NEW QUESTION # 13

What is a primary benefit of WalkMe's Multi-Language feature for global enterprises?

- A. Automating compliance with international data privacy laws
- B. Allowing users to toggle between languages manually
- **C. Delivering consistent user experiences across diverse regions**
- D. Simplifying the deployment of WalkMe content across applications

Answer: C

Explanation:

The primary benefit of WalkMe's Multi-Language feature for global enterprises is:

☐ C. Delivering consistent user experiences across diverse regions

WalkMe's Multi-Language capability allows organizations to translate all in-app guidance (Walk-Thrus, ShoutOuts, surveys) into multiple languages without rebuilding content, ensuring that users across different geographies have a seamless and native-language experience.

☐ Why the other options don't fit

* A. Automating compliance with international data privacy laws - Multi-Language is about translation and localization, not legal compliance.

* B. Simplifying deployment of WalkMe content across applications - While deployment is easy, the feature specifically targets language translation.

* D. Allowing users to toggle between languages manually - This is a capability of the feature, not its primary benefit. The real value lies in the consistent multilingual user experience across the global organization.

☐ Final Answer: C. Delivering consistent user experiences across diverse regions.

NEW QUESTION # 14

What is one example of WalkMe's measurable impact for its customers?

- A. Reducing software licensing costs by 80%
- B. Replacing all in-person training programs with AI-only solutions
- **C. Saving sales representatives 2-3 hours per day through streamlined processes**
- D. Eliminating the need for IT departments in large organizations

Answer: C

Explanation:

WalkMe has demonstrated significant time savings for sales teams. For example, a WalkMe Salesforce add-on helped sales reps reclaim 2 hours per day that were previously spent on editing leads and navigating CRM systems-allowing them to focus more on selling.

While other options (reduced IT needs, licensing cost optimization, etc.) are indirect benefits, the specific, quantifiable impact of saving 2 hours daily for sales reps is a clearly documented result of WalkMe in action.

□ Final Answer:

D . Saving sales representatives 2-3 hours per day through streamlined processes.
