Acquia Certified Site Builder - Drupal 8 Sample Questions (Q20-Q25):

NEW QUESTION #20

How can you better secure the Drupal admin user (user 1) from outside attacks?

- A. Remove the "Administrator" role from user 1, which makes them an anonymous user
- B. Cancel the user account for user 1.
- C. Do not give this user an obvious name like "admin" or "administrator" which are too easy to guess
- D. Only allow members of the Drupal community in good standing to be user 1.

Answer: C

One of your site users has reached out to you with concerns about inaccurate information they saw while reading one of your blog posts On further investigation, it turns out the same information appears in the sidebar of every page on the site. How should you make your corrections? Choose 2 answers

- A. Hover over the content until a pencil icon appears, click the icon and choose "Quick edit" so that you can modify the content in place.
- B. Click the blog post's "Manage layout" link, find the field containing the inaccurate information, and make changes there
- C. Navigate to the Block Layout admin page's custom block library, find the custom block that contains the information in question, and make changes to the content in the block editor
- D. Click the blog post's "Edit" link, and make changes to the content in the editor form, repeat this process for all pages on the site

Answer: B,C

NEW QUESTION #22

You are creating a page listing products for sale You've been asked to make sure that each product in the list includes an image, a title, and a price When the user clicks the title or picture, she will be taken to a detail page showing a full description of the product. How can you make sure that the listing page only contains the fields noted, without removing the description field from the detail page?

Choose 2 answers

- A. Use the Views module to create a list of all products, and make sure it displays each product row as fields. Add the image, title, and price fields to the view's field list
- B. Use the Views module to create a list of all products Configure the view to hide the description field by adding a custom CSS class to its wrapper
- C. Create a second content type called "Product Overview", which only contains the image, title, and price fields Use the Views module to create a list of all of these Product Overview nodes, but link their titles to their corresponding Product nodes.
- D. Use custom display settings for the "Teaser" view mode and configure it to display only the image, title, and price fields Use the Views module to create a list of all products, displaying each row as content using the "Teaser" view mode.

Answer: A

NEW QUESTION #23

You had installed a contributed module on your website, but your site no longer needs it No other modules have dependencies on this module.

How can you safely uninstall the module?

- A. You can only disable modules, not uninstall them
- B. Delete the module from the codebase
- C. Delete the module from the database
- D. Uninstall the module on the Extend > Uninstall interface.

Answer: A

NEW OUESTION #24

You are running a Drupal 8 site, and the Status report page shows two errors that there is a security update available for your version of Drupal, and that the trusted_host_patterns setting is not configured in settings.php What are the next steps to solve these errors?

- A. Update Drupal core and configure the trusted host patterns setting in your settings php file
- B. Update Drupal core and enable the Trusted Host Settings module.
- C. Update Drupal core, using the "update settings" option
- D. Update Drupal core This will fix both errors, since updating Drupal automatically updates settings php

Answer: A
