Our C-ACDET-2506 exam guide question is recognized as the standard and authorized study materials and is widely commended at home and abroad. Our C-ACDET-2506 study materials boost superior advantages and the service of our products is perfect. We choose the most useful and typical questions and answers which contain the key points of the test and we try our best to use the least amount of questions and answers to showcase the most significant information. Our C-ACDET-2506 learning guide provides a variety of functions to help the clients improve their learning. For example, the function to stimulate the exam helps the clients test their learning results of the C-ACDET-2506 learning dump in an environment which is highly similar to the real exam.

SAP C-ACDET-2506 Exam Syllabus Topics:

Topic	Details
Topic 1	• Deploy and Migration: This part of the exam assesses the expertise of an SAP Deployment Specialist and focuses on the final deployment of the configured solution and the data migration process. Candidates should demonstrate a solid grasp of how to move configurations from a testing environment into production while minimizing disruption. It also includes knowledge of tools and strategies used for data extraction.

Topic 2	• Field Configuration: This domain evaluates the knowledge of an SAP Deployment Specialist and focuses on customizing and configuring business fields in the SAP system according to client-specific needs. This includes adjusting system settings for master data, transaction data, and other essential field-level controls to support business processes effectively. The section tests the candidate's ability to use configuration tools, apply SAP standard templates, and ensure that the field configurations align with the desired operational workflows of the business. It also touches upon validation, testing, and documenting the configuration changes made during the implementation.
Topic 3	• Project Overview, Roles and Responsibilities: This section of the exam measures the skills of an SAP Cloud Consultant and covers the fundamental understanding of SAP Activate methodology within the context of a cloud implementation project. Candidates are expected to be familiar with the project lifecycle, including phases such as Prepare, Explore, Realize, Deploy, and Run. This part also focuses on identifying key roles and responsibilities within a cloud project team, ensuring clarity in collaboration between consultants, clients, and SAP. It checks whether the consultant understands governance, stakeholder management, and the high-level structure of cloud deployment using SAP best practices.

Latest C-ACDET-2506 Quiz Prep Aim at Assisting You to Pass the C-ACDET-2506 Exam - PassLeaderVCE

The world today is in an era dominated by knowledge. Knowledge is the most precious asset of a person. If you feel exam is a headache, don't worry. C-ACDET-2506 test answers can help you change this. C-ACDET-2506 study material is in the form of questions and answers like the real exam that help you to master knowledge in the process of practicing and help you to get rid of those drowsy descriptions in the textbook. However, students often purchase materials from the Internet, who always encounters a problem that they have to waste several days of time on transportation, especially for those students who live in remote areas. But with C-ACDET-2506 Exam Materials, there is no way for you to waste time. The sooner you download and use C-ACDET-2506 study braindumps, the sooner you get the certificate.

SAP Certified Associate - Configuring SAP Ariba Strategic Sourcing Suite Sample Questions (Q10-Q15):

NEW QUESTION # 10

Which data elements are shared in a Suite-Integrated Environment? (Select 3 correct answers)

- A. Users
- B. User Group mapping
- C. Suppliers
- D. Exception Types
- E. Supplier Catalogs

Answer: A,B,C

Explanation:

In a Suite-Integrated SAP Ariba environment, master data elements such as Suppliers, Users, and User Group mappings are shared across sourcing and procurement modules, enabling unified access and data consistency. Supplier Catalogs and Exception Types are not typically shared master data in this context. This integration supports seamless workflows and consistent security roles, enhancing usability and governance.

NEW QUESTION # 11

How can you make the attributes of a Flex Master Data field reportable?

- A. When the Flex Master Data Template is created, the attributes can be marked as reportable or not.
- B. Flex Master Data objects and their attributes cannot be made reportable
- C. Flex Master Data objects automatically include all attributes as reportable without any additional configuration.
- D. Create a custom reportable field and use a defaulting expression to set the value of the Flex Master Data attribute

Answer: A

Explanation:

When creating a Flex Master Data (FMD) template, you can specify which attributes are reportable by marking them accordingly during template setup. Only attributes marked as reportable will be accessible in reporting tools within SAP Ariba.

While some users employ workarounds by creating custom fields with defaulting expressions to surface FMD attribute values, the direct and supported method is to configure reportability at the attribute level within the FMD template itself.

This capability ensures efficient and accurate reporting without requiring complex custom fields or expressions.

NEW QUESTION # 12

Which of the following is NOT mentioned as a configuration type migrated by the Intelligent Configuration Manager?

- A. Template - project templates such as Contract templates
- B. AMLExtension - AML customizations such as custom fields
- C. DynamicForm - custom forms templates (dForms)
- **D. SupplierContact - contacts for the suppliers**

Answer: D

NEW QUESTION # 13

Who leads Suite Integration activities?

- A. SAP Support
- B. Partner/Customer Functional Lead
- **C. SAP Deployment Lead**
- D. Customer Success Manager

Answer: C

NEW QUESTION # 14

If you add a custom field to the ContractWorkspace class, which other class(es) will that field be added to?

- A. AbstractContractWorkspace
- B. SalesContractRequest and InternalContractRequest
- C. ContractRequest
- **D. InternalContractWorkspace and SalesContractWorkspace**

Answer: D

Explanation:

The ContractWorkspace class is a parent class to both InternalContractWorkspace and SalesContractWorkspace classes in SAP Ariba. When a custom field is added to ContractWorkspace, it automatically inherits down to both these subclasses, making the field available in both internal and sales contract workspace types. It does not propagate upward to AbstractContractWorkspace or into contract request classes. This inheritance model is part of SAP Ariba's class hierarchy to ensure consistent data structures across related contract objects.

NEW QUESTION # 15

.....

As we entered into such a web world, cable network or wireless network has been widely spread. And it is easier to find an online environment to do your practices. This version of C-ACDET-2506 test prep can be used on any device installed with web browsers. We specially provide a timed programming test in this online C-ACDET-2506 Test Engine, and help you build up confidence in a timed exam. With limited time, you need to finish your task in C-ACDET-2506 quiz guide, considering your precious time, we also suggest this version of C-ACDET-2506 study guide that can help you find out your problems to pass the exam.
