Valid ZDTA Exam Format | Exam ZDTA Flashcards

ZDTA EXAM QUESTIONS AND ANSWERS 100% CORRECT.

ZCC - ANSWERSLightweight app that sits on users, endpoint, and enforces security policies and access controls, regardless of device location or application
- Creates tunnel to Zero trust Exchange for protection of SaaS and internet-bound traffic
- persistent control plane
- dynamic, micro-segmented data plane tunnels to the ZTE for internal app protection
- traffic delivered to application via corresponding outbound only data plane tunnel from Zscaler app connector

Time to check for software updates - ANSWERSEvery 2 hours

Time when ZCC will connect and download any policy updates for the app profiles and forwarding profiles - ANSWERSEvery hour

Time when ZCC will download the PAC file of the app profiles and forwarding profiles - ANSWERSEvery 15 minutes

Forwarding Profile PAC - ANSWERS

OWASP - ANSWERS(Open Web Application Security Project) A charity and community publishing a number of secure application development resources.

SSPM - ANSWERSSaaS Security Posture Management

ZCSPM - ANSWERSZscaler Cloud Security Posture Management

DTLS - ANSWERS(Datagram Transport Layer Security) TLS used with UDP applications, such as some VPN solutions.

ZDTA - ANSWERSZscaler Digital Transformation Administrator

ZTE - ANSWERSZero Trust Exchange
Authenticated tunnels options - ANSWERSZTunnel - Packet Filter Based
ZTunnel - Route-Based
ZTunnel with local proxy

ZTunnel 1.0 - ANSWERSHTTP CONNECT tunnel
doesn't encapsulate traffic
adds some information header, ZTE to understand user information and data passed to it

What's more, part of that Pass4training ZDTA dumps now are free: https://drive.google.com/open?id=1PpaUN9GE3mln26bS0H9-ISiDDytAPktO

You can even print the study material and save it in your smart devices to study anywhere and pass the Zscaler Digital Transformation Administrator (ZDTA) certification exam. The second format, by Pass4training, is a web-based Zscaler Digital Transformation Administrator (ZDTA) practice exam that can be accessed online through browsers like Firefox, Google Chrome, Safari, and Microsoft Edge. You don't need to download or install any excessive plugins or Software to use the web-based software.

Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	• Risk Management: This domain measures skills of Risk Managers and Security Architects in using Zscaler's comprehensive risk management suite. Candidates are expected to understand risk capabilities, dashboards, asset and financial risk insights, vulnerability management, deception tactics, identity protection, and breach prediction analytics.

Topic 2	• Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.
Topic 3	• Identity Services: This section of the exam measures skills of Identity and Access Management Engineers and covers foundational identity services including authentication and authorization protocols such as SAML, SCIM, and OIDC. Candidates should understand identity administration tasks and how to manage policies and audit logs within the Zscaler platform.
Topic 4	• Connectivity Services: This domain evaluates Network Security Engineers on configuring and managing connectivity essentials like device posture assessment, trusted network definitions, browser access controls, and TLS • SSL inspection deployment. It also includes applying policy frameworks focused on authentication and enforcement for internet access, private access, and digital experience.
Topic 5	• Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.
Topic 6	• This section assesses Data Protection Officers on techniques to secure data across motion, SaaS, cloud, and endpoints using Zscaler's AI-driven data discovery and data protection technologies. It involves securing BYOD environments and understanding risk management to protect sensitive information.

Exam ZDTA Flashcards & New ZDTA Dumps Questions

With the rapid development of the world economy and frequent contacts between different countries, looking for a good job has become more and more difficult for all the people. So it is very necessary for you to get the ZDTA certification with the help of our ZDTA Exam Braindumps, you can increase your competitive advantage in the labor market and make yourself distinguished from other job-seekers. Choosing our ZDTA study guide, you will have a brighter future!

Zscaler Digital Transformation Administrator Sample Questions (Q84-Q89):

NEW QUESTION # 84
What mechanism identifies the ZIA Service Edge node that the Zscaler Client Connector should connect to?

- A. The Machine Key used in the Application Profile
- B. The PAC file used in the Application Profile
- C. The PAC file used in the Forwarding Profile
- D. The IP ranges included/excluded in the App Profile

Answer: B

Explanation:
The PAC file used in the Application Profile is the mechanism that identifies the ZIA Service Edge node that the Zscaler Client Connector should connect to. The PAC (Proxy Auto-Configuration) file contains rules that direct client traffic to the appropriate service edge based on IP ranges, location, or other criteria.
The study guide explains that the Application Profile's PAC file plays a key role in routing client connections to the nearest or optimal ZIA Service Edge node to ensure efficient traffic forwarding and policy enforcement.

NEW QUESTION # 85
What does the user risk score enable a user to do?

- A. Determine whether or not a user is authorized to view unencrypted data.

- B. Compare the user risk score with other companies to evaluate users vs other companies.
- C. Determine if a user has been compromised
- D. Configure stronger user-specific policies to monitor & control user-level risk exposure.

Answer: D

Explanation:
Theuser risk scoreenables organizations toconfigure stronger user-specific policies to monitor and control user-level risk exposure.
This score reflects a user's risk posture based on behaviors and detected anomalies and helps in tailoring security policies to address individual risk levels.
While the score gives insight into user risk, it is primarily designed for adaptive policy enforcement rather than direct compromise detection or cross-company comparison. The study guide highlights that user risk scores drive policy adjustments to better secure user activity.

NEW QUESTION # 86
Malware Protection inside HTTPS connections is performed using which parts of the Zero Trust Exchange?

- A. Data Loss Protection comparing saved filenames for known risks.
- B. Deception creating decoy files for malware to discover.
- C. Application Segmentation of users to specific private applications.
- D. TLS Inspection decrypting traffic to compare signatures for known risks.

Answer: D

Explanation:
Malware Protection for HTTPS traffic relies on the Zero Trust Exchange's TLS Inspection to decrypt the SSL
/TLS stream, enabling the malware#detection engines to scan payloads against known threat signatures.

NEW QUESTION # 87
What is the name of the feature that allows the platform to apply URL filtering even when a Cloud APP control policy explicitly permits a transaction?

- A. Allow and Scan
- B. Allow URL Filtering
- C. Allow and Quarantine
- D. Allow Cascading

Answer: D

Explanation:
The feature that allows Zscaler to apply URL filtering even when a Cloud App control policy explicitly permits a transaction is calledAllow Cascading. This feature ensures that even if a cloud application is permitted by the Cloud App control policy, the URL filtering policy can still be enforced. This is useful in cases where granular URL control is needed on top of cloud app permissions, providing layered security controls.
The study guide clearly explains that Allow Cascading enables URL filtering policies to cascade or take precedence and thus still inspect and potentially block URLs even if the cloud app is allowed by policy. This allows administrators to fine-tune access and ensure additional inspection layers on web traffic .

NEW QUESTION # 88
Which of the following scenarios would generate a "Patient 0" alert?

- A. A new malicious file was detected by the sandbox due to an "quarantine" First-Time Action in the sandbox policy.
- B. A new malicious file was detected by the sandbox due to an "allow and scan" First-Time Action in the sandbox policy.
- C. Zscaler's AI/ML based Smart Browser Isolation was triggered due to a users accessing a newly- registered domain.
- D. Zscaler detected a HIPAA violation with in-band Data Protection scanning.

Answer: B

Explanation:
A "Patient 0" alert fires when the first instance of a previously unknown file slips through (under an "Allow and Scan" first#time action) and is later classified as malicious by the sandbox, identifying that initial download as the zero#day event.

NEW QUESTION # 89

......

You need to do something immediately to change the situation. For instance, the first step for you is to choose the most suitable ZDTA actual dumps for your coming exam. Just like the old saying goes, the little things will determine success or failure.so the study materials is very important for you exam, because the study materials will determine whether you can pass the ZDTA Exam successfully or not. However, how to choose the best and suitable study materials for yourself in a short time? It is very difficult for a lot of people to do a correct choice, especially these people who have no any experience about the ZDTA exam. We would like to tell you how to buy the most suitable and helpful study materials.
