AVIXA Certified Technology Specialist Sample Questions (Q196-Q201):

NEW QUESTION # 196

A personnel change at an AV integration company results in the assignment of a new technician to an existing facility. What is the best FIRST step for the integrator to make the transition?

- A. Have the newly assigned technician review the project documentation.
- B. Call the client and tell them a new technician has been assigned.
- C. Give the technician directions to the site.
- D. Make an appointment with the client to introduce the new technician to the client.

Answer: A

Explanation:

Before visiting the site, the new technician should review the project documentation to understand the system design, past modifications, and current status. This ensures they are well-prepared and familiar with the specifics of the installation. CTS Technology Specialist Reference According to CTS best practices, reviewing project documentation is critical for any technician assigned to an existing project to minimize errors and ensure continuity.

NEW QUESTION # 197

A client is reporting picture drop-outs in an HDBaseT installation. What could be a possible cause?

- A. Incorrect cable type
- B. Incorrect EDID settings
- C. Incorrect cable width
- D. Incorrect BIOS settings

Answer: A

Explanation:

HDBaseT requires high-quality Category 6 (or better) cables for stable transmission over longer distances.

Using incorrect or lower-quality cables (such as Cat5e or poor shielded variants) can result in dropouts, pixelation, or signal failure.

"HDBaseT requires Cat6 or Cat6a solid copper cables with proper shielding to maintain signal integrity, especially for 4K content."

NEW QUESTION # 198

Which of the following terms means a complete lighting instrument composed of a lamp and housing?

- A. luminaire
- B. lumen
- C. lux
- D. footcandle

Answer: A

Explanation:

The term "luminaire" refers to a complete lighting instrument composed of a lamp and housing. This includes all components necessary for the fixture to function, such as the lamp (bulb), housing, reflector, and any other elements that contribute to its operation. Axis Technology Specialist documentation uses the term "luminaire" to describe complete lighting systems in various technical specifications and installation guides.

NEW QUESTION # 199

On a construction project awarded through a competitive process, the electrical contractor says that the AV company is responsible for the installation of conduit. What project document(s) would determine responsibility?

- A. bid (tender) documents
- B. proposal cover letter
- C. estimate
- D. submittals

Answer: A

Explanation:

The responsibility for the installation of conduit in a construction project is typically outlined in the bid (tender) documents. These

documents detail the scope of work, responsibilities, and specifications agreed upon during the competitive bidding process. They serve as a binding agreement between the parties and clearly delineate who is responsible for various aspects of the project, including the installation of conduit.

NEW QUESTION # 200

Which viewing category describes the usage of a display as reference for CAD drawings?

- A. BDM (Basic Decision Making)
- **B. ADM (Analytical Decision Making)**
- C. FMV (Full Motion Viewing)
- D. PV (Passive Viewing)

Answer: B

Explanation:

The viewing category that describes the usage of a display as a reference for CAD drawings is ADM (Analytical Decision Making). This category involves the detailed examination and interpretation of complex information, such as technical drawings or data. Displays used for ADM must have high resolution and clarity to ensure accurate analysis. Axis Technology Specialist documentation categorizes displays for analytical decision-making tasks as requiring superior visual performance to support detailed and precise work.
