[https://help.tableau.com/current/server/en-us/users\\_site\\_roles.htm](https://help.tableau.com/current/server/en-us/users_site_roles.htm)

#### NEW QUESTION # 56

Select the valid ways to open a Tableau Support case:

- A. Contact Tableau Consulting Services
- B. Go to the Support site at [tableau.com/support](https://tableau.com/support)
- C. Sign in to the developer community and submit a case
- D. Submit a case to Tableau Support using the Customer Portal

**Answer: B,D**

Explanation:

Explanation

Link to Tableau Server documentation:

<https://www.tableau.com/about/contact/customer-service>

#### NEW QUESTION # 57

What process enables you to access Tableau Services Manager (TSM) over HTTPS?

- A. Coordination Service
- **B. Administration Controller**
- C. Administration Agent
- D. License Manager

**Answer: B**

Explanation:

TSM is Tableau Server's management layer, accessible via CLI or web UI (port 8850). HTTPS secures this access-let's identify the responsible process:

\* TSM Architecture:

\* Administration Controller: Core TSM process, running on the initial node, handling configuration, UI, and CLI commands.

\* HTTPS: Enabled by default on port 8850 with a self-signed certificate (configurable to custom certs).

\* Option B (Administration Controller): Correct.

\* Details: Hosts the TSM web UI (<https://<server>:8850>) and processes CLI requests. It manages the HTTPS listener, serving the interface securely.

\* Why: It's the central hub for TSM operations, including secure access.

\* Option A (License Manager): Incorrect.

\* Why: Validates licenses, not responsible for HTTPS or UI access.

\* Option C (Administration Agent): Incorrect.

\* Why: Runs on additional nodes in multi-node setups to relay commands to the Controller-no direct HTTPS role.

\* Option D (Coordination Service): Incorrect.

\* Why: ZooKeeper manages cluster state, not TSM's web interface or HTTPS.

Why This Matters: Secure TSM access protects server administration-Administration Controller is the linchpin.

## NEW QUESTION # 58

.....

It is necessary to strictly plan the reasonable allocation of SCA-C01 test time in advance. Many students did not pay attention to the strict control of time during normal practice, which led to panic during the process of examination, and even some of them are not able to finish all the questions. If you purchased SCA-C01 learning dumps, each of your mock exams is timed automatically by the system. SCA-C01 learning dumps provide you with an exam environment that is exactly the same as the actual exam. It forces you to learn how to allocate exam time so that the best level can be achieved in the examination room. At the same time, SCA-C01 Test Question will also generate a report based on your practice performance to make you aware of the deficiencies in your learning process and help you develop a follow-up study plan so that you can use the limited energy where you need it most. So with SCA-C01 study tool you can easily pass the exam.
