### Microsoft Power Platform Fundamentals Sample Questions (Q128-Q133):

#### NEW QUESTION # 128

A company is considering implementing PowerApps to help manage business processes. Users are trying to understand the purposes and benefits of PowerApps components. Match each benefit to its tool. To answer, drag the appropriate benefit from the column on the left to its tool on the right. Each benefit may be used once, more than once, or not at all. NOTE: Each correct selection is worth one point.

| Tools          | Benefit                                | Tool |
|----------------|----------------------------------------|------|
| connectors     | Easy data integration                  |      |
| canvas apps    | Low code / no code across applications |      |
| AI Builder     | Easy to customize front end            |      |
| Power Automate |                                        |      |
| portals        |                                        |      |

Answer:

Explanation:

### Answer Area

#### Tools

connectors

canvas apps

AI Builder

Power Automate

portals

#### Benefit

Easy data integration

Low code / no code across applications

Easy to customize front end

#### Tool

connectors

### NEW QUESTION # 130

An environmental agency creates tables named Specimen and Species in Microsoft Dataverse to record specimens that are collected on nature walks as well as their species. Some of the columns of the Specimen table are shown in the following image:

| Display name               | Name                 | Data type           | Managed | Customizable | Required | Searchable |
|----------------------------|----------------------|---------------------|---------|--------------|----------|------------|
| Created By                 | CreatedBy            | Lookup              | No      | No           | No       | Yes        |
| Created By (Delegate)      | CreatedOnBehalfBy    | Lookup              | No      | No           | No       | Yes        |
| Created On                 | CreatedOn            | DateTime            | No      | No           | No       | Yes        |
| Import Sequence Number     | ImportSequenceNumber | Whole number        | No      | Yes          | No       | Yes        |
| Modified By                | ModifiedBy           | Lookup              | No      | Yes          | No       | Yes        |
| Modified By (Delegate)     | ModifiedOnBehalfBy   | Lookup              | No      | Yes          | No       | Yes        |
| Modified On                | ModifiedOn           | Date and time       | No      | No           | No       | Yes        |
| Name (Primary name column) | cr2el_Name           | Single line of text | No      | Yes          | Yes      | Yes        |
| Owner                      | OwnerId              | Owner               | No      | Yes          | Yes      | Yes        |
| Owning Business Unit       | OwningBusinessUnit   | Lookup              | No      | Yes          | No       | Yes        |
| Owning Team                | OwningTeam           | Lookup              | No      | Yes          | No       | No         |
| Owning User                | OwningUser           | Lookup              | No      | Yes          | No       | No         |
| Record Created On          | CreatedOn            | Date only           | No      | No           | No       | Yes        |
| Species                    | cr2el_Species        | Lookup              | No      | Yes          | No       | Yes        |
| Specimen                   | cr2el_Specimen       | Lookup              | No      | Yes          | Yes      | Yes        |

For each of the following statements, select Yes if the statement is true. Otherwise, select No.  
NOTE: Each correct selection is worth one point.

**Answer Area**

#### Statements

- Many specimens can be associated with a given species.
- The Specimen table is organization owned.
- The Name column is the primary key of the Specimen table.

| Yes                   | No                    |
|-----------------------|-----------------------|
| <input type="radio"/> | <input type="radio"/> |
| <input type="radio"/> | <input type="radio"/> |
| <input type="radio"/> | <input type="radio"/> |

**Answer:**

**Explanation:**

| <input type="checkbox"/>            | <input checked="" type="checkbox"/> |
| <input type="checkbox"/>            | <input checked="" type="checkbox"/> |

#### NEW QUESTION # 131

You are a retail director for a large clothing company. Each week you use the corporate YouTube channel to create a video that highlights new initiatives, and goals for retail operations. You need to design a Power Apps app that streams the videos to internal users. Which objects should you use? To answer, select the appropriate options in the answer area.  
NOTE: Each correct selection is worth one point.

| Action                                       | Option                                                                                                                                     |
|----------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------|
| Implement the Power Apps app.                | <input type="text"/> <ul style="list-style-type: none"> <li>Canvas</li> <li>Model-driven</li> <li>Portal</li> </ul>                        |
| Use drag and drop to add a video to the app. | <input type="text"/> <ul style="list-style-type: none"> <li>View</li> <li>Connector</li> <li>Control</li> </ul>                            |
| Apply consistent company colors to the app.  | <input type="text"/> <ul style="list-style-type: none"> <li>Unified Interface</li> <li>Control</li> <li>Theme</li> <li>Template</li> </ul> |

**Answer:**

**Explanation:**

### Action

### Option

Implement the Power Apps app.

|              |
|--------------|
| Canvas       |
| Model-driven |
| Portal       |

Use drag and drop to add a video to the app.

|           |
|-----------|
| View      |
| Connector |
| Control   |

Apply consistent company colors to the app.

|                   |
|-------------------|
| Unified Interface |
| Control           |
| Theme             |
| Template          |

Explanation

#### NEW QUESTION # 132

You are creating a model-driven app to track requests for quotes.  
The app must use the following navigation structure:

Sales  
Sales Log  
Request for Quotes  
Projects  
Settings  
Customers  
Product Lines  
Sales Territories  
Administration  
User Admin  
Users  
Roles

You need to create the app navigation.

Which sitemap component types should you use? To answer, drag the appropriate component types to the correct navigation elements. Each component type may be used once, more than once, or not at all. You may need to drag the split bar between panes or scroll to view content.

NOTE: Each correct selection is worth one point.

**Component types**

Area

Group

Subarea

**Answer Area**

| Navigation element | Component type |
|--------------------|----------------|
| Administration     | Component type |
| Sales log          | Component type |
| Customers          | Component type |

**Answer:**

Explanation:

**Component types**

Area

Group

Subarea

**Answer Area**

| Navigation element | Component type |
|--------------------|----------------|
| Administration     | Group          |
| Sales log          | Subarea        |
| Customers          | Subarea        |
