- * Base salary
- * Monthly commission earnings
- * Quarterly bonus plan

How should they configure this compensation basis?

- A. Define a new compensation grade and assign the relevant compensation plans.
- B. Use the total salary and allowances compensation basis and add the bonus plan.
- C. Create a calculation compensation basis, including salary, commission, and bonus plan.
- **D. Create a configurable compensation basis, including salary, commission, and bonus plan.**

Answer: D

Explanation:

- * A configurable compensation basis allows you to define what plans contribute to compensation calculations.
- * For the sales team, the basis should include:
 - * Base salary (salary plan).
 - * Monthly commission earnings (commission plan).
 - * Quarterly bonus plan (bonus plan).
- * Configurable compensation bases are designed for flexible aggregation of multiple comp plans.

Why not the others?

* B. Total salary and allowances basis# Covers only salary + allowance, does not include bonus /commission.

* C. Compensation grade# Defines ranges, not aggregation of comp plans.

* D. Calculation compensation basis# Not a Workday configuration type (confusion with calculated fields).

- A. You can view the eligible plans when proposing compensation using the By Compensation Package and Rule or By Compensation Rule options.
- B. Every employee who hires into that position receives the same compensation values.
- C. Default compensation enables the establishment of compensation guidelines, plans, and plan amounts on a position.
- **D. Every applicant hired using the same job requisition receives consistent compensation values.**

Answer: D

* Default compensation for requisition compensation ensures that all hires from a requisition default to the same plan amounts/rates, supporting consistency in offers.

* This prevents discrepancies between candidates applying for the same role and requisition.

Why not the others?

- * A. Guidelines on a position# Position compensation is separate from requisition compensation.
- * C. Every employee in position receives same compensation# Controlled by position defaults, not requisition.

NEW QUESTION # 44

Refer to the following scenario to answer the question below.

A company has several configurable compensation bases established in their system:

* Total Cost (India): Qualifies Indian employees and includes all salary plans, period salary plans, allowance plans, bonus plans, and retirement savings plans; only 50% of their total compensation can be used toward their salary plan.

* Total Compensation Non-Sales: Qualifies all full-time employees not in sales and includes all salary plans, allowance plans, bonus plans, and calculated plans.

* Total Compensation Sales: Qualifies all full-time sales employees and includes all salary plans, allowance plans, and commission plans.

* Total Pay (Mexico): Qualifies Mexican employees and includes all salary plans, period salary plans, and allowance plans.

* Salary and Seniority: Qualifies all employees and includes all salary plans and the specific seniority calculated plan.

The configurable compensation bases have the following ranking:

* 10 Total Cost (India)

* 20 Total Compensation Non Sales

* 30 Total Compensation Sales

* 40 Total Pay (Mexico)

* Salary and Seniority is unranked

You must ensure Indian employees keep their salary plans at 50% of their total amount. What should you configure on the Total Cost (India) Compensation Basis?

- A. Only include compensation plans. Remove retirement plans.
- B. Create and assign a fixed compensation basis.
- C. Select the Manage Basis Total checkbox and enter a salary plans maximum of 50.
- D. Move the compensation basis ranking to 50.

Answer: C

Explanation:

* For Total Cost (India), the requirement is that only 50% of total comp should be allocated towards salary plans.

* This is achieved by using the Manage Basis Total option, where you can set maximum percentages for specific plan types (e.g., Salary = 50%).

* This ensures salary stays capped at half of total, regardless of other components.

Why not the others?

* A. Fixed compensation basis# Doesn't handle percentage capping.

* B. Remove retirement plans# Irrelevant; retirement can stay, the key is controlling salary %.

* D. Change ranking to 50# Ranking only determines basis priority, not limits.

#Final Verified answer: C. Manage Basis Total with 50% salary maximum.
