FCP_FAZ_AN-7.4 Authorized Pdf & FCP_FAZ_AN-7.4 Valid Test Prep

With Exam4PDF user-friendly FCP - FortiAnalyzer 7.4 Analyst (FCP_FAZ_AN-7.4) PDF format, you can prepare for the exam from any location at any time via laptops, tablets, and smartphones. In this Fortinet FCP_FAZ_AN-7.4 PDF document, we have included latest and FCP_FAZ_AN-7.4 Real Exam Questions. Exam4PDF has made the FCP_FAZ_AN-7.4 PDF format to make it easier for students to acquire knowledge they need to ace the Fortinet exam.

Fortinet FCP_FAZ_AN-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	• Logging: Candidates will learn about logging mechanisms, log analysis, and gathering log statistics to effectively monitor security events and incidents.

Topic 2	• SOC Events and Incident Management: This domain targets Fortinet Network Analysts and focuses on managing security operations center (SOC) events. Candidates will explain SOC features on FortiAnalyzer, manage events and incidents, and understand the incident lifecycle to enhance incident response capabilities.
Topic 3	• Playbooks: This domain measures the skills of Fortinet Network Analysts in creating and managing playbooks. Candidates will explain playbook components and develop workflows that automate responses to security incidents, improving operational efficiency in SOC environments.
Topic 4	• Features and Concepts: This section of the exam measures the skills of Fortinet Security Analysts and covers the fundamental concepts of FortiAnalyzer.
Topic 5	• Reports: This section evaluates the skills of Fortinet Security Analysts in managing reports within FortiAnalyzer. Candidates will learn to create, troubleshoot, and optimize reports to ensure accurate data presentation and insights for security analysis.

Fortinet FCP - FortiAnalyzer 7.4 Analyst Sample Questions (Q15-Q20):

NEW QUESTION # 15
What is the recommended method of expanding disk space on a FortiAnalyzer VM?

- A. From the VM host manager, expand the size of the existing virtual disk
- B. From the VM host manager, expand the size of the existing virtual disk and use the # execute format disk command to reformat the disk
- C. From the VM host manager, add an additional virtual disk and rebuild your RAID array
- D. From the VM host manager, add an additional virtual disk and use the #execute lvm extend <disk number> command to expand the storage

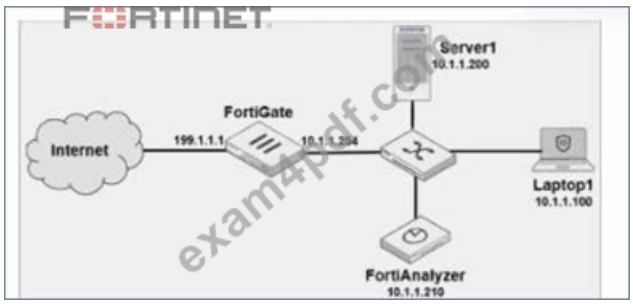
Answer: D

NEW QUESTION # 16
Which statement describes online logs on FortiAnalyzer?

- A. Logs that can be used to create reports
- B. Logs that can be viewed using Log Browse
- C. Logs that reached a specific size and were rolled over
- D. Logs that are saved to disk, compressed, and available in FortiView

Answer: B

NEW QUESTION # 17
Exhibit.



Laptop1 is used by several administrators to manage FotiAnalyzer. You want to configure a generic text filter that matches all login attempts to the web interface generated by any user other than admin", and coming from Laptop1.
Which filter will achieve the desired result?

- A. Operation-login and srcip== 10.1.1.100 and dstip==10.1.1.1.210 and user==admin

- B. Operation-login and performed_on=="GU (10.1.1.120)' and user!=admin
- C. Operation-login and dstip==10.1.1.210 and user!-admin
- D. Operation-login and performed_on=="GUI(10.1.1.100)' and user!=admin

Answer: D

Explanation:
The objective is to create a filter that identifies all login attempts to the FortiAnalyzer web interface (GUI) coming from Laptop1 (IP 10.1.1.100) and excludes the admin user. This filter should match any user other than admin.
* Filter Components Analysis:
* Operation-login: This portion of the filter will target login actions specifically, which is correct for filtering login attempts.
* performed_on=="GUI(10.1.1.100)': This indicates that the login attempt must occur on the GUI interface and originate from the specified IP, which matches Laptop1's IP address (10.1.1.100). This ensures that the filter only matches GUI logins from this specific device.
* user!=admin: This part excludes logins by the admin user, meeting the requirement to capture only non-admin users.
* Option Analysis:
* Option A: Correctly specifies the Operation-login, performed_on=="GUI(10.1.1.100)', and user!=admin. This setup effectively filters login attempts to the GUI from Laptop1, excluding the admin user.
* Option B: Uses the incorrect IP 10.1.1.120 in the performed_on filter, which does not match Laptop1's IP (10.1.1.100).
* Option C: This option includes srcip==10.1.1.100 and dstip==10.1.1.210 but incorrectly specifies user==admin instead of user!=admin, which does not match the requirement to exclude admin users.
* Option D: This option does not specify the performed_on field to restrict it to the GUI and only includes dstip (destination IP) without srcip. It also incorrectly uses user!-admin instead of the correct syntax user!=admin.
Conclusion:
* Correct answer: A. Operation-login and performed_on=="GUI(10.1.1.100)' and user!=admin
* This filter precisely captures the required conditions: login attempts from Laptop1 to the GUI interface by any user except admin.

NEW QUESTION # 18
What happens when the indicator of compromise (IOC) engine on FortiAnalyzer finds web logs that match blacklisted IP addresses?

- A. The detection engine classifies those logs as Suspicious.
- B. The endpoint is marked as Compromised and, optionally, can be put in quarantine.
- C. A new infected entry is added for the corresponding endpoint under Compromised Hosts.
- D. FortiAnalyzer flags the associated host for further analysis.

Answer: C

NEW QUESTION # 19
What is the purpose of a predefined template on the FortiAnalyzer?

- A. It can be edited and modified as required
- B. It specifies report settings which contains time period, device selection, and schedule
- C. It specifies the report layout which contains predefined texts, charts, and macros
- D. It contains predefined data to generate mock reports

Answer: C

NEW QUESTION # 20
.....

Our clients can have our FCP_FAZ_AN-7.4 exam questions quickly. The clients only need to choose the version of the product, fill in the correct mails and pay for our FCP_FAZ_AN-7.4 useful test guide. Then they will receive our mails in 5-10 minutes. Once the clients click on the links they can use our FCP_FAZ_AN-7.4 Study Materials immediately. If the clients can't receive the mails they can contact our online customer service and they will help them solve the problem successfully. The purchase procedures are simple

and the delivery of our FCP_FAZ_AN-7.4 study tool is fast.
