The community health nurse is planning health promotion teaching targeted at preventing coronary artery disease (CAD). Which ethnic group would the nurse select as the highest priority for this intervention?

A. White male
B. Hispanic male
C. African American male
D. Native American female

Correct Answer: A. White male

The incidence of CAD and myocardial infarction (MI) is highest among white, middle-aged men. Hispanic individuals have lower rates of CAD than non-Hispanic whites or African Americans. African Americans have an earlier age of onset and more severe CAD than whites and more than twice the mortality rate of whites of the same age. Native Americans have increased mortality in less than 35-year-olds and have major modifiable risk factors such as diabetes.

Which individuals would the nurse identify as having the highest risk for CAD?

CAD Sample Exam - Latest Study CAD Questions

Our CAD study materials include 3 versions and they are the PDF version, PC version, APP online version. You can understand each version's merits and using method in detail before you decide to buy our CAD learning guide. And the content of the three different versions is the same, but the displays are totally different according to the study interest and hobbies. And it is quite enjoyable to learn with our CAD Exam Questions.

ServiceNow Certified Application Developer-ServiceNow Sample Questions (Q68-Q73):

NEW QUESTION # 68

What is the REST API Explorer used to do?

- A. Create sample code for sending REST requests to ServiceNow
- B. Convert SOAP Message functions to REST methods
- C. Practice using REST to interact with public data providers
- D. Find resources on the web for learning about REST

Answer: A

Explanation:

One of the uses of the ServiceNow REST API Explorer is to create sample code for sending REST requests to ServiceNow. The REST API Explorer is a tool that allows you to discover and test the ServiceNow REST APIs. You can select an API endpoint, set the HTTP method, parameters, headers, and body, and then execute the request. The REST API Explorer will show you the response status, headers, and body, as well as generate sample code for various languages and frameworks, such as cURL, Java, JavaScript, Node.js, Python, Ruby, and more.
