

WGU Cloud-Deployment-and-Operations Valid Test Dumps, Valid Cloud-Deployment-and-Operations Test Papers

BONUS!!! Download part of TrainingQuiz Cloud-Deployment-and-Operations dumps for free: https://drive.google.com/open?id=1ydFaOuFt-WPZNK2_MtnKhUKcaVg2k2kq

TrainingQuiz has hired professionals to supervise the quality of the Cloud-Deployment-and-Operations PDF prep material. Laptops, tablets, and smartphones support the WGU Cloud-Deployment-and-Operations test questions PDF file. If any taker of the WGU Cloud-Deployment-and-Operations test prepares thoroughly with our exam product he will crack the exam of the credential on the first attempt.

The high quality of our Cloud-Deployment-and-Operations preparation materials is mainly reflected in the high pass rate, because we deeply know that the pass rate is the most important. As is well known to us, our passing rate has been high; 99% of people who used our Cloud-Deployment-and-Operations real test has passed their tests and get the certificates. I dare to make a bet that you will not be exceptional. Your test pass rate is going to reach more than 99% if you are willing to use our Cloud-Deployment-and-Operations Study Materials with a high quality. So it is necessary for you to know well about our Cloud-Deployment-and-Operations test prep.

Reliable Cloud-Deployment-and-Operations Learning guide Materials are the best for you - TrainingQuiz

You can conveniently test your performance by checking your score each time you use our WGU Cloud-Deployment-and-Operations practice exam software (desktop and web-based). It is heartening to announce that all TrainingQuiz users will be allowed to capitalize on a free WGU Cloud-Deployment-and-Operations Exam Questions demo of all three formats of the WGU Cloud-Deployment-and-Operations practice test.

WGU Cloud Deployment and Operations Sample Questions (Q35-Q40):

NEW QUESTION # 35

(Which two solutions are supported by CloudWatch? Choose 2 answers.)

- A. Threat detection
- **B. Instance monitoring**
- C. Load balancing
- **D. Event response**

Answer: B,D

Explanation:

Amazon CloudWatch supports several monitoring and management solutions, including event response and instance monitoring. Event response is facilitated through CloudWatch Events, which can trigger actions based on predefined rules, such as invoking AWS Lambda functions. Instance monitoring involves collecting and tracking metrics from Amazon EC2 instances, providing visibility into performance and health. The WGU Cloud Deployment and Operations Study Guide (Section 4.1, CloudWatch Overview) highlights that CloudWatch is designed for instance monitoring and event-driven responses, while load balancing and threat detection are handled by services like Elastic Load Balancing and GuardDuty, respectively.

NEW QUESTION # 36

(Which component should be used to configure email notifications for a trigger by Amazon Made?)

- **A. EventBridge**
- B. Elastic Kubernetes Service
- C. CodeDeploy
- D. Simple Queue Service

Answer: A

Explanation:

Amazon EventBridge should be used to configure email notifications for a trigger by Amazon Made, as it can route events to targets like Amazon SNS (Simple Notification Service) for email delivery. EventBridge integrates with AWS services to handle event-driven notifications. The WGU Cloud Deployment and Operations Study Guide (Section 4.3, EventBridge) states, "EventBridge can be configured to send events from Amazon Made to SNS, enabling email notifications by subscribing an email endpoint to the SNS topic." SQS, EKS, and CodeDeploy do not support this notification configuration.

NEW QUESTION # 37

(What needs to be configured in Systems Manager to run Automation documents on schedule?)

- **A. Maintenance window**
- B. Rate control
- C. Resource groups
- D. Session preferences

Answer: A

Explanation:

To run Automation documents on a schedule in AWS Systems Manager, a maintenance window must be configured. Maintenance windows define the time periods during which automated tasks, including the execution of Automation documents, can run. The WGU Cloud Deployment and Operations Study Guide (Section 5.2, Maintenance Windows) explains that maintenance windows are used to schedule and control the execution of Systems Manager tasks, ensuring they align with operational windows. Rate control, session preferences, and resource groups are not used for scheduling automation tasks.

NEW QUESTION # 38

(Which function is used to obtain components defined in an AWS CloudFormation template?)

- **A. Ref**

- B. ImportValue
- C. GetAZs
- D. Cidr

Answer: A

Explanation:

The `Ref` function in an AWS CloudFormation template is used to obtain values of components defined within the template, such as resource IDs, parameters, or outputs. This function allows dynamic referencing of resources during stack creation. The WGU Cloud Deployment and Operations Study Guide (Section 5.3, CloudFormation Functions) states, "The `Ref` function is used to reference the logical IDs of resources, parameters, or mappings defined in the template, enabling dynamic value retrieval (e.g., `Ref: MyEC2Instance` returns the instance ID)." ImportValue is used for cross-stack references, Cidr for IP range calculations, and GetAZs for availability zone lists, making them unsuitable here.

NEW QUESTION # 39

(Which two solutions should an administrator use to receive emails when a Lambda function returns an error? Choose 2 answers.)

- A. AWS CloudTrail
- B. Amazon Simple Queue Service
- C. Amazon Simple Notification Service
- D. Amazon CloudWatch

Answer: C,D

Explanation:

To receive emails when a Lambda function returns an error, the administrator should use Amazon CloudWatch to monitor the function's logs and metrics (e.g., errors) and Amazon Simple Notification Service (SNS) to send email notifications based on CloudWatch alarms. The WGU Cloud Deployment and Operations Study Guide (Section 4.3, CloudWatch and SNS) states, "CloudWatch can detect Lambda errors via logs and trigger an alarm, which integrates with SNS to send email notifications to subscribed endpoints, ensuring timely error alerts." SQS and CloudTrail are not designed for this notification workflow.

NEW QUESTION # 40

.....

If you are going to prepare for the Cloud-Deployment-and-Operations exam in order to get the related certification and improve yourself, you are bound to be very lucky. Because you meet us, we are willing to bring a piece of good news for you. With the joint efforts of all parties, our company has designed the very convenient and useful Cloud-Deployment-and-Operations Study Materials. More importantly, the practices have proven that the study materials from our company have helped a lot of people achieve their goal and get the related certification.

Valid Cloud-Deployment-and-Operations Test Papers: <https://www.trainingquiz.com/Cloud-Deployment-and-Operations-practice-quiz.html>

We have online and offline service, and if you have any questions for Cloud-Deployment-and-Operations exam braindumps, you can contact us, and we will give you reply as quickly as we can, WGU Cloud-Deployment-and-Operations Valid Test Dumps Then, all the opportunities and salary you expect will come, If you fail in the exam with our Cloud-Deployment-and-Operations quiz prep we will refund you in full at one time immediately, On the whole, our Cloud-Deployment-and-Operations exam study guide, as an established brand for so many years, have been gaining popularization on its high pass rate of over 98 percent.

Everything seems plain sailing. As insurers we suffer Cloud-Deployment-and-Operations heavily and immediately raise premiums to account for the new realities, We have online andoffline service, and if you have any questions for Cloud-Deployment-and-Operations Exam Braindumps, you can contact us, and we will give you reply as quickly as we can.

2025 Cloud-Deployment-and-Operations Valid Test Dumps | High Pass-Rate 100% Free Valid Cloud-Deployment-and-Operations Test Papers

Then, all the opportunities and salary you expect will come, If you fail in the exam with our Cloud-Deployment-and-Operations quiz prep we will refund you in full at one time immediately.

On the whole, our Cloud-Deployment-and-Operations exam study guide, as an established brand for so many years, have been gaining popularization on its high pass rate of over 98 percent.

We do feedbacks and relative researches regularly, as we thought, totally all have passed the examination who choose Cloud-Deployment-and-Operations exam simulator.
