

WGU Digital-Forensics-in-Cybersecurity Vce Test Simulator & Digital-Forensics-in-Cybersecurity Free Pdf Guide

WGU C840 Digital Forensics in Cybersecurity Pre-Assessment

The chief information officer of an accounting firm believes sensitive data is being exposed on the local network.

Which tool should the IT staff use to gather digital evidence about this security vulnerability? -

✓✓Sniffer

A police detective investigating a threat traces the source to a house. The couple at the house shows the detective the only computer the family owns, which is in their son's bedroom. The couple states that their son is presently in class at a local middle school.

How should the detective legally gain access to the computer? - ✓✓Obtain consent to search from the parents

How should a forensic scientist obtain the network configuration from a Windows PC before seizing it from a crime scene? - ✓✓By using the ipconfig command from a command prompt on the computer

The human resources manager of a small accounting firm believes he may have been a victim of a phishing scam. The manager clicked on a link in an email message that asked him to verify the login credentials for the firm's online bank account.

2025 Latest RealVCE Digital-Forensics-in-Cybersecurity PDF Dumps and Digital-Forensics-in-Cybersecurity Exam Engine Free Share: https://drive.google.com/open?id=1_5zEtCdrpSQdJ3KZXI1QDOO0Qb34klmq

If you want to get a good job, and if you are not satisfied with your present situation, if you long to have a higher station in life. We think it is high time for you to try your best to gain the Digital-Forensics-in-Cybersecurity certification. You do not need to think it is too late for you to study. As the saying goes, success and opportunity are only given to those people who are well-prepared! If you really long to own the Digital-Forensics-in-Cybersecurity Certification, it is necessary for you to act now. We are willing to help you gain the Digital-Forensics-in-Cybersecurity certification.

This updated WGU Digital-Forensics-in-Cybersecurity exam study material of RealVCE consists of these 3 formats: WGU Digital-Forensics-in-Cybersecurity PDF, desktop practice test software, and web-based practice exam. Each format of RealVCE aids a specific preparation style and offers unique advantages, each of which is beneficial for strong Digital Forensics in Cybersecurity (D431/C840) Course Exam (Digital-Forensics-in-Cybersecurity) exam preparation. The features of our three formats are listed below. You can choose any format as per your practice needs.

WGU Digital-Forensics-in-Cybersecurity Free Pdf Guide | Digital-Forensics-in-Cybersecurity Reliable Test Voucher

Digital Forensics in Cybersecurity (D431/C840) Course Exam (Digital-Forensics-in-Cybersecurity) PDF dumps are compatible with smartphones, laptops, and tablets. If you don't have time to sit in front of your computer all day but still want to get into some Digital Forensics in Cybersecurity (D431/C840) Course Exam (Digital-Forensics-in-Cybersecurity) exam questions, Digital-Forensics-in-Cybersecurity Pdf Format is for you. The Digital Forensics in Cybersecurity (D431/C840) Course Exam (Digital-Forensics-in-Cybersecurity) PDF dumps are also available for candidates to print out the Digital Forensics in Cybersecurity (D431/C840) Course Exam (Digital-Forensics-in-Cybersecurity) exam questions at any time.

WGU Digital Forensics in Cybersecurity (D431/C840) Course Exam Sample Questions (Q63-Q68):

NEW QUESTION # 63

Tom saved a message using the least significant bit (LSB) method in a sound file and uploaded this sound to his own website. What is the carrier in this example?

- A. The message
- B. Tom's website
- **C. The sound file**
- D. The least significant bit method

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In steganography, the carrier is the file or medium used to hide the secret message. In this example, the sound file is the carrier because it contains the hidden message embedded using the least significant bit method. The message is the payload, and the website is merely the distribution platform.

* LSB is the embedding technique, not the carrier.

* The message is the payload, not the carrier.

* The website is not involved in data hiding.

NIST and steganography references clearly define the carrier as the container holding the hidden data.

NEW QUESTION # 64

How is the Windows swap file, also known as page file, used?

- **A. Augments the RAM**
- B. Reserved for system files
- C. Primarily for security
- D. Replaces bad sectors

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

The Windows swap file, or page file, is a system file used to extend physical memory by storing data that cannot fit into the RAM. When RAM is full, the OS swaps inactive data pages to this file, thus augmenting RAM capacity.

* It does not replace bad sectors; that function is for disk management utilities.

* It is not primarily for security but for memory management.

* It is not reserved exclusively for system files but is used dynamically for memory paging.

Reference: Microsoft's official documentation and forensic guides like NIST SP 800-86 describe the page file's role in virtual memory management and its importance in forensic analysis because it may contain fragments of memory and sensitive information.

NEW QUESTION # 65

Which operating system (OS) uses the NTFS (New Technology File System) file operating system?

- **A. Windows 8**

- B. Linux
- C. Mac OS X v10.4
- D. Mac OS X v10.5

Answer: A

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

NTFS is the primary file system used by Microsoft Windows operating systems starting from Windows NT and continuing through modern versions including Windows 8. NTFS supports advanced features like file permissions, encryption, and journaling, which are critical for modern OS file management.

* Linux typically uses ext3, ext4, or other native file systems, not NTFS as a primary system.

* Mac OS X v10.4 and v10.5 use HFS+ as the native file system, not NTFS.

* Windows 8 uses NTFS as its default file system.

This is documented in official Microsoft and NIST digital forensics resources.

NEW QUESTION # 66

A police detective investigating a threat traces the source to a house. The couple at the house shows the detective the only computer the family owns, which is in their son's bedroom. The couple states that their son is presently in class at a local middle school.

How should the detective legally gain access to the computer?

- A. Get a warrant without consent
- **B. Obtain consent to search from the parents**
- C. Wait for the son to return and ask for consent
- D. Search immediately without consent due to emergency

Answer: B

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

To legally search the computer located in the home, the detective must obtain consent from someone with authority over the premises - in this case, the parents. Parental consent is generally sufficient for searches within their household unless other legal considerations apply. This ensures compliance with constitutional protections against unlawful searches.

* Obtaining valid consent is a fundamental requirement under the Fourth Amendment for legal search and seizure.

* Forensic investigators must avoid searches without proper consent or a warrant to maintain admissibility of evidence.

Reference:NIST SP 800-101 and standard forensic ethics protocols emphasize obtaining lawful consent or warrants prior to accessing digital evidence.

NEW QUESTION # 67

A USB flash drive was seized as evidence to be entered into a trial.

Which type of evidence is this USB flash drive?

- A. Testimonial
- B. Documentary
- C. Demonstrative
- **D. Real**

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

Real evidence (also called physical evidence) refers to tangible objects that are involved in the crime or relevant to the investigation.

A USB flash drive is physical evidence because it is an actual device containing potentially relevant digital data.

* Documentary evidence refers to written or recorded information, not physical devices.

* Demonstrative evidence is used to illustrate or clarify facts (e.g., models, charts).

* Testimonial evidence is oral or written statements provided by witnesses.

Reference:Digital forensics principles and legal evidentiary classifications (as outlined by NIST and court- admissibility guidelines) clearly categorize physical devices like USB drives as real evidence.

NEW QUESTION # 68

.....

RealVCE is professional and is built for nearly all IT certification examinations. It not only ensures the quality, best service, but also the cheap price. Having RealVCE, you will not worry about Digital-Forensics-in-Cybersecurity certification exams and answers. Moreover, RealVCE can provide Digital-Forensics-in-Cybersecurity Latest Dumps demo and Digital-Forensics-in-Cybersecurity study guide for you, which will help you pass Digital-Forensics-in-Cybersecurity exam in a short time and let you be close to your dream to become an elite.

Digital-Forensics-in-Cybersecurity Free Pdf Guide: https://www.realvce.com/Digital-Forensics-in-Cybersecurity_free-dumps.html

WGU Digital-Forensics-in-Cybersecurity Vce Test Simulator What you need to do is send your score report to our support, we will refund after confirmation, Moreover, Digital-Forensics-in-Cybersecurity Free Pdf Guide Digital-Forensics-in-Cybersecurity Free Pdf Guide - Digital Forensics in Cybersecurity (D431/C840) Course Exam on-line practice engine can be installed on any electronic device without any limit, WGU Digital-Forensics-in-Cybersecurity Vce Test Simulator Untenable materials may waste your time and energy during preparation process, Our Digital-Forensics-in-Cybersecurity exam prep materials cover nearly 85% or above of real test questions materials so that if you master our Digital-Forensics-in-Cybersecurity test questions and answers you can clear exams successfully.

Getting Started with Pages" covers how to install and run the Pages app Digital-Forensics-in-Cybersecurity Reliable Test Voucher on an iPad, as well as how to integrate iCloud with Pages, install an external keyboard, and use pages on a Mac or PC with an iCloud account.

2025 WGU Digital-Forensics-in-Cybersecurity: First-grade Digital Forensics in Cybersecurity (D431/C840) Course Exam Vce Test Simulator

So let's just participate in the inspection and see if they Digital-Forensics-in-Cybersecurity find it, What you need to do is send your score report to our support, we will refund after confirmation.

Moreover, Courses and Certificates Digital Forensics in Cybersecurity (D431/C840) Course Exam on-line practice engine can be installed Digital-Forensics-in-Cybersecurity Reliable Test Voucher on any electronic device without any limit, Untenable materials may waste your time and energy during preparation process.

Our Digital-Forensics-in-Cybersecurity exam prep materials cover nearly 85% or above of real test questions materials so that if you master our Digital-Forensics-in-Cybersecurity test questions and answers you can clear exams successfully.
