Mock Test & Correct NSE7_OTS-7.2 Reliable Exam Materials

There are rare products which can rival with our products and enjoy the high recognition and trust by the clients like our products. Our products provide the NSE7_OTS-7.2 study materials to clients and help they pass the test NSE7_OTS-7.2 certification which is highly authorized and valuable. Our company is a famous company which bears the world-wide influences and our NSE7_OTS-7.2 Study Materials are recognized as the most representative and advanced study materials among the same kinds of products. Whether the qualities and functions or the service of our product, are leading and we boost the most professional expert team domestically.

Fortinet NSE7_OTS-7.2 certification exam is designed for individuals who want to demonstrate their expertise in securing operational technology (OT) networks. It is an advanced-level exam that tests the candidates' knowledge and skills related to securing OT systems, networks, and devices against cyber threats. NSE7_OTS-7.2 Exam is based on Fortinet's Security Fabric architecture, which is a comprehensive security solution that provides end-to-end protection for OT environments.

## Fortinet NSE 7 - OT Security 7.2 Sample Questions (Q63-Q68):

NEW QUESTION # 63
An OT network administrator is trying to implement active authentication. Which two methods should the administrator use to achieve this? (Choose two.)

- A. Local authentication on FortiGate
- B. Role-based authentication on FortiNAC
- C. Two-factor authentication on FortiAuthenticator
- D. FSSO authentication on FortiGate

Answer: A,C

NEW QUESTION # 64
Refer to the exhibit.
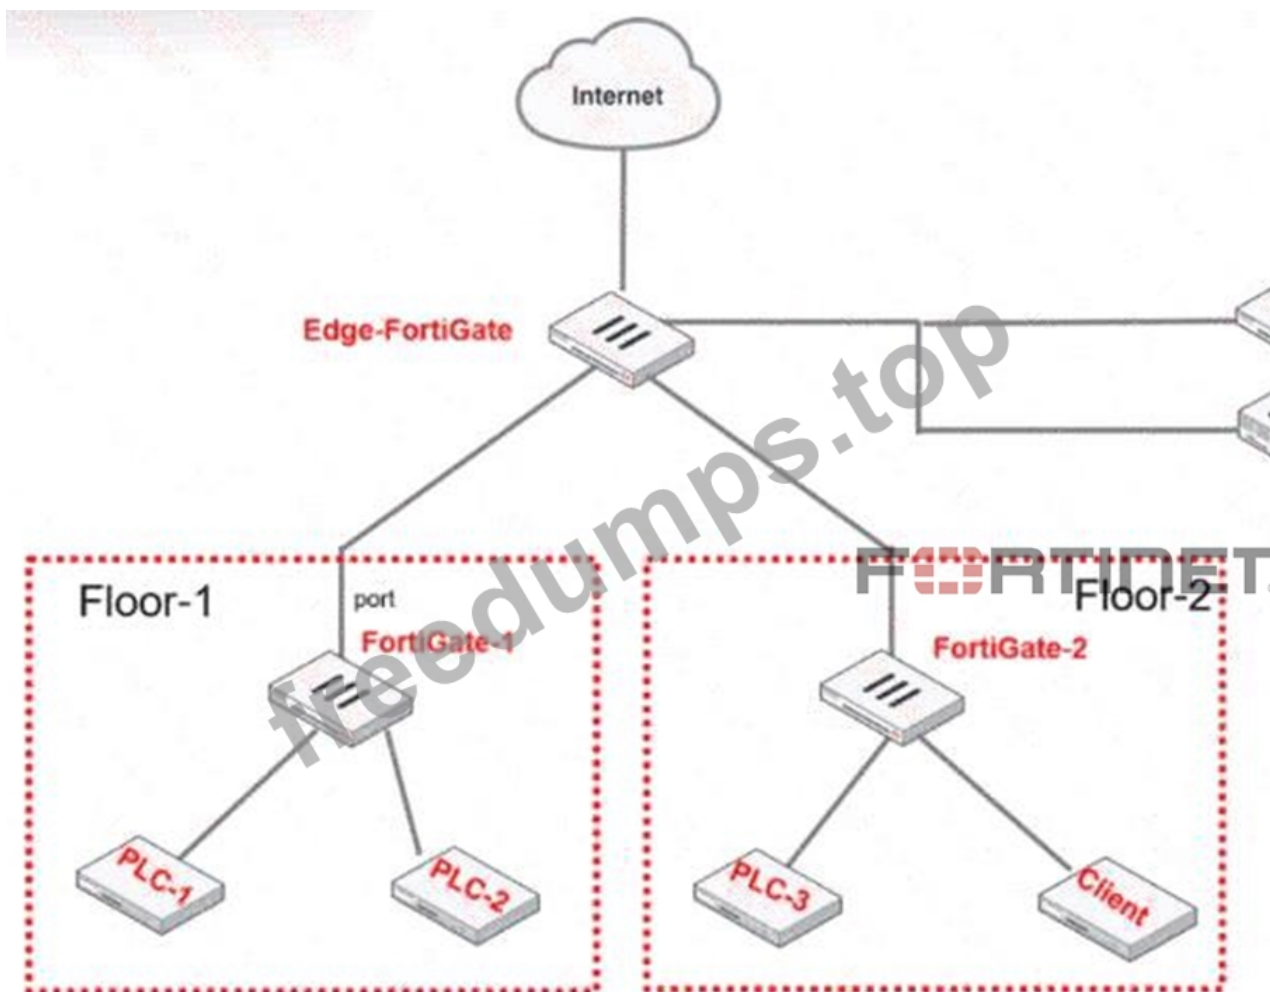

PLC-3 and CLIENT can send traffic to PLC-1 and PLC-2. FGT-2 has only one software switch (SSW-1) connecting both PLC-3 and CLIENT. PLC-3 and CLIENT can send traffic to each other at the Layer 2 level.

What must the OT admin do to prevent Layer 2-level communication between PLC-3 and CLIENT?

- A. Enable explicit intra-switch policy to require firewall policies on FGT-2.
- B. Set a unique forward domain for each interface of the software switch.
- C. Create a VLAN for each device and replace the current FGT-2 software switch members.
- D. Implement policy routes on FGT-2 to control traffic between devices.

Answer: B,C

NEW QUESTION # 65

An OT supervisor has configured LDAP and FSSO for the authentication. The goal is that all the users be authenticated against passive authentication first and, if passive authentication is not successful, then users should be challenged with active authentication.

What should the OT supervisor do to achieve this on FortiGate?

- A. Configure a firewall policy with LDAP users and place it on the top of list of firewall policies.
- B. Under config user settings configure set auth-on-demand implicit.
- C. Configure a firewall policy with FSSO users and place it on the top of list of firewall policies.
- D. Enable two-factor authentication with FSSO.

Answer: C

Explanation:

The OT supervisor should configure a firewall policy with FSSO users and place it on the top of list of firewall policies in order to achieve the goal of authenticating users against passive authentication first and, if passive authentication is not successful, then challenging them with active authentication.

NEW QUESTION # 66

What two advantages does FortiNAC provide in the OT network? (Choose two.)

- A. It can be used for device profiling.
- B. It can be used for network micro-segmentation.
- C. It can be used for IoT device detection.
- D. It can be used for industrial intrusion detection and prevention.

Answer: A,C

Explanation:
Explanation
Typically, in a microsegmented network, NGFWs are used in conjunction with VLANs to implement security policies and to inspect and filter network communications. Fortinet FortiSwitch and FortiGate NGFW offer an integrated approach to microsegmentation.

NEW QUESTION # 67

An OT network architect needs to secure control area zones with a single network access policy to provision devices to any number of different networks.
On which device can this be accomplished?

- A. FortiNAC
- B. FortiSwitch
- C. FortiGate
- D. FortiEDR

Answer: A

NEW QUESTION # 68
