CSI Canadian Securities Course Exam2 Sample Questions (Q35-Q40):

NEW QUESTION # 35

What obligation does an IA have when communicating information about a preliminary prospectus to prospective investors?

- A. The IA must make a tombstone advertisement.
- B. The IA must provide a greensheet
- C. The IA must record the names and addresses of those who have requested and received a preliminary prospectus
- D. The IA must ensure a proxy is mailed to the investors to vote for approval or disapproval of the offering.

Answer: C

Explanation:

Investment advisors (IAs) are required to record the names and addresses of all individuals who have requested and received a preliminary prospectus. This ensures compliance with securities regulations and provides a record for follow-ups and potential disclosures related to the offering.

* A. The IA must ensure a proxy is mailed: Proxy voting is related to shareholder meetings, not the prospectus distribution.

* B. The IA must provide a greensheet: A greensheet is used internally by investment firms, not distributed to clients.

* C. The IA must make a tombstone advertisement: Tombstone advertisements are created by the issuer, not the IA.

Reference: CSC Volume 1, Chapter 12, "Preliminary Prospectus - IA Obligations" explains the compliance requirements during prospectus distribution.

NEW QUESTION # 36

What is typically a key tax attribute of dividends?

- A. Dividend income is taxed more preferentially than interest income.
- B. Stock dividends are treated differently than regular cash dividends for tax purposes.
- C. Reinvested dividends are non-taxable to the shareholders.
- D. Dividends from preferred shares are ineligible for dividend tax credit.

Answer: A

Explanation:

Dividends are taxed at a preferential rate in Canada due to the dividend tax credit, which reduces the effective tax rate on dividend income. This is intended to prevent double taxation because corporations have already paid taxes on their profits before distributing dividends to shareholders.

* B. Dividends from preferred shares are ineligible for the dividend tax credit: This is incorrect; dividends from both common and preferred shares are eligible for the dividend tax credit.

* C. Stock dividends are treated differently than regular cash dividends for tax purposes: Stock dividends are generally taxed similarly to cash dividends.

* D. Reinvested dividends are non-taxable to the shareholders: Reinvested dividends are taxable in the year they are earned, even if reinvested.

NEW QUESTION # 37

What do the returns on treasury bills often represent?

- A. Inflation rate
- **B. Risk-free rate**
- C. Bank prime rate.
- D. Federal funds rate

Answer: B

Explanation:

Detailed Explanation: Treasury bills (T-bills) are short-term government debt instruments with minimal risk of default. Their returns are often used as a proxy for the risk-free rate in financial analysis, as they represent the theoretical return on an investment with zero credit risk. The risk-free rate is critical for discounting cash flows and comparing returns on various investments.

Other options:

* A. Bank prime rate is the interest rate commercial banks charge their most creditworthy customers.

* B. Inflation rate is unrelated to the direct return on T-bills, though it impacts real returns.

* D. Federal funds rate applies in the U.S. to interbank lending, not directly to T-bills.

* CSC Volume 1 (2023 Edition): Chapter on the financial markets, inflation, and trade settlement.

* CSC Volume 2 (2024 Edition): Sections on portfolio analysis and risk-free securities.

NEW QUESTION # 38

What is the bottom price of a security's trading range at which most investors would sense value and be willing to buy it?

- A. Moving average.
- B. Sentiment indicator.
- C. Reversal pattern.
- **D. Support level.**

Answer: D

NEW QUESTION # 39

What is a characteristic of provincial savings bonds that distinguishes them from other provincial bonds?

- **A. They can be purchased only by residents of the province.**
- B. They do not have redemption rules.
- C. They are backed by provincial assets pledged as security.
- D. They can be purchased at any time of the year.

Answer: A

Explanation:

A key characteristic of provincial savings bonds is that they can only be purchased by residents of the issuing province. This restriction differentiates them from other provincial bonds, which may be available to investors nationwide or internationally.

Other options:

* Backed by provincial assets pledged as security: All provincial bonds are backed by the credit of the issuing government, not specifically by pledged assets.

* Purchased at any time of the year: Provincial savings bonds are available only during specific sales campaigns.

* Do not have redemption rules: Savings bonds often have specific redemption rules, unlike this statement.

References:

* Volume 1, Chapter 6: Fixed-Income Securities, section on "Provincial and Municipal Bonds" explains the restrictions and features of provincial savings bonds.

NEW QUESTION # 40

.....

Our CSC2 practice materials are suitable for a variety of levels of users, no matter you are in a kind of cultural level, even if you only have high cultural level, you can find in our CSC2 study materials suitable for their own learning methods.
