Gives 100% Guarantee Of Success Via Cisco 300-820 Exam Questions

If you need to purchase 300-820 training materials online, you may pay much attention to the money safety. We apply the international recognition third party for payment, therefore if you choose us, your account and money safety can be guaranteed. And the third party will protect your interests. In addition, 300-820 Exam Dumps cover most of knowledge points for the exam, and you can have a good command of them as well as improve your professional ability in the process of learning. In order to strengthen your confidence for 300-820 exam materials, we are pass guarantee and money back guarantee,

Cisco 300-820 Exam covers a wide range of topics related to Cisco collaboration cloud and edge solutions. These topics include Cisco Webex solutions, Cisco Expressway configurations, Cisco Unified Communications Manager (CUCM) configurations, Cisco Unity Connection configurations, and Cisco Collaboration Edge Architecture. Candidates are also expected to have a good understanding of Cisco cloud and hybrid solutions, as well as security and troubleshooting concepts.

Cisco Implementing Cisco Collaboration Cloud and Edge Solutions Sample Questions (Q199-Q204):

NEW QUESTION # 199

Which attribute in the SDP for a call is affected by the static NAT address configuration in an Expressway-E?

- A. bandwidth
- B. version
- **C. connection**
- D. name

Answer: C

Explanation:

c-line shows the connection information, Media IP address.

NEW QUESTION # 200

Refer to the exhibit. Logins and failing via mobile and remote access. How is this resolved?

- **A. No Cisco UCM servers are configured in the Expressway-C. Servers must be added for CallManager and IM and Presence services.**
- B. SIP is disabled on the Expressway-E. The SIP protocol must be enabled on the server.
- C. Mobile and remote access login has not been enabled for the domain configured in the Expressway-C. The domain must be edited to allow Cisco UCM registrations.
- D. Although a traversal client zone exists, there is no Unified Communications traversal client zone. One must be created.

Answer: A

Refer to the exhibit. An engineer is deploying mobile and remote access in an environment that already had functioning Business to Business calling. Mobile and remote access SIP registrations are failing. To troubleshoot, SIP logs were collected. How is this issue resolved?

- A. Change the SIP profile on the SIP trunk for the Expressway-E to Standard SIP Profile for TelePresence Endpoint
- B. Write a custom normalization script since the "vcs-interop" normalization script does not allow registrations
- **C. Change the "Incoming Port" in the SIP Trunk Security Profile for the Expressway-C to not match SIP line registrations**
- D. Enable autoregistration for the appropriate DN range on the Cisco UCM servers running the CallManager service

Answer: C

NEW QUESTION # 202

A Jabber user is being prompted to trust the Expressway-E certificate when using Mobile and Remote Access. The administrator has validated that the Expressway-E certificate is being trusted by the machine running the Jabber client. What else can be done to solve this problem?

- A. Create a new CSR with new information on the SAN field.
- B. Change the FQDN of the Expressway.
- **C. Include Cisco Unified Communications Manager registration domain in the Expressway-E certificate as a SAN.**
- D. Change the domain name.

Answer: C

NEW QUESTION # 203

A company has enabled ICE to optimize call flows and improve video quality between their Cisco Collaboration endpoints internally and externally.

For which reason would you see activity on the TURN server when a call is established between two external endpoints?

- A. A STUN cannot punch holes in the firewall
- **B. The video call is using encryption, which is not supported by ICE with CUCM 12.5**
- C. ICE cannot reduce the packet loss on the link
- D. The video call is using 4K resolution, which is not supported by ICE with CUCM 12.5

Answer: B
