Depending on the execution type selected for a particular project, one of these dashboards will also be available:

- A. User Manager Dashboard
- B. Project Summary - Waterfall Dashboard
- C. Timecard Dashboard
- D. PMO Dashboard

Answer: B

Explanation:

Explanation

According to the Project Summary - Waterfall Dashboard document, depending on the execution type selected for a particular project, the Project Summary - Waterfall Dashboard will also be available. This dashboard provides a comprehensive view of the project status, progress, and performance using various widgets. The other options are not correct, as they are not dashboards that are dependent on the execution type of the project. The Timecard Dashboard is a dashboard that displays the time worked by users on various tasks. The User Manager Dashboard is a dashboard that displays the user management activities and statistics. The PMO Dashboard is a dashboard that displays the portfolio and project performance and health.

NEW QUESTION # 70

When creating a project from demand, what related records are moved and copied upon Project Creation?

- A. Cost Plan and Assessment.
- B. Resource Plan and Change Requests.
- C. Idea and Demand.
- **D. Resource Plan and Cost Plan.**

Answer: D

Explanation:

Explanation

According to the Create a customer project from a demand document, when creating a project from demand, the resource plan and the cost plan are moved and copied upon project creation. The resource plan defines the resources required for the project, and the cost plan defines the estimated and actual costs for the project. The other options are not correct, as they are not related records that are moved and copied upon project creation.

The change requests, the idea, and the demand are not moved or copied to the project, but they are linked to the project as references. The assessment is not a record that is associated with the project, but with the demand.
