NEW QUESTION # 39

Team A wants to use the IP Iteration to continue their "usual work." What is one benefit the Scrum Master/Team Coach could share with the team about using the IP Iteration as intended?

- A. The team can perform needed system maintenance
- B. The team can consider additional retrospective action items
- **C. The team can participate in hackathons**
- D. The team can find time to participate in ad hoc groups

Answer: C

Explanation:

Hackathons are one of the activities that can be done during the IP Iteration to foster innovation and learning. They allow the team members to work on whatever they want, with whomever they want, as long as the work reflects the mission of the company. The teams then demo their work to others at the end of the hackathon. Hackathons can help the team explore new ideas, technologies, and solutions that can benefit the business and the customers. They can also increase the team's engagement, creativity, and collaboration. Reference: Innovation and Planning Iteration - Scaled Agile Framework, Exam Study Guide: SSM (6.0) - SAFe® Scrum Master

NEW QUESTION # 40

NEW QUESTION # 41

What is one way to ensure a team is holding successful Iteration Reviews and demos?

- A. The team swarms to prepare for demos
- B. The team shares improving metrics
- C. The team demos working functionality
- D. The team ensures they complete every Story

Answer: C

Explanation:

One way to ensure a team is holding successful iteration reviews and demos is to have the team demo working, tested system components that meet the definition of done (DoD). This shows the team's progress and value delivery, and allows them to receive feedback from the product owner and other stakeholders. The team should minimize the use of slides and the preparation time for the demos, and focus on the solution instead of the presentation. The team should also discuss the impact of the current solution on the nonfunctional requirements (NFRs) and identify any risks or impediments.
