Each GCLD Exam Dumps is unique and vitally important for your preparation. The work you are supposed to do have already been done by our highly trained professionals.

GIAC Cloud Security Essentials Sample Questions (Q48-Q53):

NEW QUESTION # 48

In the context of IAM, what is the principle of least privilege, and why is it important?

Response:

- A. It is the practice of regularly changing user permissions regardless of job function.

- B. It recommends the use of a single shared account for easier access management.
- C. It refers to granting every user full access to ensure that they can perform any necessary task without obstruction.
- D. It involves providing users with the minimum levels of access - or permissions - needed to perform their job functions.

Answer: D

NEW QUESTION # 49

What role does continuous monitoring play in the effectiveness of a security framework?

Response:

- A. It replaces the need for initial risk assessments and security control implementations
- B. It ensures that security controls remain effective and can respond to evolving threats
- C. It is irrelevant as long as initial security measures are strong
- D. It is only necessary for systems that handle sensitive information

Answer: B

NEW QUESTION # 50

Which of the following is essential for securing cloud networks?

Response:

- A. Public access to all resources
- B. Reducing network monitoring
- C. Disabling encryption
- D. Network segmentation

Answer: D

NEW QUESTION # 51

What is a primary risk when storing sensitive data in a multi-tenant cloud environment?

Response:

- A. Performance degradation
- B. Data leakage to unauthorized tenants
- C. Increased data storage costs
- D. Lack of encryption

Answer: B

NEW QUESTION # 52

In secrets management, what is the benefit of using a dedicated hardware security module (HSM)?

Response:

- A. To decrease the level of physical security for stored secrets.
- B. To encourage the sharing of cryptographic keys over the network.
- C. To provide strong isolation and protection for cryptographic keys.
- D. To avoid compliance with industry security standards.

Answer: C

NEW QUESTION # 53
