These WGU Information-Technology-Management exam questions are being offered in three different but easy-to-use formats.

WGU Information Technology Management QGC1 Sample Questions (Q108-Q113):

NEW QUESTION # 108

Which statement describes the development phase of the systems development life cycle (SDLC)?

- A. Placing the software or information system into production to allow users to perform business operations
- B. Bringing project pieces together, checking interoperability, and verifying functionality
- C. Physically constructing software and information systems using programming languages
- D. Performing corrections, additions, and upgrades to ensure the system continually meets business goals

Answer: C

NEW QUESTION # 109

How does service-oriented architecture (SOA) help companies become more agile?

- A. Builds a working model of the system on a small scale to detect errors early in development
- B. Requires a tight adherence to a sequence of steps to accomplish the original goal
- C. Breaks the project into four phases to provide quicker feedback and improve results
- D. Aligns business needs and the management information system capabilities that support these needs

Answer: D

NEW QUESTION # 110

Which organizational policy states that an employee should never send unsolicited emails outside the organization?

- A. Information use policy
- B. Social media policy
- C. Employee monitoring policy
- **D. Anti-spam policy**

Answer: D

Explanation:

* Understanding Anti-Spam Policies:

* Anti-spam policies prohibit the sending of unsolicited emails, particularly outside the organization.

* Such policies protect an organization's reputation and comply with legal frameworks like the CAN-SPAM Act.

* Focus on External Communications:

* The policy ensures employees refrain from sending emails that may be perceived as spam, safeguarding the organization from legal and reputational risks.

* Why Other Options Are Incorrect:

* Option A: Information use policies focus on managing and protecting data, not email practices.

* Option B: Monitoring policies are about observing employee activity but do not prevent spam.

* Option D: Social media policies govern employee behavior on social platforms, not email usage.

References:

* "Anti-Spam Guidelines for Businesses" - FTC

* IT Policy Frameworks and Guidelines (ISO 27002)

NEW QUESTION # 111

Which system provides a foundation for collaboration between departments, enabling people in different business areas to communicate?

- A. Customer relationship management (CRM)
- B. Supply chain management (SCM)
- C. Electronic data interchange (EDI)
- **D. Enterprise resource planning (ERP)**

Answer: D

NEW QUESTION # 112

A company wants to create a shopping bot that will search several retailers' websites to find the best prices on products that it frequently orders. Which type of software should the company use to create a shopping bot?

- **A. Intelligent agent**
- B. Fuzzy logic
- C. Neural network
- D. Virtual reality

Answer: A

Explanation:

* Understanding Intelligent Agents:

* Intelligent agents are software programs that perform tasks autonomously, such as searching for information, making recommendations, or automating repetitive actions.

* They are designed to mimic human behavior in specific tasks.

* Application in Shopping Bots:

* A shopping bot uses intelligent agents to search multiple websites, compare prices, and find the best deals.

* These bots automate the process of price comparison, saving time and effort for the company.

* Why Other Options Are Incorrect:

- * Option A (Virtual reality):VR is immersive and does not search for online products.
- * Option B (Neural network):Neural networks are used for pattern recognition, not autonomous tasks like shopping.
- * Option D (Fuzzy logic):Fuzzy logic handles imprecision and is not designed for automating searches.
