The top features of TestKingFree 1Z0-1114-25 exam questions are the availability of Oracle certification exam in three different formats, real, valid, and updated 1Z0-1114-25 exam questions, subject matter experts verified 1Z0-1114-25 Exam Questions, free demo download facility, 1 year updated 1Z0-1114-25 exam questions download facility, affordable price and 100 percent Oracle 1Z0-1114-25 exam passing money back guarantee.

Oracle 1Z0-1114-25 Exam Syllabus Topics:

Topic	Details
Topic 1	Developing Fusion Apps with Visual Builder Studio: This section tests the knowledge of Fusion App Developers and Development Operations Engineers in leveraging Visual Builder Studio features. It includes configuring service connections, managing code with Git repositories, handling branches and merge requests, and managing builds, pipelines, and deployments to streamline application development workflows.
Topic 2	The Redwood Experience: This section of the exam measures the skills of UX Designers and Application Developers in understanding the need for a modern applications platform. It explains the building blocks of Oracle's Redwood design system, focusing on its role in delivering a consistent and intuitive user experience across applications.
Topic 3	Configuring Oracle Fusion Cloud Extensions with Visual Builder Studio: This section evaluates the expertise of Fusion Application Developers and Cloud Extension Specialists in using Oracle Visual Builder Studio (VBS) as a development platform for creating and modifying Oracle SaaS applications. It covers extending existing SaaS pages, creating new Redwood pages or apps for SaaS data, and building mashup applications that integrate SaaS and external data sources.

Topic 4	• Designing and Developing Redwood Applications: This section measures the skills of Redwood Application Developers and Product Designers in designing and developing applications using Redwood patterns, templates, and components. It focuses on utilizing Redwood page templates, exploring specifications through the Redwood Reference Application, and building applications that align with Oracle's Redwood design system.

Reliable 1Z0-1114-25 Dumps Pdf & Valid 1Z0-1114-25 Test Dumps

To make your review more comfortable and effective, we made three versions as well as a series of favorable benefits for you. We are concerted company offering tailored services which include not only the newest and various versions of 1Z0-1114-25 practice materials, but offer one-year free updates services with patient staff offering help 24/7. So, there is considerate and concerted cooperation for your purchasing experience accompanied with patient staff with amity. You can find them on our official website, and we will deal with everything once your place your order.

Oracle Redwood Application 2025 Developer Associate Sample Questions (Q18-Q23):

NEW QUESTION # 18

You created a page based on the Foldout layout template. How do you ensure that your customer can access it from a mobile phone?

- A. Develop a separate application for mobile devices with a different layout
- B. Switch to a new template that will fit into a mobile device size
- C. Add JavaScript to add responsive design to your page
- **D. Do nothing. Responsive behavior will render the page properly on the device**

Answer: D

Explanation:

Full Detailed in Depth Explanation:

Redwood templates, like Foldout, are inherently responsive (A), adapting to mobile devices without extra effort. Options B, C, and D are unnecessary.

NEW QUESTION # 19

In which three cases would you need a Visual Builder service instance to deploy your app to? (Choose three.)

- **A. When the app needs to be accessed by users who do not have Fusion Apps access**
- B. For gaining access to Oracle Fusion Apps REST services
- **C. When there is an application that is accessible from a vanity URL (custom domain)**
- D. For enabling the app to be integrated into the Fusion Cloud Apps menu
- **E. For gaining access to an external database through a REST service requiring basic auth**

Answer: A,C,E

Explanation:

Full Detailed in Depth Explanation:

A Visual Builder (VB) service instance is a stand-alone runtime environment separate from Fusion Apps. Option A is correct because external users without Fusion access require a VB instance to host the app. Option B is valid as VB instances support REST integrations with external databases using basic authentication. Option C is accurate because vanity URLs are supported by VB instances for custom domains. Option D is incorrect because Fusion Apps REST services are typically accessed via AppUI extensions within Fusion, not a separate VB instance. Option E is wrong as integration into Fusion menus relies on AppUI extensions, not a stand-alone VB instance.

NEW QUESTION # 20

What is the main advantage of using Oracle Redwood for application development?

- A. Real-time data analytics
- B. Integrated machine learning
- C. Cross-platform compatibility
- **D. User-friendly interface**

Answer: D

Explanation:

Full Detailed in Depth Explanation:

Redwood's primary advantage is its user-friendly, consistent UI design (C). Analytics (A), ML (B), and compatibility (D) are secondary benefits.

NEW QUESTION # 21

Redwood uses dynamic padding to provide users with the most comfortable experience regardless of the device and viewport size. Which are the two correct statements about dynamic padding?

- **A. In Edge-to-Edge layout, the margins disappear because the container spans the viewport's width**
- B. Padding is the space between margins and the left and right edges of the containers
- **C. There is a space between the container and the top and bottom edges of the viewport**
- D. In small breakpoints the margins disappear because the container spans the viewport's width

Answer: A,C

Explanation:

Full Detailed in Depth Explanation:

In Edge-to-Edge layouts (B), margins vanish as containers span the viewport. Vertical spacing (D) exists between containers and viewport edges. A is incorrect as small breakpoints adjust padding, not margins. C misdefines padding.

NEW QUESTION # 22

By design, dialog messages interrupt the user and force them to make a decision. Which three dialog message components are available in Redwood? (Choose three.)

- **A. oj-sp-message-dialog-destructive**
- B. oj-sp-smart-search-page
- C. oj-sp-message-banner-unsaved-changes
- **D. oj-sp-message-unsaved-changes**
- **E. oj-sp-message-dialog-general**
- F. oj-sp-messages-banner

Answer: A,D,E

Explanation:

Full Detailed in Depth Explanation:

Redwood provides dialog components to interrupt users for decisions. oj-sp-message-dialog-destructive (A) handles critical actions (e.g., delete), oj-sp-message-dialog-general (C) is for standard prompts, and oj-sp-message-unsaved-changes (E) warns about unsaved data—all align with the interruptive nature of dialogs. oj-sp-messages-banner (B) and oj-sp-message-banner-unsaved-changes (F) are banners (non-interruptive), and oj-sp-smart-search-page (D) is a search component, not a dialog.

NEW QUESTION # 23

.....

Due to continuous efforts of our experts, we have exactly targeted the content of the 1Z0-1114-25 exam. You will pass the 1Z0-1114-25 exam after 20 to 30 hours' learning with our 1Z0-1114-25 study material. If you fail to pass the exam, we will give you a refund. Many users have witnessed the effectiveness of our 1Z0-1114-25 Guide braindumps you surely will become one of them. Try it right now! And we will let you down.
