Workday-Prism-Analytics Questions Pdf, Workday-Prism-Analytics Latest Training

P.S. Free 2025 Workday Workday-Prism-Analytics dumps are available on Google Drive shared by ITCertMagic: https://drive.google.com/open?id=1g_yNNK1xPoHoMNsXMFpo9I51jo26K8jm

Don't underestimate the difficulty level of the Workday Workday-Prism-Analytics certification exam because it is not easy to clear. You need to prepare real Workday-Prism-Analytics exam questions to get success. If you do not prepare with actual Workday-Prism-Analytics Questions, there are chances that you may fail the final and not get the Workday-Prism-Analytics certification.

Our company is a professional certification exam materials provider, we have occupied in the field for years, and therefore we have abundant experiences. In addition, Workday-Prism-Analytics exam torrent is high quality and accuracy, for a professional team are collecting and researching the latest information for the exam. We also pass guarantee and money back guarantee for Workday-Prism-Analytics Exam Materials, if you fail to pass the exam, we will give you full refund, and the money will be returned to your payment account. We have online and offline service, and if you have any questions for Workday-Prism-Analytics exam braindumps, you can consult us.

>> **Workday-Prism-Analytics Questions Pdf** <<

Workday-Prism-Analytics Questions Pdf 100% Pass | High-quality Workday Workday Pro Prism Analytics Exam Latest Training Pass for sure

Passing the exam rests squarely on the knowledge of exam questions and exam skills. Our Workday-Prism-Analytics training quiz has bountiful content that can fulfill your aims at the same time. We know high efficient Workday-Prism-Analytics practice materials

play crucial roles in your review. Our experts also collect with the newest contents and have been researching where the exam trend is heading and what it really want to examine you. By analyzing the syllabus and new trend, our Workday-Prism-Analytics Practice Engine is totally in line with this exam for your reference. So grapple with this chance, our Workday-Prism-Analytics practice materials will not let you down.

Workday Pro Prism Analytics Exam Sample Questions (Q30-Q35):

NEW QUESTION # 30
A Prism data writer has to create an intermediary Prism calculated field A, used only to achieve a final result in Prism calculated field B and they only need to publish out field B. What should they do?

- A. Delete field A from their DDS and just leave field B.
- B. Mark field A as intermediate calculation.
- C. Add a Manage Fields stage to the DDS and hide field B.
- D. Add a Manage Fields stage to the DDS and hide field A.

Answer: D

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
In Workday Prism Analytics, when a data writer creates an intermediary calculated field (e.g., field A) solely to derive a final calculated field (e.g., field B) in a Derived Dataset (DDS), they may want to exclude the intermediary field from the published output to keep the dataset clean and focused. According to the official Workday Prism Analytics study path documents, the recommended approach is to add a Manage Fields stage to the DDS and hide field A. The Manage Fields stage allows users to control the visibility of fields in the dataset, enabling them to hide fields that are not needed in the final output while retaining their calculations for internal use within the dataset's transformation logic. By hiding field A, field B can still leverage field A's calculations, and only field B will be visible in the published dataset or data source.
The other options are not suitable:
A: Mark field A as intermediate calculation: There is no specific feature in Prism Analytics to "mark" a field as an intermediate calculation; this is not a supported action.
C: Add a Manage Fields stage to the DDS and hide field B: Hiding field B would defeat the purpose, as field B is the intended output to be published.
D: Delete field A from their DDS and just leave field B: Deleting field A would break the calculation of field B, as field B depends on field A, making this option infeasible.
Using the Manage Fields stage to hide field A ensures that the dataset remains functional while presenting only the necessary fields in the final output, aligning with best practices for data transformation and publishing.

NEW QUESTION # 31
The final derived dataset in a Prism pipeline is complete and ready to publish. What should be done prior to publishing?

- A. Add a Group By stage to the final derived dataset to add summary calculations.
- B. Create a table without the Enable for Analysis checkbox selected.
- C. Edit the Dataset API Name to reflect in the name of the Prism data source.
- D. Create a derived dataset with the PDS suffix.

Answer: C

Explanation:
Comprehensive and Detailed Explanation From Exact Extract:
In Workday Prism Analytics, before publishing a derived dataset as a Prism data source (PDS), it's important to ensure that the dataset is properly configured for downstream use. According to the official Workday Prism Analytics study path documents, one key step to take prior to publishing is to edit the Dataset API Name to reflect in the name of the Prism data source (option D). The Dataset API Name determines the name of the published Prism data source, which is used in reporting, discovery boards, and integrations. Setting a meaningful and descriptive API name (e.g., "Expense_Reports_by_Location") ensures that the data source is easily identifiable and aligns with naming conventions, improving usability and manageability in the Workday ecosystem. This step is a best practice to avoid confusion and ensure clarity for report writers and analysts.

The other options are not required or relevant:

* A. Add a Group By stage to the final derived dataset to add summary calculations: Adding a Group By stage is not mandatory unless the use case specifically requires summarizations, which is not indicated here.

* B. Create a table without the Enable for Analysis checkbox selected: Creating a new table is unnecessary, as the dataset is already complete, and the "Enable for Analysis" checkbox is relevant for real-time updates, not a requirement for publishing a derived dataset.

* C. Create a derived dataset with the PDS suffix: Creating a new dataset is not needed, as the final derived dataset is already prepared, and adding a "PDS" suffix is not a required step for publishing.

Editing the Dataset API Name ensures the Prism data source has a clear and meaningful name, facilitating its use in reporting and analytics.

NEW QUESTION # 32

You want to remove data within a Prism data source without deleting any dependent custom reports. What task can you use to do this?

- A. Delete Dataset
- B. Inactivate Dataset
- C. Unpublish Dataset
- D. Delete Published Rows

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, removing data from a Prism data source (PDS) without affecting dependent custom reports requires a careful approach to preserve the data source's structure and dependencies.

According to the official Workday Prism Analytics study path documents, the task to use is Delete Published Rows (option D). This task removes the data rows within the Prism data source while keeping the data source' s metadata (e.g., field definitions) and structure intact. Since custom reports depend on the data source's structure rather than the specific data rows, deleting the published rows will not break the reports. After deleting the rows, you can republish the dataset with updated data, and the reports will continue to function with the new data, assuming the structure remains unchanged.

The other options are incorrect:

* A. Inactivate Dataset: Inactivating a dataset disables it but does not remove data from the published data source, and it may still affect reports by making the data source inaccessible.

* B. Delete Dataset: Deleting the dataset entirely will also delete the Prism data source, breaking any dependent custom reports.

* C. Unpublish Dataset: Unpublishing the dataset removes the Prism data source, which will break dependent reports until the dataset is republished.

The Delete Published Rows task ensures that data is removed from the Prism data source without impacting the dependent custom reports, allowing for seamless data updates.

NEW QUESTION # 33

You have a number of Workday reports that use a Prism data source. When are the values of the Prism calculated fields in the Workday reports calculated?

- A. At report run time.
- B. At dataset creation time.
- C. At the calculated field creation time.
- D. At time of publishing.

Answer: D

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, calculated fields in a dataset are evaluated as part of the dataset's processing logic, and their values are materialized when the dataset is published as a Prism data source. According to the official Workday Prism Analytics study path documents, the values of Prism calculated fields are calculated at the time of publishing (option D). When a dataset is published, Prism processes all transformation stages, including calculated fields, and the resulting values are stored in the published data source. Workday reports that use this Prism data source then retrieve these pre-calculated values, ensuring consistent and efficient reporting without recalculating the fields at report run time.

The other options are incorrect:

* A. At report run time: Calculated field values are not computed when the Workday report is run; they are pre-calculated and stored in the Prism data source during publishing.

* B. At dataset creation time: Dataset creation involves defining the transformation logic, but the actual computation of calculated fields occurs during publishing, not at creation.

* C. At the calculated field creation time: Creating a calculated field defines its expression, but the values are not computed until the dataset is processed during publishing.

The calculation of Prism calculated fields at the time of publishing ensures that Workday reports can efficiently access the results without additional computation overhead.

NEW QUESTION # 34

A custom report uses your recently published Prism data source, but you noticed a minor error in the published data. You need to delete the published rows to fix it. What happens to your custom report?

- A. The report definition will need to be manually recreated.
- B. The report definition will need to be edited to reflect changes.
- C. The report definition remains intact and will work after republishing.
- D. The report definition will be copied and a new version will appear after republishing.

Answer: C

Explanation:

Comprehensive and Detailed Explanation From Exact Extract:

In Workday Prism Analytics, deleting published rows from a Prism data source (PDS) is a step taken to correct errors in the published data, often followed by republishing the dataset with corrected data. According to the official Workday Prism Analytics study path documents, when you delete the published rows, the report definition remains intact and will work after republishing (option A). The custom report's definition, which is based on the Prism data source, is not affected by the deletion of published rows because the report definition references the data source's structure (e.g., fields and metadata), not the specific data rows. Once the dataset is republished with the corrected data, the report will automatically reflect the updated data without requiring any changes to the report definition, assuming the structure of the data source remains the same.

The other options are incorrect:

* B. The report definition will need to be manually recreated: The report definition is not deleted or invalidated by deleting published rows, so recreation is not necessary.

* C. The report definition will be copied and a new version will appear after republishing: Workday does not automatically copy or version report definitions when a data source is republished.

* D. The report definition will need to be edited to reflect changes: No edits are required unless the structure of the data source (e.g., field names or types) changes, which is not indicated in this scenario.

The report definition's integrity is maintained, and it will function as expected after republishing the corrected data.

NEW QUESTION # 35

......

The Workday sector is an ever-evolving and rapidly growing industry that is crucial in shaping our lives today. With the growing demand for skilled Workday professionals, obtaining Workday Pro Prism Analytics Exam (Workday-Prism-Analytics) certification exam has become increasingly important for those who are looking to advance their careers and stay competitive in the job market. Individuals who hold Workday Pro Prism Analytics Exam (Workday-Prism-Analytics) certification exam demonstrate to their employers and clients that they have the knowledge and skills necessary to succeed in the Workday-Prism-Analytics exam.

Workday-Prism-Analytics Latest Training: https://www.itcertmagic.com/Workday/real-Workday-Prism-Analytics-exam-prep-dumps.html

If you unfortunately fail in the exam with our Workday-Prism-Analytics valid study material, we promise to give you a full refund, Our Workday-Prism-Analytics dump collection files are inexpensive in price but outstanding in quality to help you stand out among the average with the passing rate up to 95 to100 percent, The Workday-Prism-Analytics exam prep we provide can help you realize your dream to pass exam and then own a Workday-Prism-Analytics exam torrent, Our team of experts has designed a Workday Pro Prism Analytics Exam (Workday-Prism-Analytics) exam study material that has already helped thousands of students just like you achieve their goals.

The candidates taking the Workday Pro Prism Analytics Exam exam can try a free demo and test features of Workday Workday-Prism-Analytics exam questions before purchasing it, B's server process receives the packet and builds a packet to reply to it.

Pass Guaranteed Quiz First-grade Workday - Workday-Prism-Analytics - Workday Pro Prism Analytics Exam Questions Pdf

If you unfortunately fail in the exam with our Workday-Prism-Analytics valid study material, we promise to give you a full refund, Our Workday-Prism-Analytics dump collection files are inexpensive in price but outstanding Workday-Prism-Analytics in quality to help you stand out among the average with the passing rate up to 95 to100 percent.

The Workday-Prism-Analytics exam prep we provide can help you realize your dream to pass exam and then own a Workday-Prism-Analytics exam torrent, Our team of experts has designed a Workday Pro Prism Analytics Exam (Workday-Prism-Analytics) exam study material that has already helped thousands of students just like you achieve their goals.
