PSA-Sysadmin Exams - Valid PSA-Sysadmin Test Practice

In today's technological world, more and more students are taking the PSA System Administrator 2023 (PSA-Sysadmin) exam online. While this can be a convenient way to take an PSA System Administrator 2023 (PSA-Sysadmin) exam dumps, it can also be stressful. Luckily, PracticeTorrent's best PSA System Administrator 2023 (PSA-Sysadmin) exam questions can help you prepare for your PSA System Administrator 2023 (PSA-Sysadmin) certification exam and reduce your stress.

Certinia PSA System Administrator 2023 Sample Questions (Q36-Q41):

NEW QUESTION # 36

You are in the process of migrating historical Skills and Certification information from your company's legacy system into FinancialForce PSA. Since the historical data volume is relatively low, you have decided to migrate the data manually and not use the Data Loader tool.

Using the Manager Skills and Certification lightning component, you first select the internal resource's name for whom you want to capture the "Skills and Certification" ratings. However, you notice you do not have the option to "Add" new skills and Certification for that resource on the screen. You are one of the Salesforce/PSA System Administrators for your company and have the System Administrator profile.

Of the following, which one could explain why you are unable to migrate skills data for that resource?

- A. You do not have the "Allow Skills and Certification Entry" set to TRUE in the Custom Settings > Permission Control Settings
- B. You do not have the required Skills and Certification Entry Permission Set assigned to the resource
- C. You do not have the "Skills and Certification Entry" Permission Control set to TRUE

Answer: A

NEW QUESTION # 37

Users are complaining to you that the Milestones related list is not showing the most useful fields on the Project page. Which sequence of steps would you take to update the fields?

- A. Go to the Milestone object > Fields Sets > Project Field Set > Update fields
- B. Go to the Project object > Project Page Layout > Milestones Related List > Update fields
- C. Go to the Milestone object > Milestone Page Layout > Project Related List > Update fields

Answer: B

Explanation:

To update the Milestones related list on the Project page with the most useful fields:

* Go to Setup# Object Manager.

- * Find and open the "Project" object.
 - * Navigate to Page Layouts and select the active layout.
 - * Scroll to the "Milestones" related list.
 - * Modify the fields displayed (e.g., Target Date, Amount, Status, etc.).
 - * Save the changes and refresh the page.
 - * Option B (Updating the Milestone Page Layout instead of Project Page Layout) is incorrect because the Milestone object does not control related lists on the Project page.
 - * Option C (Updating the Project Field Set on the Milestone object) is incorrect because field sets control default field visibility, not related lists.
- Thus, the correct answer is A.

NEW QUESTION # 38

Your company's leadership noticed that the "PSA Resourcing" Lightning Component is displaying a "Default Cost Rate" column. They asked you to remove this column from the component. You edited the Resource Request Lightning Page, selected the "PSA Resourcing" component, and identified the "Column Field Set" setting. What is the next step to complete this change?

- A. Go to Setup > navigate to the "PSA User" Permission Set > open the "Resource Request" object settings > remove field level security for the "Default Cost Rate" field
- B. Go to Setup > navigate to Custom Settings > open the "Resource Request" setting > populate the Field Set in the "Resource Grid Field Set"
- C. Go to Setup > navigate to the Object Manager for "Contact" > select Field Sets > remove the "Default Cost Rate" field from the field set

Answer: C

NEW QUESTION # 39

A Services manager has asked you to set up a unique "FF Navigation" lightning component on the "Services Delivery Workspace" that will provide separate options to users based on which team (business unit) they belong to. Which two of the following actions would successfully accomplish the required setup? (Choose two.)

- A. The system admin can clone the page and create two unique pages that have the "FF Navigation" lightning component configured for their respective team
- B. The system admin can enable the "Hide Navigation Sections" setting within the "FF Navigation" lightning component to support different teams
- C. The system admin can add the "FF Navigation" component to the page twice and setup component visibility rules to ensure the right team sees their navigation

Answer: A,C

Explanation:

- * Understanding the FF Navigation Component
- * The FF Navigation component provides a tailored navigation experience for users.
- * It can be customized based on business units (teams) to show different navigation options.
- * Option 1: Clone the Page for Each Team (Correct - Option B)
- * Step 1: Navigate to Lightning App Builder.
- * Step 2: Clone the existing Service Delivery Workspace page.
- * Step 3: Modify the FF Navigation component in each cloned page to fit the respective team's needs.
- * Step 4: Assign different pages to different teams using Lightning Page Assignments.
- * Option 2: Use Component Visibility Rules (Correct - Option C)
- * Step 1: Open Lightning App Builder.
- * Step 2: Add two instances of the "FF Navigation" component to the Service Delivery Workspace page.
- * Step 3: Configure component visibility rules based on User Profile, Role, or Business Unit.
- * Step 4: Save and activate the page.
- * Incorrect Option (A: Hide Navigation Sections)
- * The "Hide Navigation Sections" setting does not support team-based navigation customization.
- * Instead, cloning pages or using visibility rules is the correct approach.

NEW QUESTION # 40

Your current setup of utilization automatically subtracts PSA Holidays from the total number of hours defined in a resource's "Work Calendar." How can utilization be configured so Holidays are not automatically subtracted?

- A. Go to App Launcher > navigate to "Configuration Groups" > select "Utilization" > select "subtract holidays from total hours" > set to false
- B. Go to App Launcher > navigate to "PSA Administration" > select "Schedule Utilization" > Navigate to the Information section > set "subtract holidays from total hours" to false
- C. Go to App Launcher > navigate to "Utilization Calculation" > select the calculation you want modified > set "subtract holidays from total hours" to false

Answer: C
