

Valid Fortinet FCP_FAZ_AD-7.4 Test Pass4sure - Clear FCP_FAZ_AD-7.4 Exam

DOWNLOAD the newest Prep4pass FCP_FAZ_AD-7.4 PDF dumps from Cloud Storage for free:
<https://drive.google.com/open?id=1StaGBh0aYmX3gp8MwiD9qY4pQOiK2k2c>

Our FCP_FAZ_AD-7.4 practice engine has collected the frequent-tested knowledge into the content for your reference according to our experts' years of diligent work. So our FCP_FAZ_AD-7.4 exam materials are triumph of their endeavor. By resorting to our FCP_FAZ_AD-7.4 practice materials, we can absolutely reap more than you have imagined before. We have clear data collected from customers who chose our training engine, the passing rate is 98-100 percent. So your chance of getting success will be increased greatly by our FCP_FAZ_AD-7.4 Exam Questions.

Prep4pass FCP_FAZ_AD-7.4 valid test will assist you to pass your FCP_FAZ_AD-7.4 actual test with ease. You will never regret to choose our FCP_FAZ_AD-7.4 exam engine test. Here are some outstanding properties which can benefit all of you. The detailed explanations are offered where available to ensure you fully understand why to choose the correct answers. All the questions cover the main points which the FCP_FAZ_AD-7.4 Actual Exam required. The answers of each question are correct and verified by our IT experts which can ensure you 100% pass.

Fortinet Marvelous Valid FCP_FAZ_AD-7.4 Test Pass4sure

If you buy Prep4pass's Fortinet certification FCP_FAZ_AD-7.4 exam practice questions and answers, you can not only pass Fortinet certification FCP_FAZ_AD-7.4 exam, but also enjoy a year of free update service. If you fail your exam, Prep4pass will full refund to you. You can free download part of practice questions and answers about Fortinet Certification FCP_FAZ_AD-7.4

Exam as a try to test the reliability of Prep4pass's products.

Fortinet FCP_FAZ_AD-7.4 Exam Syllabus Topics:

Topic	Details
Topic 1	• Logs and Reports Management: This part of the exam measures the candidate's ability to handle log data and generate reports using FortiAnalyzer. Network and security analysts must show proficiency in managing, analyzing, and reviewing logs to ensure effective system monitoring and auditing processes are in place.
Topic 2	• Administration: This section evaluates the ability of network and security analysts to configure administrative access and manage Administrative Domains (ADOMs). It covers tasks such as setting user permissions, managing backups, and disk quotas, and ensuring secure and efficient management of administrative privileges within FortiAnalyzer systems.
Topic 3	• System Configuration: This section assesses the capabilities of network and security analysts in managing FortiAnalyzer systems. It includes tasks like performing initial configurations, setting up high-availability systems, and configuring RAID for storage.
Topic 4	• Device Management: Here, Fortinet network and security analysts are evaluated on their ability to handle devices linked to FortiAnalyzer. This includes adding new devices, managing them efficiently, and troubleshooting communication issues.

Fortinet FCP - FortiAnalyzer 7.4 Administrator Sample Questions (Q68-Q73):

NEW QUESTION # 68

Which two statements regarding the log synchronization states for HA on FortiAnalyzer are true? (Choose two.)

- A. By default, Log Data Sync is disabled on all backup devices.
- B. With Initial Logs Sync, when you add a unit to an HA cluster, the primary device synchronizes its logs with the backup device.
- C. When Log Data Sync is turned on, the backup device reboots and then rebuilds the log database with the synchronized logs.
- D. Log Data Sync provides real-time log synchronization to all backup devices.

Answer: C,D

NEW QUESTION # 69

Which statement correctly describes RAID 10 (1+0) on FortiAnalyzer?

- A. A configuration with four disks, each with 2 TB of capacity, provides a total space of 2 TB.
- B. It uses striping to provide performance and fault tolerance.
- C. A configuration with four disks, each with 2 TB of capacity, provides a total space of 4 TB.
- D. It combines mirroring and distributed parity to provide performance and fault tolerance

Answer: C

Explanation:

RAID 10 combines mirroring (RAID 1) and striping (RAID 0). In a RAID 10 setup with four disks, data is mirrored across two pairs of disks, and those pairs are striped for performance. This results in improved performance and fault tolerance, but the total usable storage is 50% of the total raw storage, meaning four 2 TB disks provide 4 TB of usable space.

NEW QUESTION # 70

Refer to the exhibit.

FortiAnalyzer partial configuration output

FortiAnalyzer1# get system status		FortiAnalyzer3# get system status	
Platform Type	: FAZVM64-KVM	Platform Type	: FAZVM64

Based on the partial outputs displayed, which devices can be members of a FortiAnalyzer Fabric?

- A. FortiAnalyzer2 and FortiAnalyzer3
- B. All devices listed can be members.
- C. FortiAnalyzer1 and FortiAnalyzer3
- **D. FortiAnalyzer1 and FortiAnalyzer2**

Answer: D

Explanation:

Based on the partial configuration output, the primary factor for determining which devices can be members of a FortiAnalyzer Fabric is the log-mode setting. Devices with the same log mode can be part of the same FortiAnalyzer Fabric.

FortiAnalyzer1: Log mode is set to collector.

FortiAnalyzer2: Log mode is set to collector.

FortiAnalyzer3: Log mode is set to analyzer.

Devices with the same log mode can be part of the same fabric. Since FortiAnalyzer1 and FortiAnalyzer2 both have their log modes set to collector, they can be members of a FortiAnalyzer Fabric.

Therefore, the correct answer is FortiAnalyzer1 and FortiAnalyzer2.

NEW QUESTION # 71

Which log type does the FortiAnalyzer indicators of compromise feature use to identify infected hosts?

- A. IPS logs
- **B. Web filter logs**
- C. Antivirus logs
- D. Application control logs

Answer: B

Explanation:

Reference:

FortiAnalyzer_Admin_Guide/3600_FortiView/0200_Using_FortiView/1200_Compromised_hosts_page.htm?
TocPath=FortiView%7CUsing%20FortiView%7C_____6

NEW QUESTION # 72

Which two statements about deleting ADOMs are true? (Choose two.)

- **A. ADOMs with registered devices cannot be deleted.**
- B. Default ADOMs cannot be deleted.
- C. Logs must be purged or migrated before you can delete an ADOM.
- D. The status of the ADOMs must be unlocked.

Answer: A

Explanation:

DOMs with registered devices cannot be deleted.

An ADOM cannot be deleted if it has registered devices. You must first remove or deregister the devices before deleting the ADOM.

The status of the ADOMs must be unlocked.

An ADOM must be in an unlocked state before it can be deleted. If the ADOM is locked, it will not allow deletion.

NEW QUESTION # 73

.....

We are willing to provide all people with the demo of our FCP_FAZ_AD-7.4 study tool for free. If you have any doubt about our products that will bring a lot of benefits for you. The trial demo of our FCP_FAZ_AD-7.4 question torrent must be a good choice for you. By the trial demo provided by our company, you will have the opportunity to closely contact with our FCP_FAZ_AD-7.4 Exam Torrent, and it will be possible for you to have a view of our products. More importantly, we provide all people with the trial demo for free before you buy our FCP_FAZ_AD-7.4 exam torrent.
