

Valid ACP-120 Test Prep & Valid ACP-120 Test Camp

What's more, part of that DumpsActual ACP-120 dumps now are free: <https://drive.google.com/open?id=1Es5AZ31vnLFg0UBg8kY4566-zoiA46E5>

It is browser-based; therefore no need to install it, and you can start practicing for the Jira Cloud Administrator (ACP-120) exam by creating the ATlassian ACP-120 practice test. You don't need to install any separate software or plugin to use it on your system to practice for your actual Jira Cloud Administrator (ACP-120) exam. DumpsActual Jira Cloud Administrator (ACP-120) web-based practice software is supported by all well-known browsers like Chrome, Firefox, Opera, Internet Explorer, etc.

ATLASSIAN ACP-120 Exam Syllabus Topics:

Topic	Details
Topic 1	• Workflows and Automation: This section tests the knowledge of Jira Cloud Administrators in building workflows for both company-managed and team-managed projects. It includes configuring statuses, transitions, and rules in workflows, as well as creating automation rules that perform repetitive actions. Admins must also understand how permissions relate to workflow behavior and automation triggers.
Topic 2	• Notifications: This part evaluates the skills of Project Admins in managing notifications in Jira. It covers how to set up notification schemes, customize events in workflows, and configure notifications in both project types. Understanding how user settings impact notifications and how to troubleshoot email handlers is also essential.
Topic 3	• System Administration: This domain is for Jira Cloud Administrators and focuses on managing overall system settings. It includes changing the look and feel of Jira, setting up default dashboards, enabling time tracking, linking apps, configuring statuses and priorities, and handling system backups and data imports. Admins must also understand how these settings affect the entire instance
Topic 4	• Issue Types, Fields, Screens: This domain assesses the skills of Jira Cloud Administrators in setting up issue types, custom fields, and screen layouts. It involves configuring how information is displayed in issues, managing sub-tasks and epics, and understanding field behaviors. It also covers working with field contexts and screen schemes for different project types.

Successful candidates will be awarded the ATlassian ACP-120 (Jira Cloud Administrator) Certification. Jira Cloud Administrator certification is recognized globally and demonstrates the holder's competence in managing and configuring Jira Cloud instances. It is particularly valuable for professionals working in software development, project management, and IT operations.
