Learn About Exam Pattern With SC-100 PDF Dumps

To let the clients have an understanding of their mastery degree of our SC-100 guide materials and get a well preparation for the test, we provide the test practice software to the clients. The test practice software of SC-100 practice guide is based on the real test questions and its interface is easy to use. The test practice software boosts the test scheme which stimulate the real test and boost multiple practice models, the historical records of the practice of SC-100 Training Materials and the self-evaluation function.

Microsoft Cybersecurity Architect Sample Questions (Q52-Q57):

NEW QUESTION # 52

Your company plans to deploy several Azure App Service web apps. The web apps will be deployed to the West Europe Azure region. The web apps will be accessed only by customers in Europe and the United States.

You need to recommend a solution to prevent malicious bots from scanning the web apps for vulnerabilities.

The solution must minimize the attack surface.

What should you include in the recommendation?

- A. Azure Firewall Premium
- **B. Azure Application Gateway Web Application Firewall (WAF)**
- C. Azure Traffic Manager and application security groups
- D. network security groups (NSGs)

Answer: B

NEW QUESTION # 53

You are evaluating an Azure environment for compliance.

You need to design an Azure Policy implementation that can be used to evaluate compliance without changing any resources. Which effect should you use in Azure Policy?

- **A. Disabled**
- B. Modify
- C. Append
- D. Deny

Answer: A

Explanation:

Before looking to manage new or updated resources with your new policy definition, it's best to see how it evaluates a limited subset of existing resources, such as a test resource group. Use the enforcement mode Disabled (DoNotEnforce) on your policy assignment to prevent the effect from triggering or activity log entries from being created.
