Online Juniper JN0-253 Training & JN0-253 Latest Exam Dumps

This is the most unique and helpful method of Juniper JN0-253 exam preparation. Web-based practice exam helps you study with more concentration because it gives you a simulated Juniper JN0-253 exam environment. This helps you in preventing Juniper JN0-253 Exam anxiety and also gives you a broad insight into the Juniper JN0-253 exam pattern. You can get examination experience before the actual Mist AI, Associate (JNCIA-MistAI) (JN0-253) exam.

Juniper Mist AI, Associate (JNCIA-MistAI) Sample Questions (Q61-Q66):

NEW QUESTION # 61

When a Juniper Mist managed switch is powered on, which event must be completed prior to the Zero-Touch Provisioning (ZTP) process moving forward?

- A. A DHCP lease must be obtained by the switch.
- B. NETCONF must be configured on the switch.
- C. The switch's clock must be synchronized with an NTP server.
- D. All user accounts must be configured on the switch.

Answer: A

Explanation:

A DHCP lease must be obtained by the switch before the ZTP process proceeds. Juniper documentation clarifies: "Ensure that a DHCP server is reachable. In addition to providing an IP address to the switch, your DHCP server must provide the following information: a default gateway, an NTP server, and a DNS server address..." The initial event in the ZTP workflow is the switch receiving a valid IP address via DHCP. Only after obtaining an address can the switch connect to the Mist cloud and proceed with zero-touch provisioning.

Other requirements, such as user account, NETCONF, or NTP sync, occur later or are handled automatically via cloud policy after onboarding.

NEW QUESTION # 62

What are two requirements for a WebSocket call? (Choose two.)

- A. encryption token
- B. authentication token
- C. WebSocket connection URL
- D. WebSocket configuration

Answer: B,C

NEW QUESTION # 63

An AP is connected to your wired network but is not claimed to your organization.

Which type of AP would be a possible security threat in this scenario?

- A. spoofed AP
- B. honeypot AP
- C. neighbor AP
- D. rogue AP

Answer: D

Explanation:

Types of APs and Security Threats:

Understanding different types of access points and their potential security threats.

Access Point Types:

Neighbor AP: An access point that belongs to a neighboring network and is not necessarily a security threat.

Rogue AP: An unauthorized access point connected to the wired network, posing a significant security threat.

Spoofed AP: An access point that mimics a legitimate one, but typically does not involve being connected to the network.

Honeypot AP: An access point set up to lure attackers, not necessarily a threat unless used maliciously.

Identifying the Threat:

An AP connected to your wired network but not claimed to your organization is considered a rogue AP and poses a security threat.

NEW QUESTION # 64

Which three statements about Juniper Mist cloud's microservices are correct? (Choose three.)

- A. They provide agile feature updates and bug fixes.
- B. They allow for Mist to be installed onsite or accessed from the cloud.
- C. They provide increased scalability.
- D. They implement machine learning.
- E. They allow for manual control of feature updates and bug fixes.

Answer: A,C,D

NEW QUESTION # 65

According to Juniper Networks, what are two best practices for AP placement (excluding AP12) for optimal accuracy and stability of location-based services? (Choose two.)

- A. Enable a wireless mesh.
- **B. Mount the AP on the ceiling with the LED facing the floor.**
- C. Mount the AP above the ceiling, the LED orientation does not matter.
- **D. Each AP should have an unobstructed line of sight to at least two other APs.**

Answer: B,D

Explanation:

Line of Sight: For optimal accuracy and stability of location-based services, each access point (AP) should have an unobstructed line of sight to at least two other APs. This ensures robust triangulation and accurate location tracking.

Ceiling Mounting: Mounting APs on the ceiling with the LED facing the floor is recommended.

This position provides the best coverage and performance for both Wi-Fi and BLE signals, essential for reliable location services.

NEW QUESTION # 66

.....

After paying our JN0-253 exam torrent successfully, buyers will receive the mails sent by our system in 5-10 minutes. Then candidates can open the links to log in and use our JN0-253 test torrent to learn immediately. Because the time is of paramount importance to the examinee, everyone hope they can learn efficiently. So candidates can use our JN0-253 guide questions immediately after their purchase is the great advantage of our product. The language is easy to be understood makes any learners have no obstacles. The JN0-253 Test Torrent is suitable for anybody no matter he or she is in-service staff or the student, the novice or the experience people who have worked for years. The software boosts varied self-learning and self-assessment functions to check the results of the learning.
