

# Vce DevOps-Foundation File - Valid Exam DevOps-Foundation Vce Free

What's more, part of that Free4Torrent DevOps-Foundation dumps now are free: [https://drive.google.com/open?id=1e\\_6muqoJA49dkznB04l1gHd1LrgnXLqs](https://drive.google.com/open?id=1e_6muqoJA49dkznB04l1gHd1LrgnXLqs)

Before clients purchase our PeopleCert DevOps Foundationv3.6Exam test torrent they can download and try out our product freely to see if it is worthy to buy our product. You can visit the pages of our product on the website which provides the demo of our DevOps-Foundation study torrent and you can see parts of the titles and the form of our software. On the pages of our DevOps-Foundation study tool, you can see the version of the product, the updated time, the quantity of the questions and answers, the characteristics and merits of the product, the price of our product, the discounts to the client, the details and the guarantee of our DevOps-Foundation study torrent, the methods to contact us, the evaluations of the client on our product, the related exams and other information about our PeopleCert DevOps Foundationv3.6Exam test torrent. Thus you could decide whether it is worthy to buy our product or not after you understand the features of details of our product carefully on the pages of our DevOps-Foundation study tool on the website.

## Peoplecert DevOps-Foundation Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Exploring DevOps: This section of the exam measures the skills of DevOps engineers and covers the foundations of DevOps, including its emergence as a critical discipline in the digital era. It introduces learners to the basic purpose, evolution, and significance of DevOps in modern software and infrastructure environments.</li></ul>
Topic 2	<ul style="list-style-type: none"><li>Core DevOps Principles: This section of the exam measures the skills of IT operations specialists and covers essential DevOps principles such as the Three Ways, the Theory of Constraints, and Chaos Engineering. It also introduces the concept of learning organisations, showing how systemic thinking supports continuous improvement.</li></ul>
Topic 3	<ul style="list-style-type: none"><li>Key DevOps Practices: This section of the exam measures the skills of DevOps engineers and covers core DevOps practices including Continuous Integration, Continuous Testing, Continuous Delivery, and Continuous Deployment. It explores concepts such as Site Reliability Engineering, DevSecOps, Value Stream Management, Platform Engineering, and modern practices like ChatOps and observability.</li></ul>

Topic 4	<ul style="list-style-type: none"> <li>• Culture, Behaviours, Operating Models: This section of the exam measures the skills of DevOps engineers and covers how to assess and evolve organisational culture in relation to DevOps transformation. It includes concepts such as Cultural Debt, Behavioural Models, and Organisational Maturity, helping professionals understand team dynamics and readiness for change.</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Measurement, Metrics, and Reporting: This section of the exam measures the skills of DevOps engineers and covers metrics that help monitor and evaluate the performance of DevOps practices. Topics include speed, quality, culture, change lead time, cycle time, and the use of dashboards, value-driven metrics, and AIOps in reporting and decision-making.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Sharing, Shadowing and Evolving: This section of the exam measures the skills of IT operations specialists and covers the collaborative and adaptive elements of DevOps in enterprise settings. It explores leadership, typical barriers and risks, and outlines how organisations can evolve their DevOps practices through continuous learning, peer shadowing, and experience-based transformation.</li> </ul>

## Get 1 year Free4Torrent Peoplecert DevOps-Foundation Exam Questions Free Updates

Our products boost 3 versions and varied functions. The 3 versions include the PDF version, PC version, APP online version. You can use the version you like and which suits you most to learn our DevOps-Foundation study materials. The 3 versions support different equipment and using method and boost their own merits and functions. For example, the PC version supports the computers with Window system and can stimulate the real exam. Our products also boost multiple functions which including the self-learning, self-evaluation, statistics report, timing and stimulation functions. Each function provides their own benefits to help the clients learn the DevOps-Foundation Study Materials efficiently. For instance, the self-learning and self-evaluation functions can help the clients check their results of learning the DevOps-Foundation study materials.

## Peoplecert PeopleCert DevOps Foundationv3.6Exam Sample Questions (Q75-Q80):

### NEW QUESTION # 75

Agile funding can be \_\_\_\_\_

- A. Reviewed frequently
- B. Fixed cost
- C. All of the Above
- D. Continuous cost

**Answer: C**

Explanation:

Agile funding is flexible and adapts to the iterative, incremental nature of Agile and DevOps projects.

It can be fixed cost for some work, continuous cost for ongoing value streams, and is reviewed frequently to align with evolving priorities.

All three characteristics are true, so D ("All of the Above") is correct.

Extract-style reference:

"Agile funding models support continuous review and adaptation, providing the flexibility required for digital transformation and DevOps ways of working."

- Project to Product, Mik Kersten

PeopleCert DevOps Foundation v3.6: Advocates funding models that encourage agility, experimentation, and rapid value delivery.

### NEW QUESTION # 76

An organization is considering introducing Continuous Integration to their software development. What would be the PRIMARY benefit of this approach?

- A. Commits can be tested together in order to detect and remediate errors before they go into production
- B. Continuous integration allows more developers to work on the same product simultaneously
- C. Continuous integration will require the creation of a version control repository
- D. Continuous integration will push more changes into real-time quickly

**Answer: A**

Explanation:

Continuous Integration (CI) is the practice of frequently merging small code changes into a shared repository, followed by automated builds and tests. The primary benefit is early detection and resolution of integration issues. When commits are tested together continuously, defects are caught soon after introduction, reducing the cost and complexity of fixing them.

While B (more developers can work together) is a side effect, it is not the primary goal. C (pushing changes quickly) is more related to Continuous Delivery or Continuous Deployment. D (version control) is a prerequisite for CI, not the main benefit.

Therefore, A correctly captures the primary benefit—finding and fixing issues early before they reach production.

### NEW QUESTION # 77

What is NOT a type of IT work?

- A. Manufacturing
- B. Business projects
- C. Unplanned work
- D. Planned work

**Answer: A**

Explanation:

Manufacturing is not a type of IT work in DevOps.

DevOps classifies IT work as:

\* Business projects: New value-creating work.

\* Planned work: Routine, repeatable tasks (maintenance, upgrades).

\* Unplanned work: Incidents, emergencies, support.

Extract-style reference:

"IT work includes business projects, planned work, and unplanned work. Manufacturing is an analogy for flow, but not a category of IT work itself."

-The Phoenix Project

PeopleCert DevOps Foundation v3.6: Recognizes these three categories to manage and improve IT workloads.

### NEW QUESTION # 78

What is "Cycle Time"?

- A. The time taken from a code commit to completing tests and being ready for continuous delivery
- B. The time it takes from a story to go from 'in progress' to 'done'
- C. The total elapsed time from the point when a user story enters the backlog, until the time it is completed  
- including the time spent waiting in a backlog
- D. The time it takes for a requirement to go from the product backlog to live

**Answer: B**

Explanation:

Cycle Time in Agile and DevOps measures the time taken for work to move from the start of active work ("in progress") to completion ("done"). It reflects the efficiency of the development process and helps identify bottlenecks in active work.

Lead Time, which includes the time spent in the backlog before work starts, is a subset metric related to build/test time, not the full cycle time.

Shorter cycle times indicate more efficient processes and faster delivery of value. Monitoring cycle time enables continuous improvement by highlighting delays within active work.

#### NEW QUESTION # 79

Which of the following of Continuous Delivery does NOT contribute positively to SDO Performance?

- A. Trunk-based development
- B. Culture of psychological safety
- C. Heavyweight Change Process
- D. Cloud

**Answer: C**

#### Explanation:

High-performing organizations use Continuous Delivery practices to improve Software Delivery and Operational (SDO) performance.

\* B: Psychological safety encourages open communication, incident reporting, and learning from failures.

\* C: Trunk-based development reduces integration issues and supports continuous integration/delivery.

\* D: Cloud technologies provide scalable, on-demand environments that speed up delivery and testing.

On the other hand, A-a heavyweight change process-slows down delivery, increases lead time, and often fails to improve change success rates. Research cited in Accelerate shows that manual, centralized change approvals correlate with lower performance, while automated, peer-reviewed changes produce better reliability and faster delivery.

#### NEW QUESTION # 80

.....

You will stand at a higher starting point than others if you buy our DevOps-Foundation exam braindumps. Why are DevOps-Foundation practice questions worth your choice? I hope you can spend a little time reading the following content on the website, I will tell you some of the advantages of our DevOps-Foundation Study Materials. Firstly, our pass rate for DevOps-Foundation training guide is unmatched high as 98% to 100%. Secondly, we have been in this career for years and became a famous brand.
