C_S4EWM_2023 Mock Exam | Relevant C_S4EWM_2023 Questions

What C_S4EWM_2023 study materials can give you is far more than just a piece of information. First of all, C_S4EWM_2023 study materials can save you time and money. As a saying goes, to sensible men, every day is a day of reckoning. Every minute C_S4EWM_2023 study material saves for you may make you a huge profit. Secondly, C_S4EWM_2023 Study Materials will also help you to master a lot of very useful professional knowledge in the process of helping you pass the exam. The C_S4EWM_2023 study materials are valuable, but knowledge is priceless.

SAP Certified Associate - SAP S/4HANA Cloud Private Edition, Extended Warehouse Management Sample Questions (Q28-Q33):

NEW QUESTION # 28

Using embedded EWM, what options do you have for the goods receipt posting for external procurement?

Note: There are 2 correct answers to this question.

- A. Use synchronous goods receipt where you post the GR in EWM.**
- B. Use the ERP Inbound Delivery to post goods receipt.**
- C. Use the EWM Inbound Delivery to post goods receipt.
- D. Use synchronous goods receipt where you post the GR in ERP.

Answer: A,B

Explanation:

For goods receipt (GR) posting in SAP Embedded EWM for external procurement, the following options are available:

- * B. Use the ERP Inbound Delivery to Post Goods Receipt:
- * The GR can be posted in the SAP ERP system using the inbound delivery created in ERP.
- * This process is integrated with EWM, where the data flows back to reflect the warehouse operations.
- * D. Use Synchronous Goods Receipt Where You Post the GR in EWM:
- * The GR is posted directly in EWM, and the system synchronously updates the ERP system.
- * This approach ensures real-time data consistency between EWM and ERP.

Incorrect Options:

- * A: Synchronous GR in ERP is not a standard option for embedded EWM.
- * C: EWM inbound delivery does not directly post GR; it facilitates warehouse processing.

References:

- * SAP Help Portal: Embedded EWM Goods Receipt Process
- * SAP EWM Documentation: Goods Receipt for External Procurement

NEW QUESTION # 29

How are waves created? Note: There are 2 correct answers to this question.

- A. Manually during planning in the shipping cockpit**
- B. Automatically when an outbound delivery order is created**
- C. Automatically when a production material request is created

- D. Automatically when a warehouse task is created

Answer: A,B

Explanation:

Comprehensive and Detailed In-Depth Explanation:

Waves in SAP EWM group outbound tasks for processing. Option B ("Automatically when an outbound delivery order is created") is correct because wave templates with an "Automatic" release method can trigger wave creation upon ODO creation, configured in SPRO: SCM Extended Warehouse Management > Goods Issue Process > Wave Management > Define Wave Templates. Option D ("Manually during planning in the shipping cockpit") is correct as users can manually create waves in transaction /SCWM/SHCO. Option A (warehouse task) is a downstream step, and option C (PMR) is production-related, not wave-specific.

NEW QUESTION # 30

What is the relationship between activity area and storage bin?

- A. Storage bins should be manually assigned to an activity area.
- B. A storage bin can be assigned to only one activity area.
- C. Storage bins from different storage types can be assigned to the same activity area.
- D. An activity area is an organization level between storage bin and storage section.

Answer: C

NEW QUESTION # 31

What do you have to define for a new delivery type in SAP EWM?

- A. A new document category and combine it with an existing document type
- B. A new document type and a new document category
- C. A new document type and combine it with an existing document category
- D. A new document category and a new process profile

Answer: C

Explanation:

Comprehensive and Detailed In-Depth Explanation:

In SAP EWM, a delivery type (e.g., inbound or outbound) is defined by a document type, which is linked to a document category (e.g., "F" for inbound delivery). Option A ("A new document type and combine it with an existing document category") is correct because you create a new document type in SPRO: SCM Extended Warehouse Management > Cross-Process Settings > Delivery Processing > Document Types, and assign it to an existing category (e.g., "F" or "O"). Options B and C are incorrect because a process profile isn't required, and a new category isn't typically created. Option D is overly broad, as categories are predefined.

NEW QUESTION # 32

How can you determine the labor activities to calculate the planned duration for activities in the warehouse? Note: There are 2 correct answers to this question.

- A. Using a work step sequence
- B. Using a decision service in BRFplus
- C. As a standard step
- D. Directly

Answer: B,D

NEW QUESTION # 33

.....

We are now in an era of technological development. C_S4EWM_2023 had a deeper impact on our work. Passing the C_S4EWM_2023 exam is like the vehicle's engine. Only when we pass the exam can we find the source of life and enthusiasm,

become active and lasting, and we can have better jobs in today's highly competitive times. To pass the C_S4EWM_2023 Exam, careful planning and preparation are crucial to its realization. Of course, the path from where you are to where you want to get is not always smooth and direct. Therefore, this is the point of our C_S4EWM_2023 exam materials, designed to allow you to spend less time and money to easily pass the exam.
