist) are not prerequisites for revocation proceedings.

The Virginia study guide mandates that the Bureau of Insurance provide a hearing before revoking a license, ensuring fairness under state administrative law. Reference: Virginia Life, Annuities, and Health Insurance study guide, section on "License Regulation."

NEW QUESTION # 35

What is often payable to a life insurance policyowner when a medical condition drastically limits the insured's life expectancy?

- A. Extended term insurance
- B. Death benefit
- C. Reduced paid-up insurance
- D. Accelerated death benefit

Answer: D

Explanation:

Virginia Code § 38.2-3117.1 permits life insurance policies to include an accelerated death benefit (ADB) provision, allowing the policyowner to receive a portion of the death benefit early if the insured is diagnosed with a terminal illness (typically less than 12-24 months life expectancy, per policy terms). Option B correctly identifies this benefit, often used for medical expenses or quality-of-life needs. Option A (death benefit) is paid only upon death, not during life, so it's incorrect here. Option C (reduced paid-up insurance) is a nonforfeiture option converting cash value to a smaller, paid-up policy, unrelated to terminal illness. Option D (extended term insurance) uses cash value to extend term coverage, also not tied to life expectancy triggers.

The study guide likely details ADB as a modern feature addressing critical health scenarios, distinguishing it from standard death benefits or nonforfeiture options, confirming B as the accurate choice.

NEW QUESTION # 36

A typical disability income insurance policy EXCLUDES benefits for which one of the following causes of loss?

- A. Sporting accidents
- B. Permanent injuries
- C. Falls
- D. Intentional self-inflicted injuries

Answer: D

Explanation:

Detailed Answer in Step-by-Step Solution:

* Disability income policies exclude benefits for intentional self-inflicted injuries (B) to prevent abuse or fraud.

* Permanent injuries (A), sporting accidents (C), and falls (D) are typically covered unless specifically excluded by the policy.

The Virginia study guide states that disability income insurance excludes self-inflicted injuries as a standard provision to ensure coverage applies to unforeseen events. Reference: Virginia Life, Annuities, and Health Insurance study guide, section on "Disability Income Insurance."

NEW QUESTION # 37

An individual health insurance policy must include:

- A. A 60-day grace period
- B. Coverage for pre-existing conditions
- C. Only the optional uniform provisions
- **D. A 10-day free look provision**

Answer: D

Explanation:

Detailed Answer in Step-by-Step Solution:

* Individual health insurance policies in Virginia must include a 10-day free look provision (B), allowing the policyholder to review and return the policy for a full refund.

* Option A (pre-existing conditions) is not mandatory unless required by the ACA, and exclusions may apply.

* Option C (only optional provisions) is incorrect; mandatory provisions are required, not just optional ones.

* Option D (60-day grace period) is excessive; the standard is typically 30 or 31 days for health insurance.

The Virginia study guide mandates a 10-day free look period for individual health insurance policies, ensuring consumer protection, as per state law and NAIC standards. Reference: Virginia Life, Annuities, and Health Insurance study guide, section on "Health Insurance Policy Provisions."

NEW QUESTION # 38

The prevention and correction of dental and oral irregularities through the use of mechanical corrective devices is called:

- A. Periodontics
- B. Prosthodontics
- C. Endodontics
- **D. Orthodontics**

Answer: D

Explanation:

In the context of health insurance, particularly dental coverage, Virginia Code § 38.2-3407.1 et seq. governs mandated benefits, though dental specifics often appear in policy riders or standalone plans. Orthodontics (option A) is the branch of dentistry focused on preventing and correcting irregularities of the teeth and jaws using mechanical devices like braces or aligners, precisely matching the question's description. Endodontics (option B) deals with the tooth's interior (e.g., root canals), not mechanical correction of alignment.

Periodontics (option C) addresses gum diseases and supporting structures, not tooth positioning.

Prosthodontics (option D) involves replacing missing teeth with prosthetics (e.g., dentures), not correcting irregularities mechanically.

The study guide likely defines these terms in a health insurance section, emphasizing orthodontics' role in alignment correction-both preventive (e.g., avoiding bite issues) and corrective-making A the clear answer. Examples like braces for malocclusion reinforce this distinction from other specialties.

NEW QUESTION # 39

.....

There is a way to clear your Virginia-Life-Annuities-and-Health-Insurance certification exam without finding the best source of help. As an applicant for the Virginia Life, Annuities, and Health Insurance Examination Series 11-01 (Virginia-Life-Annuities-and-Health-
