New XK0-006 Test Answers - XK0-006 Exam Experience

Our XK0-006 practice materials are your optimum choices which contain essential know-hows for your information. If you really want to get the certificate successfully, only XK0-006 practice materials with intrinsic contents can offer help they are preeminent materials can satisfy your both needs of studying or passing with efficiency. You may strand on some issues at sometimes, all confusions will be answered by their bountiful contents. Wrong choices may engender wrong feed-backs, we are sure you will come a long way by our XK0-006 practice material.

CompTIA Linux+ Certification Exam Sample Questions (Q14-Q19):

NEW QUESTION # 14

A systems administrator manages multiple Linux servers and needs to set up a reliable and secure way to handle the complexity of managing event records on the OS and application levels.

Which of the following should the administrator do?

- A. Configure daily automatic backups of logs to remote storage.

- B. Create an automated process to retrieve logs from the server by demand.
- C. Deploy log rotation procedures to manage the records.
- **D. Implement a centralized log aggregation solution.**

Answer: D

Explanation:

A centralized log aggregation solution (such as Elasticsearch, Graylog, or Splunk) provides reliable and secure management of logs across multiple servers. It consolidates OS and application logs, simplifies analysis, and improves monitoring and security compared to on-demand retrieval, backups, or simple log rotation.

NEW QUESTION # 15

A newly hired Linux administrator needs to grant access to the Linux servers by generating a password-protected RSA key of 4096 bytes. Which of the following commands will accomplish this task?

- A. `ssh-keygen -RPb 4096`
- B. `ssh-keygen -t dsa -B 4096`
- **C. `ssh-keygen -t rsa -b 4096`**
- D. `ssh-keygen -k rsa -l 4096 -p`

Answer: C

Explanation:

The `ssh-keygen` command is used to generate SSH key pairs. To generate an RSA key with a length of 4096 bits, the correct syntax is:

1. `-t rsa`: Specifies the type of key to generate, which is RSA.
2. `-b 4096`: Specifies the number of bits for the key, in this case 4096.

By running this command, the user will be prompted to enter a passphrase to password-protect the key, which satisfies the requirement for generating a password-protected RSA key of 4096 bits.

NEW QUESTION # 16

In the `echo "profile-$num-$name"` line of a shell script, the variable `$num` seems to not be expanding during execution. Which of the following notations ensures the value is expanded?

- **A. `echo "profile-${num}-${name}"`**
- B. `echo "profile-$(num)-$name"`
- C. `echo 'profile-$num-$name'`
- D. `echo "profile-'$num'-$name"`

Answer: A

Explanation:

Using `${num}` ensures correct variable expansion, especially when variables are adjacent to other characters or hyphens. This prevents ambiguity and guarantees `$num` is properly expanded within the string.

NEW QUESTION # 17

Which of the following Ansible components contains a list of hosts and host groups?

- A. Collection
- **B. Inventory**
- C. Fact
- D. Playbook

Answer: B

Explanation:

In Ansible, the inventory defines the list of managed nodes (hosts) and groups of hosts. It is the source from which Ansible knows what systems to configure or manage.

NEW QUESTION # 18

A systems administrator needs to check the statuses of all the services on a Linux server. Which of the following commands accomplishes this task?

- A. `systemctl is-active --services`
- B. `systemctl list-sockets --type=services`
- C. `systemctl list-units --type=services`
- D. `systemctl is-enabled --services`

Answer: C

Explanation:

The `systemctl list-units --type=service` command displays all loaded service units and their statuses (running, exited, failed, etc.), allowing the administrator to check the state of all services on the server.

NEW QUESTION # 19

.....

In order to make the XK0-006 exam easier for every candidate, Real4test compiled such a wonderful XK0-006 study materials that allows making you test and review history performance, and then you can find your obstacles and overcome them. In addition, once you have used this type of XK0-006 Exam Question online for one time, next time you can practice in an offline environment. It must be highest efficiently exam tool to help you pass the XK0-006 exam.
