ValidDumps BCS TM3 Practice Material Is the Best Solution To Pass Exam

BCS TM3 practice test also contains mock exams just like the desktop practice exam software with some extra features. As this is a web-based software, this is accessible through any browser like Opera, Safari, Chrome, Firefox and MS Edge with a good internet connection. BCS TM3 Practice Test is also customizable so that you can easily set the timings and change the number of questions according to your ease.

BCS ISTQB Certified Tester Advanced Level - Test Management v3.0 Sample Questions (Q43-Q48):

NEW QUESTION # 43
Which of the following test stakeholders are most likely not involved in defining requirements?

- A. Operations Team
- B. Users
- C. Product Owners
- D. Development Leads

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of ISTQB Certified Tester Advanced Level - Test Manager v3.0 syllabus:
The syllabus (Chapter:People Skills - Team Composition) discusses stakeholder roles and collaboration.
Product OwnersandUsersare primary sources forrequirements and acceptance criteria.Development Leadstypically collaborate on clarifying requirements and translating them into technical solutions and testability. By contrast, theOperations Teamis primarily focused ondeployment, support, and operational concerns(e.g., environments, monitoring, reliability in production). While operations

may influence non- functional constraints or service levels, they are not typically the primary participants in defining functional requirements, making Operations Team the most likely answer here.
(Reference: CTAL-TM v3.0 Syllabus - Chapter "People Skills - Team Composition", stakeholder roles and collaboration; contrasts in responsibilities across PO/Users/Dev vs. Operations.)

NEW QUESTION # 44

You have been contracted to manage the user acceptance testing of a new reservation system for a travel agency. The reservation system is being developed by a third party. Detailed specifications are available, and an estimate of the total development effort exists. The system will be delivered in four agreed increments.
Which of the following estimation techniques would be most appropriate to use in this context?

- A. Estimation based on ratios
- B. Extrapolation
- C. Planning poker
- D. Wide-band Delphi

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of ISTQB Certified Tester Advanced Level - Test Manager v3.0 syllabus:
The syllabus describes ratio-based estimation (e.g., estimating test effort as a proportion of known or estimated development effort) as appropriate when reliable development-effort data or estimates and clear scope are available. Here, detailed specifications exist, overall development effort is estimated, and increments are defined-conditions well-suited to ratio-based estimation.
Extrapolation requires comparable historical test data for this context.
Wide-band Delphi is useful when data is scarce and expert consensus is needed.
Planning poker is typically used by Agile development teams to size user stories, not for contracting UAT with a third party.

NEW QUESTION # 45

Which status would typically be assigned to a false-positive defect report during defect management?

- A. Accepted
- B. Deferred
- C. Resolved
- D. Rejected

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of ISTQB Certified Tester Advanced Level - Test Manager v3.0 syllabus:
A false-positive defect is one where the reported behavior is not actually a defect (e.g., intended behavior, misuse, environment/setup issue). In defect management, the appropriate disposition for "not a defect" is to reject the report rather than accept, resolve, or defer it.
Rejected: used when the item is not a defect (e.g., "as designed," duplicate, or cannot be reproduced).
Accepted/Resolved: used when confirmed and fixed.
Deferred: used when confirmed, but the fix is postponed to a later release. This aligns with the syllabus content on defect lifecycle states and dispositions within defect management governance and reporting (CTAL- TM v3.0, Chapter 5: Test Monitoring, Test Control, and Test Reporting - defect management process, defect states, and reporting).

NEW QUESTION # 46

Following up on the situation, the team lacks drive and is performing tasks too slowly. You have been asked to recruit an extra person into the team. Which of the following team roles would be most appropriate to enhance the team?

- A. A person who brings new ideas to the team
- B. A test process improvement consultant
- C. A person with in-depth technical skills

- D. A person with the ability to complete tasks

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of ISTQB Certified Tester Advanced Level - Test Manager v3.0 syllabus:
According to theISTQB Certified Tester Advanced Level - Test Manager v3.0 Syllabus (Chapter 7: People Skills - Team Composition), theBelbin team role modelis referenced to describe how a balanced team benefits from diverse behavioral roles.
"A team should consist of people who complement each other's strengths and weaknesses. When the team lacks drive or the ability to meet deadlines, a role such as the Implementer or Completer-Finisher may be needed to ensure that work is completed efficiently and on time." (ISTQB CTAL-TM v3.0 Syllabus, Chapter 7 - People Skills, Section: Building and Leading Test Teams) When a test teamlacks driveand isslow in completing tasks, this indicates the absence oftask-oriented rolesthat emphasize execution and delivery.
The Belbin roles that suit this gap include:
Implementer (Practical Organizer)- disciplined, reliable, and efficient in turning ideas into actions.
Completer-Finisher (Detail-Oriented Finisher)- conscientious and ensures that work is completed to the required standard.
Recruiting a person with astrong ability to complete tasksbest addresses this deficiency and directly improves the team's delivery performance.
Why the Other Options Are Incorrect:
B). A test process improvement consultant- Focuses on optimizing processes, not motivating daily execution or speeding up delivery.
C). A person with in-depth technical skills- Adds expertise but does not necessarily address the lack of drive or task completion discipline.
D). A person who brings new ideas to the team- Reflects a creative or "Plant" role, valuable for innovation but not for improving execution speed or focus.
References (from ISTQB Certified Tester Advanced Level - Test Manager v3.0 Syllabus):
Chapter 7:People Skills - Team Composition
Section:Test Team Dynamics and the Belbin Team Roles
States that"the Test Manager should identify and balance behavioral roles within the team to ensure effectiveness, for example, introducing task-oriented members when delivery speed is lacking."

NEW QUESTION # 47
Which one of the following metrics is primarily used to measure the achievement of a test objective and reported in a test completion report?

- A. Number of automated test cases versus planned automated test cases
- B. Accumulated number of resolved defects versus accumulated number of defects
- C. Actual versus planned estimation (in hours) for testing activities
- D. Code coverage

Answer: A

Explanation:
Comprehensive and Detailed Explanation From Exact Extract of ISTQB Certified Tester Advanced Level - Test Manager v3.0 syllabus:
The syllabus explains thattest objectivesare agreed during planning andachievement against these objectivesis assessed and reported intest completion. A common objective is toautomate a defined proportion of tests; the metric "number of automated test cases versus planned automated test cases" directly measures the degree to which thatobjectivewas achieved and is reported in completion.
A (code coverage)andC (defect trends)are valuable but are not inherently tied to a specificstated objectiveunless such a target was set (e.g., 80% branch coverage).
Bis amonitoringmetric (variance to plan) rather than a direct measure ofobjective achievement.(Reference:
CTAL-TM v3.0 -Test Planning, Monitoring, and ControlandTesting Process (Test Completion): defining measurable test objectives; reporting objective achievement in the test summary/completion report.)

NEW QUESTION # 48
......

If you purchasing our TM3 simulating questions, you will get a comfortable package services afforded by our considerate after-sales

services. We respect your needs toward the useful TM3 practice materials by recommending our TM3 Guide preparations for you. Only in a few minutes, your ordered TM3 exam questions are sent to you, and whenever you have any question on the TM3 practice guide, you can contact with our service at 24/7.

TM3 Certified: https://www.validdumps.top/TM3-exam-torrent.html

You don't need to worry about wasting your precious time but failing to get the TM3certification, If you want to get a wonderful pass mark you may need to pay more attention on studying TM3 Exam Collection, Reputed firms happily hire you for well-paid jobs when you earn the TM3 Certified - ISTQB Certified Tester Advanced Level - Test Management v3.0, You can download the PDF dumps questions of Test Manager TM3 exam in your PC, laptop, Mac, tablet, and smartphone so that you can use your TM3 dumps material anytime anywhere you want.

The second part contains more advanced material TM3 for more sophisticated readers, Basic programming capability with a focus on Golang or NodeJS, You don't need to worry about wasting your precious time but failing to get the TM3certification.
