NFPA CFPS Exam Syllabus Topics:

Topic	Details
Topic 1	• Safety in the Built Environment: This topic will test the knowledge and skills of Fire protection consultants in evaluating and ensuring the proper application of fire protection systems in various buildings. They must demonstrate their ability to analyze fire safety protocols, building systems, and regulations for compliance.
Topic 2	• Information and Analysis for Fire Protection and Fire Science: In this section, Fire protection consultants will be evaluated on their ability to conduct fire loss investigations, fire analysis, and protection calculations. Their ability to assess fire dynamics and the impacts on building occupants is crucial for ensuring proper safety measures are in place.
Topic 3	• Facility Fire Hazard Management: The exam will assess the proficiency of Fire protection consultants in managing and mitigating fire hazards in facilities through effective planning and system management. Candidates must demonstrate their understanding of architectural drawings, risk assessments, and the integration of fire protection systems to ensure safety across all building operations and emergency preparedness protocols.
Topic 4	• Confining Fires: Fire protection consultants will be tested on their ability to recommend and ensure the proper installation and maintenance of fire-resistant construction, including firewalls and barriers. This section will assess their knowledge of smoke control methods and their ability to assist in the design of systems that limit fire spread, ensuring that buildings are equipped to confine fires and protect occupants.
