# Valid NS0-005 Test Preparation, Sample NS0-005 Questions Pdf

When you first contact our software, different people will have different problems. Maybe you are not comfortable with our NS0-005 exam question and want to know more about our products and operations. As long as you have questions, you can send e-mail to us, we have online staff responsible for ensuring 24-hour service to help you solve all the problems about our NS0-005 test prep. After you purchase our NS0-005 quiz guide, we will still provide you with considerate services. Maybe you will ask whether we will charge additional service fees. We assure you that we are focused on providing you with guidance about our NS0-005 Exam Question, but all services are free. If you encounter installation problems, we will have professionals to provide you with remote assistance. Of course, we will humbly accept your opinions on our NS0-005 quiz guide. If you have good suggestions to make better use of our NS0-005 test prep, we will accept your proposal and make improvements. Each of your progress is our driving force. We sincerely serve for you any time.

Our company is a professional certificate test materials provider, and we are in the leading position in providing valid and effective exam materials. NS0-005 exam braindumps are high quality, and it also contain certain questions and answers, and it will be enough for you to pass the exam. Besides, in order to let you have a deeper understanding of what you are going to buy, we offer you free demo to have a try before buying NS0-005 Training Materials. We offer you free update for 365 days after purchasing, and the update version will be sent to your email address automatically.

## Sample Network Appliance NS0-005 Questions Pdf, NS0-005 Valid Dumps Questions

This is a wise choice, after using our NS0-005 training materials, you will realize your dream of a promotion because you deserve these reports and your efforts will be your best proof. Therefore, when you are ready to review the exam, you can fully trust our products, choose our learning materials. If you don't want to miss out on such a good opportunity, buy it quickly. Thus, users do not have to worry about such trivial issues as typesetting and proofreading, just focus on spending the most practice to use our NS0-005 Learning Materials. After careful preparation, I believe you will be able to pass the exam.

# Network Appliance NetApp Technology Solutions Professional Exam Sample Questions (Q31-Q36):

**NEW QUESTION # 31**

A manufacturing company wants to build an AI Center of Excellence in their headquarters using data from their remote factories. All data is currently stored on NetApp ONTAP solutions.
Which NetApp technology will enable the company to prepopulate a subset of the data?

- A. Flash Cache
- B. FlexCache
- C. SnapVault
- D. Flash Pool

**Answer: B**

Explanation:
FlexCache is a NetApp technology that will enable the company to prepopulate a subset of the data from their remote factories to their AI Center of Excellence. FlexCache is a feature of NetApp ONTAP that allows you to create a cache volume on a local or remote cluster and populate it with data from a source volume on another cluster1. FlexCache enables faster access to data by reducing latency and network bandwidth consumption1. FlexCache alsoallows you to select a subset of data from the source volume to cache, based on your business needs2. FlexCache can be used for various use cases, such as AI and machine learning, where you need to access a subset of data from a large data lake for training or inference3.
References = 1: FlexCache overview - NetApp, 2: FlexCache volumes: Frequently asked questions - NetApp, 3: NetApp ONTAP AI, powered by NVIDIA DGX systems and NetApp cloud-connected all-flash storage.

**NEW QUESTION # 32**

A storage administrator is asked to provision storage on an E-Series system.
Which disk layout type provides the fastest rebuild time after disk failure?

- A. Dynamic Disk Pools (DDP)
- B. RAID 5
- C. Advanced Disk Partitioning (ADP)
- D. volume group

**Answer: A**

Explanation:
= Dynamic Disk Pools (DDP) is a disk layout type that provides the fastest rebuild time after disk failure on an E-Series system. DDP distributes data, parity, and spare capacity across a pool of disks, instead of using dedicated parity and spare disks. This enables faster and more efficient reconstruction of data in the event of a disk failure, as well as better performance and load balancing. DDP also reduces the risk of data loss due to multiple disk failures, as it can tolerate any number of disk failures up to the pool's protection level.
References = SANtricity OS Dynamic Disk Pools | TR-4652 - NetApp, How to increase priority for disk reconstruction - NetApp Knowledge Base.

**NEW QUESTION # 33**

A customer wants to move file storage to a public cloud and manage their own storage solution.
Which offering should be recommended to this customer?

- A. NetApp Cloud Volumes Service
- B. Amazon FSx for NetApp ONTAP
- C. NetApp Cloud Volumes ONTAP
- D. NetApp BlueXP edge caching

**Answer: C**

Explanation:
NetApp Cloud Volumes ONTAP is a cloud-native storage solution that allows customers to deploy and manage NetApp hybrid, multi-cloud storage and data services from on-premises sources and cloud service providers. It provides enterprise-grade data and

file services, such as NFS, SMB/CIFS, iSCSI and S3, on AWS, Azure, and Google Cloud. It also offers high availability, data protection, storage efficiency, and cost-performance optimization features. It is suitable for customers who want to have more control and flexibility over their cloud storage solution, whileleveraging NetApp's technology and expertise.

References = Cloud Volumes ONTAP: Deploy Storage in the Public Cloud - NetApp, NetApp Customer Experience | NetApp, NetApp storage systems overview.

## NEW QUESTION # 34

On which parameter is the NetApp BlueXP observability pricing model based?

- A. number of logging intervals
- B. capacity of metrics that are ingested
- C. number of managed units
- D. frequency of metric ingestion

**Answer: B**

Explanation:

NetApp BlueXP, which is a suite of cloud-based services, typically uses a pricing model that focuses on the amount of data processed or managed, rather than the number of log entries, the frequency of metric ingestion, or the number of managed units. In the context of observability and monitoring services, this often translates to pricing based on the volume or capacity of metrics ingested into the system for analysis and monitoring purposes.

This approach aligns with common practices in cloud service pricing, where the emphasis is on the resources consumed (in this case, the data capacity) rather than the frequency of operations or the count of monitored entities.

So, option C is the most likely correct answer for the pricing model of NetApp BlueXP's observability services.

## NEW QUESTION # 35

What are two benefits of configuring Advanced Disk Partitioning (ADP) on an AFF or FAS system? (Choose two.)

- A. reduced RAID parity overhead
- B. optimized storage capacity
- C. increased disk performance
- D. decreased disk failure rate
- E. increased deduplication efficiencies

**Answer: A,B**

Explanation:

Advanced Disk Partitioning (ADP) is a feature that enables ONTAP to partition a disk into multiple logical units and use them for different purposes.

ADP has two main benefits for AFF or FAS systems:

- It optimizes storage capacity by reducing the number of disks required for the root aggregates, which store the system and configuration data. By using ADP, the root aggregate can share the same disk with a data aggregate, which stores the user data. This frees up more disks for data aggregates and increases the usable space for data.

- It reduces RAID parity overhead by creating smaller RAID groups with partitions instead of whole disks. This reduces the amount of parity data that needs to be written and read, which improves the performance and efficiency of the system.

References = What are the rules for Advanced Disk Partitioning?, Considerations for automatic drive assignment and ADP systems in ONTAP 9.4 and later, NetApp AFF and Advanced Drive Partition v2, part 1

## NEW QUESTION # 36

......

Compared with the paper version, we have the advantage of instant access to download, and you will receive your download link and password for NS0-005 training materials within ten minutes, so that you can start learning as early as possible. In addition, we have free demo for you to have a try for NS0-005 Exam barindumps, so that you can know what the complete version is like. Online and offline service are available, and if you have any questions for NS0-005 exam materials, you can contact us, and we will give you reply as quickly as we can.
