

VMware 2V0-11.25 Testking Exam Questions - 2V0-11.25 Exam Dumps Collection

BTW, DOWNLOAD part of Exam4Tests 2V0-11.25 dumps from Cloud Storage: https://drive.google.com/open?id=1iWWABwjo_1y5Ey-ewGyjnL982ArLAp1z

To get prepared for the VMware Cloud Foundation 5.2 Administrator certification exam, applicants face a lot of trouble if the study material is not updated. They are using outdated materials resulting in failure and loss of money and time. So to solve all these problems, Exam4Tests offers actual 2V0-11.25 Questions to help candidates overcome all the obstacles and difficulties they face during 2V0-11.25 examination preparation.

As we all know, the influence of 2V0-11.25 exam guides even have been extended to all professions and trades in recent years. Passing the 2V0-11.25 exam is not only for obtaining a paper certification, but also for a proof of your ability. Most people regard VMware certification as a threshold in this industry, therefore, for your convenience, we are fully equipped with a professional team with specialized experts to study and design the most applicable 2V0-11.25 Exam prepare. We have organized a team to research and 2V0-11.25 study question patterns pointing towards various learners.

2V0-11.25 Testking Exam Questions - Pass Guaranteed Quiz VMware First-grade 2V0-11.25 Exam Dumps Collection

If you require any further information about either our 2V0-11.25 preparation exam or our corporation, please do not hesitate to let us know. High quality 2V0-11.25 practice materials leave a good impression on the exam candidates and bring more business opportunities in the future. And many of our cutomers use our 2V0-11.25 Exam Questions as their exam assistant and establish a long cooperation with us.

VMware 2V0-11.25 Exam Syllabus Topics:

Topic	Details

Topic 1	• Install, Configure, Administrate the VMware by Broadcom Solution: This section of the exam measures skills of the VMware Cloud Foundation administrator and covers the installation and configuration processes for VMware Cloud Foundation components, deploying and configuring management domains, NSX Edge Clusters, and the VMware Aria Suite Lifecycle. It assesses the ability to deploy workload domains, enable vSphere IaaS control plane, create vSphere namespaces, manage stretched clusters, and use VMware Cloud Foundation APIs. Candidates are also tested on scaling deployments, performing Day 2 operations like backup, recovery, lifecycle management, VM lifecycle management, configuring networking and storage, managing ESXi hosts, implementing encryption, and operationalizing VMware NSX, vSAN, and Aria Suite. The section is comprehensive, targeting those responsible for the ongoing administration and optimization of VMware environments.
Topic 2	• Troubleshoot and Optimize the VMware by Broadcom Solution: This section of the exam measures skills of the cloud infrastructure support engineer and covers diagnosing and resolving technical issues related to VMware Cloud Foundation deployment and operations. It includes troubleshooting the deployment process, vSphere, networking, vSAN, SDDC Manager, and Aria Suite. The section also evaluates the ability to optimize infrastructure performance, manage resources, and ensure efficient operation, focusing on the practical aspects of maintaining and enhancing VMware Cloud Foundation environments.
Topic 3	• VMware by Broadcom Solution: This section of the exam measures skills of the cloud administrator and covers identifying VMware Cloud Foundation components like vSphere, vSAN, and NSX, as well as their architecture, including stretched configurations. It also assesses knowledge of requirements for implementing private cloud solutions, use cases for VMware Aria Suite components, vSphere IaaS control plane, Data Services Manager, and VMware Cloud Foundation Add-Ons. The focus is on the ability to recognize and apply the correct VMware solutions for various enterprise scenarios.
Topic 4	• IT Architectures, Technologies, Standards: There are no testable objectives in this section. However, this area establishes the foundational knowledge expected of cloud administrators, such as understanding basic IT infrastructure, virtualization, and cloud models. This section is relevant for cloud administrators and infrastructure engineers.
Topic 5	• Plan and Design the VMware by Broadcom Solution: There are no testable objectives in this section. Still, it is intended for solution architects who need to plan and design VMware Cloud Foundation deployments, focusing on sizing, architecture selection, and network • storage design.

VMware Cloud Foundation 5.2 Administrator Sample Questions (Q61-Q66):

NEW QUESTION # 61

An organization is planning to manage a diverse set of databases across multiple VMware Cloud Foundation (VCF) environments using Data Services Manager.

Which three capabilities of Data Services Manager would help the organization managing these databases efficiently? (Choose three.)

- A. Policy-based backup and recovery for databases
- B. Centralized monitoring and alerting for all managed databases
- C. Integration with vSAN for optimized storage management
- D. Automated database provisioning and deployment
- E. Automated database migration between on-premises and cloud environments

Answer: A,B,D

Explanation:

Centralized monitoring and alerting gives visibility into performance and health across all databases.

Policy-based backup and recovery ensures consistent protection and recovery SLAs for each database.

Automated provisioning and deployment accelerates rollout of new database instances with standardized configurations.

<https://blogs.vmware.com/cloud-foundation/2024/09/24/the-value-of-data-services-manager-for-modern-workloads/>

NEW QUESTION # 62

An organization is looking to streamline its IT service delivery by automating the deployment of applications and infrastructure across its hybrid cloud environment.

Which VMware Aria Suite component should they use?

- A. Aria Operations for Logs
- **B. Aria Automation**
- C. Aria Operations for Networks
- D. Aria Operations

Answer: B

Explanation:

Aria Automation (formerly vRealize Automation) is designed to automate the deployment of applications and infrastructure across hybrid cloud environments. It enables the provisioning, management, and orchestration of IT services, helping organizations streamline their service delivery.

NEW QUESTION # 63

It looks like you seem to be referencing a set of information working or credentials required for setting up or configuring a VMware Aria Suite Lifecycle appliance (setup previous only configuration known. as The vReal question seems to involve identifying Suite Lifecycle Manager necessary) information or in credentials a needed VMware for Cloud Foundation successful (deployment VC.F The) environment. correct From answer your, based provided on list your, list the, correct is answers for this:

- **A. The password for the root account**
- **B. The password for the vcfadmin@local account**
- C. A free IP Address within the cross-region virtual network segment
- **D. The FQDN of the Aria Suite Lifecycle cluster**
- E. A free IP address on the VMware NSX Tier 0
- F. The password for the admin@local account
- **G. The FQDN of the Aria Suite Lifecycle appliance**

Answer: A,B,D,G

Explanation:

The fully qualified domain name (FQDN) of the Aria Suite Lifecycle appliance and cluster are necessary for proper configuration and integration within the VMware Cloud Foundation environment.

The password for the root account is required to authenticate and provide administrative access to the environment.

The password for the vcfadmin@local account is needed to perform administrative tasks related to VMware Cloud Foundation (VCF).

NEW QUESTION # 64

An organization is implementing a downtime avoidance solution and wants to ensure continuous availability of applications across separate sites that are connected via a high bandwidth/low latency link.

Which two VMware Cloud Foundation components support this capability with stretched clusters? (Choose two.)

- A. vSphere Replication
- B. vVOL
- C. NSX Firewall
- **D. vSphere**
- **E. vSAN**

Answer: D,E

Explanation:

vSAN: vSAN supports stretched clusters, allowing data to be mirrored across multiple sites to ensure continuous availability and enable high availability for virtual machines in case of a site failure.

vSphere: vSphere also supports stretched clusters, enabling the high availability of applications across multiple sites by allowing virtual machines to be run on either site in the event of a failure.

NEW QUESTION # 65

Which feature of VMware Lifecycle Manager allows an administrator to manage the lifecycle of ESXi hosts by applying a consistent image across the hosts in a cluster? (Choose three.)

- A. Apply the encryption policy to the existing VMs.
- B. Create an encryption policy in vCenter.
- C. Configure a Key Management Server (KMS) and add it to vCenter
- D. Enable the encryption feature on the ESXi hosts.
- E. Enable SSH on the ESXi hosts to manage encryption keys.

Answer: A,B,C

Explanation:

A Key Management Server (KMS) is required to manage encryption keys in the environment, ensuring that encrypted data is securely managed across ESXi hosts.

Creating an encryption policy in vCenter allows administrators to define how encryption is applied to virtual machines and data.

Applying the encryption policy to the existing VMs ensures that the encryption settings are enforced on virtual machines that require protection.

NEW QUESTION # 66

.....

The system of our 2V0-11.25 latest exam file is great. It is developed and maintained by our company's professional personnel and is dedicated to provide the first-tier service to the clients. Our system updates the 2V0-11.25 exam questions periodically and frequently to provide more learning resources and responds to the clients' concerns promptly. Our system will supplement new 2V0-11.25 latest exam file and functions according to the clients' requirements and surveys the clients' satisfaction degrees about our 2V0-11.25 cram materials. Our system will do an all-around statistics of the sales volume of our 2V0-11.25 exam questions at home and abroad and our clients' positive feedback rate of our 2V0-11.25 latest exam file. Our system will deal with the clients' online consultation and refund issues promptly and efficiently. So our system is great.
