Since that we promise that you can enjoy free updates for one year after your purchase.

### SAP Certified Associate - Security Administrator Sample Questions (Q32-Q37):

#### NEW QUESTION # 32

Which object type is assigned to activated OData services in transaction SU24?

- A. IWSG
- B. G4BA
- **C. IWSV**
- D. HTTP

**Answer: C**

#### NEW QUESTION # 33

What do you configure the Social Media deny providers?

- **A. In the administration console for SAP Cloud identity Services**
- B. In the code editor of the SAP Business Application Studio
- C. In the SAP BTP Cockpit Account Explorer

**Answer: A**

Explanation:

The administration console for SAP Cloud Identity Services is where configurations related to social media providers can be managed. This includes setting up deny lists to restrict access or usage by specific social media platforms.

SAP Security References:

- \* SAP Help Portal: Social Media Integration Guide
- \* SAP Cloud Identity Services Administration Documentation

#### NEW QUESTION # 34

Your developer has created a new custom transaction for your SAP S/4HANA on-premise system and has provided you a list of the authorizations needed to execute the new ABAP program. What must you do to ensure that each required authorization is automatically created every time this new custom transaction is added to a PFCG role?

- A. Maintain each authorization in transaction SU24 and set the Default Status to "Yes".
- B. Maintain each authorization in transaction SU22 and set the Check Indicator value to "Check".
- **C. Maintain each authorization object in transaction SU24 and set the Default Status to "Yes".**
- D. Maintain each authorization object in transaction SU22 and set the Default Status to "Yes".

**Answer: C**

Explanation:

\* Context: Transaction SU24 is used to maintain the link between transactions and authorization objects, ensuring automated role generation.

\* Solution Explanation:

\* By setting the Default Status to "Yes" in SU24, the system automatically includes required authorizations when the custom transaction is added to a role in PFCG.

SAP Security References:

- \* SAP SU24 Maintenance Guide
- \* SAP Custom Transaction Authorization Guidelines

### NEW QUESTION # 35

In which order do you define the security-relevant objects in SAP BTP?

- A. Role template
- B. Role3
- C. Role collection

**Answer: A,B,C**

### NEW QUESTION # 36

What can be assigned directly to a user when using the SAP Launchpad service in SAP BTP?

- A. Spaces
- B. Catalogs
- C. Launchpad roles
- D. Role collections

**Answer: D**

Explanation:

In the SAP Launchpad service within SAP Business Technology Platform (BTP), Role collections can be assigned directly to a user. Role collections are groups of roles that define access to specific applications, services, or functionalities within the Launchpad, allowing administrators to grant users the necessary permissions to access content, such as Fiori apps or custom applications. By assigning role collections directly to users in the SAP BTP subaccount, administrators ensure that users have the appropriate access rights tailored to their responsibilities. Spaces, which organize apps in the Launchpad, and Catalogs, which group apps and tiles, are assigned to roles or role collections, not directly to users. Launchpad roles are not a distinct entity in SAP BTP; roles are part of role collections. This direct assignment of role collections simplifies access management, ensuring secure and efficient user access to the SAP Launchpad service while aligning with SAP BTP's security and authorization framework.

### NEW QUESTION # 37

.....

SAP is one of the international top companies in the world providing wide products line which is applicable for most families and companies, and even closely related to people's daily life. Passing exam with C-SEC-2405 valid exam lab questions will be a key to success; will be new boost and will be important for candidates' career path.
