The C_S4PM_2504 exam dumps are real and updated C_S4PM_2504 exam questions that are verified by subject matter experts. They work closely and check all C_S4PM_2504 exam dumps one by one. They maintain and ensure the top standard of PracticeDump SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects (C_S4PM_2504) exam questions all the time. The C_S4PM_2504 practice test is being offered in three different formats. These C_S4PM_2504 exam questions formats are PDF dumps files, web-based practice test software, and desktop practice test software.

SAP C_S4PM_2504 Exam Syllabus Topics:

Topic	Details
Topic 1	SAP Activate Methodology: This section of the exam measures skills of Business Process Architects and covers the structure and practical application of SAP Activate. It includes understanding the phases of the methodology: Discover, Prepare, Explore, Realize, Deploy, and Run, and the use of supporting tools such as SAP Roadmap Viewer and SAP Best Practices. Candidates are expected to demonstrate the ability to apply this methodology to streamline cloud implementation processes and ensure agile delivery.

Topic 2	• SAP S • 4HANA Cloud Public Edition Implementation: This section of the exam measures the skills of Implementation Consultants and covers the foundational aspects of deploying SAP S • 4HANA Cloud Public Edition in a business environment. It focuses on understanding system architecture, scope definition, and the technical and functional setup required for a successful implementation. The candidate is expected to have a strong grasp of how to execute the necessary configuration and adoption tasks that align with customer-specific requirements.
Topic 3	• Project Management • Organizational Change Management (OCM): This section of the exam measures the skills of Project Managers and covers the key principles of managing SAP cloud implementation projects, including team coordination, stakeholder communication, and change management. It evaluates the ability to lead project activities, manage expectations, and handle resistance during digital transformation. Emphasis is placed on aligning organizational goals with implementation strategies to ensure effective user adoption and project success.

C_S4PM_2504 Valid Test Objectives, C_S4PM_2504 Reliable Exam Tips

If we want to survive in this competitive world, we need a comprehensive development plan to adapt to the requirement of modern enterprises. We sincerely recommend our C_S4PM_2504 preparation exam for our years' dedication and quality assurance will give you a helping hand on the C_S4PM_2504 Exam. There are so many advantages of our C_S4PM_2504 study materials you should spare some time to get to know. Just have a try and you will love our C_S4PM_2504 exam questions.

SAP Certified Associate - Managing SAP S/4HANA Cloud Public Edition Projects Sample Questions (Q37-Q42):

NEW QUESTION # 37

Which of the following systems are used to implement SAP S/4HANA Cloud Public Edition for a customer? Note: There are 3 correct answers to this question.

- A. Sandbox system
- B. Development system
- C. Trial system
- D. Test system
- E. Starter system

Answer: A,D,E

NEW QUESTION # 38

Which organizational change management activity is usually performed in which SAP Activate phase? Note: There are 2 correct answers to this question.

- A. The business readiness assessment is usually conducted in the discover phase.
- B. The user adoption analysis is usually conducted in the run phase.
- C. The change plan is usually developed in the explore phase.
- D. The change assessment is usually conducted in the prepare phase.

Answer: B,D

Explanation:

Organizational Change Management (OCM) activities in SAP S/4HANA Cloud Public Edition projects are aligned with specific SAP Activate phases to ensure timely execution and effective adoption.

* Option A: The change assessment is usually conducted in the prepare phase. Correct. The change assessment, which evaluates the organization's readiness for change, is typically performed in the Prepare phase. The SAP S/4HANA Cloud OCM Guide states, "In

the Prepare phase, a change assessment is conducted to evaluate the organization's change readiness, identify risks, and inform the change management strategy."

* Option B: The business readiness assessment is usually conducted in the discover phase. Incorrect.

The business readiness assessment occurs in the Deploy phase to ensure the organization is prepared for go-live. The SAP Activate Methodology Guidenotes, "Business readiness assessments are conducted in the Deploy phase to confirm the organization's preparedness for system activation."

* Option C: The user adoption analysis is usually conducted in the run phase. Correct. User adoption analysis, which measures how users engage with the system, is performed in the Run phase post-go-live. The SAP S/4HANA Cloud OCM Guide explains, "User adoption analysis is a Run phase activity that evaluates actual system usage and adoption metrics to identify areas for improvement."

* Option D: The change plan is usually developed in the explore phase. Incorrect. The change plan is developed in the Prepare phase to outline the OCM approach. The SAP Activate Methodology Guide clarifies, "The initial change plan is created in the Prepare phase, with refinements occurring in the Explore phase based on workshop outcomes." Extract from Official Documentation:

* SAP S/4HANA Cloud OCM Guide (SAP Help Portal, <https://help.sap.com>): "The Prepare phase includes the change assessment to evaluate readiness, while the Run phase focuses on user adoption analysis to measure system engagement post-go-live."

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "Change management activities are phased, with change assessments in the Prepare phase to set the foundation and user adoption analysis in the Run phase to assess post-implementation success." Additional Context:

The timing of OCM activities is critical to align with project milestones. The change assessment in Prepare sets the stage for change management, while user adoption analysis in Run provides insights for ongoing optimization, ensuring a holistic approach to adoption.

SAP OCM Best Practices: Outlines activity timing.

NEW QUESTION # 39

You have assigned a business role to an end user who has been granted access to only one specific application. While you have a day off, it turns out that the app doesn't show up on the user's launchpad. What can the user do?

- A. Assign a launchpad space to the business role.
- B. Create a page and assign it to the launchpad space.
- **C. Use the search function to find the app.**
- D. Assign a different business role that provides access.

Answer: C

NEW QUESTION # 40

What are some purposes of using Business Driven Configuration Questionnaires (BDCQs) during the implementation of SAP S/4HANA Cloud Public Edition? Note: There are 2 correct answers to this question.

- **A. To ensure the appropriate level of business context for the Fit-to-Standard workshop**
- B. To reduce the need for customer involvement
- **C. To gather configuration values and validate solution fit**
- D. To suggest new features in the SAP S/4HANA Cloud, Public Edition solution

Answer: A,C

Explanation:

Business Driven Configuration Questionnaires (BDCQs) are tools used during the Explore phase of the SAP Activate methodology to collect configuration data and align the SAP S/4HANA Cloud Public Edition solution with customer requirements.

* Option A: To gather configuration values and validate solution fit. Correct. BDCQs collect configuration values to tailor the solution and validate its fit against customer needs. The SAP S/4HANA Cloud Implementation Guide states, "BDCQs are used to gather configuration values and validate the solution fit during the Explore phase, ensuring the SAP S/4HANA Cloud system aligns with customer requirements."

* Option B: To suggest new features in the SAP S/4HANA Cloud, Public Edition solution. Incorrect.

BDCQs focus on configuring existing features, not suggesting new ones, which is handled through SAP's innovation feedback process. The SAP Activate Methodology Guidenotes, "BDCQs are for configuration data collection, not for proposing new features, which are managed separately."

* Option C: To reduce the need for customer involvement. Incorrect. BDCQs require active customer involvement to provide

accurate configuration data. The SAP S/4HANA Cloud Study Guide clarifies,

"BDCQs rely on customer input to ensure accurate configuration, increasing, not reducing, customer involvement."

* Option D: To ensure the appropriate level of business context for the Fit-to-Standard workshop Correct. BDCQs provide business context to inform Fit-to-Standard workshops, ensuring discussions are grounded in customer requirements. The SAP S/4HANA Cloud Implementation Guide explains,

"BDCQs ensure the appropriate business context for Fit-to-Standard workshops by collecting detailed configuration data, enabling effective process validation." Extract from Official Documentation:

* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "Business Driven Configuration Questionnaires (BDCQs) are used to gather configuration values, validate solution fit, and provide business context for Fit-to-Standard workshops, ensuring alignment with customer needs."

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "BDCQs play a critical role in the Explore phase by collecting configuration data and establishing business context, enabling effective Fit-to-Standard workshops and solution validation." Additional Context:

BDCQs bridge the gap between customer requirements and standard SAP Best Practices, ensuring that Fit-to-Standard workshops are productive and focused. They are a key accelerator in the SAP Activate methodology, streamlining configuration and validation processes.

SAP S/4HANA Cloud Study Guide: Details BDCQ usage.

SAP Activate Accelerators: Explains BDCQ purpose.

NEW QUESTION # 41

In which phase do you verify the SAP Best Practices content that meets the customer's business needs, and capture delta requirements? Note: There are 2 correct answers to this question.

- A. Explore
- B. Discovery
- C. Prepare
- D. Realize

Answer: A,B

Explanation:

Verifying SAP Best Practices content and capturing delta requirements are critical activities in the SAP Activate methodology to ensure the SAP S/4HANA Cloud Public Edition solution aligns with customer needs. These activities occur in specific phases to set the project scope and identify gaps.

* Option A: Explore Correct. The Explore phase involves Fit-to-Standard workshops where SAP Best Practices are verified against customer needs, and delta requirements (gaps) are captured. The SAP S

/4HANA Cloud Implementation Guide states, "In the Explore phase, Fit-to-Standard workshops verify SAP Best Practices content to meet customer business needs and capture delta requirements for further configuration."

* Option B: Discovery Correct. The Discovery phase uses tools like the Digital Discovery Assessment to initially verify Best Practices and identify high-level delta requirements. The SAP Activate Methodology Guide explains, "During the Discovery phase, customers verify SAP Best Practices content through assessments like the Digital Discovery Assessment, capturing preliminary delta requirements to define the project scope."

* Option C: Realize Incorrect. The Realize phase focuses on configuring the solution and addressing delta requirements, not verifying Best Practices. The SAP S/4HANA Cloud Study Guide notes, "Realize phase activities build on the delta requirements captured in Explore, not verifying Best Practices content."

* Option D: Prepare Incorrect. The Prepare phase sets up the project and initiates change management, not verifies Best Practices or captures delta requirements. The SAP Activate Methodology Guide clarifies, "The Prepare phase focuses on project setup and planning, with Best Practices verification occurring in Discovery and Explore." Extract from Official Documentation:

* SAP S/4HANA Cloud Implementation Guide (SAP Help Portal, <https://help.sap.com>): "The Explore phase verifies SAP Best Practices content through Fit-to-Standard workshops, capturing delta requirements, while the Discovery phase initiates this process with tools like the Digital Discovery Assessment."

* SAP Activate Methodology Guide (SAP Community, <https://community.sap.com>): "In the Discovery phase, customers use assessments to verify Best Practices and identify delta requirements, followed by detailed validation and gap capture in the Explore phase's Fit-to-Standard process." Additional Context:

The Discovery phase provides a high-level validation of Best Practices to scope the project, while the Explore phase dives deeper through Fit-to-Standard workshops, ensuring a comprehensive understanding of gaps. This two-phase approach aligns with SAP's cloud mindset, emphasizing standard processes and early identification of necessary customizations to streamline implementation.
