

# Zscaler ZDTA PDF Format which has 100% correct answers

## ZSCALER DIGITAL TRANSFORMATION ADMINISTRATOR (ZDTA) CERTIFICATION EXAM QUESTIONS AND ANSWERS 100% CORRECT

Primary use of policies based on file types in Zscaler DLP - ANSWER-To protect data by allowing or blocking specific file types and activities.

Three levels of inspection used by Zscaler DLP for file type enforcement - ANSWER-Magic Bytes, Mime Type, and File Extension.

Reason for multiple levels of inspection for file types in Zscaler - ANSWER-To prevent users from bypassing policies by changing file extensions.

Predefined dictionaries in Zscaler DLP - ANSWER-Classifiers used to identify sensitive data like PCI, PII, and PHI data.

Example of a predefined dictionary used in Zscaler DLP - ANSWER-A credit card number dictionary.

Custom dictionary in Zscaler DLP - ANSWER-A dictionary created by customers using specific phrases, keywords, patterns, and regular expressions.

Use of custom dictionaries in Zscaler DLP - ANSWER-To protect documents with specific headers and footers like 'company-confidential' or 'internal-use only'.

Exact Data Match (EDM) in Zscaler DLP - ANSWER-A feature that matches specific data elements from a customer's structured data to trigger DLP policies.

How sensitive data is fed to Zscaler's EDM engine - ANSWER-By using an on-premises VM that indexes the data and sends hashes to the Zscaler cloud.

What happens to data fed into Zscaler's EDM engine - ANSWER-It is converted into hashes and tokens which are stored in the cloud.

Actions triggered by an EDM in Zscaler DLP - ANSWER-Actions based on exact matches of sensitive data elements, such as blocking or alerting on data exfiltration.

Support options available for troubleshooting in Zscaler - ANSWER-Self Help support, reporting capabilities, and support ticket raising.

The price for ZDTA learning materials is reasonable, and no matter you are a student or an employee, you can afford the expense. In addition, ZDTA exam dumps are edited by professional experts, and therefore the quality can be guaranteed. ZDTA exam materials cover most of the knowledge points for the exam, and you can master them through study. In order to let you know the latest information for the exam, we offer you free update for 365 days after purchasing, and the update version for ZDTA Exam Dumps will be sent to you automatically.

## Zscaler ZDTA Exam Syllabus Topics:

Topic	Details
Topic 1	<ul style="list-style-type: none"><li>Platform Services: This section measures skills of Cloud Infrastructure Engineers and focuses on the suite of Zscaler platform services. Key topics include advanced device posture assessments, TLS inspection mechanics, and the application of policy frameworks governing internet, private access, and digital experience services.</li></ul>

Topic 2	<ul style="list-style-type: none"> <li>• Zscaler Digital Experience: This section evaluates Network Performance Analysts on their knowledge of Zscaler Digital Experience (ZDX), including understanding the ZDX score, architectural overview, features, functionalities, and practical use cases to optimize digital user experiences.</li> </ul>
Topic 3	<ul style="list-style-type: none"> <li>• Access Control Services: This area assesses Security Operations Specialists on implementing access control mechanisms including cloud app control, URL filtering, file type controls, bandwidth controls, and segmentation. It also covers Microsoft 365 policies, private application access strategies, and firewall configurations to protect enterprise resources.</li> </ul>
Topic 4	<ul style="list-style-type: none"> <li>• Cyberthreat Protection Services: This domain targets Cybersecurity Analysts and covers broad cybersecurity fundamentals and advanced threat protection capabilities. Candidates must know about malware protection, intrusion prevention systems, command and control channel detection, deception technologies, identity threat detection and response, browser isolation, and incident detection and response.   Data Protection Services</li> </ul>
Topic 5	<ul style="list-style-type: none"> <li>• Risk Management: This domain measures skills of Risk Managers and Security Architects in using Zscaler's comprehensive risk management suite. Candidates are expected to understand risk capabilities, dashboards, asset and financial risk insights, vulnerability management, deception tactics, identity protection, and breach prediction analytics.</li> </ul>
Topic 6	<ul style="list-style-type: none"> <li>• Identity Services: This section of the exam measures skills of Identity and Access Management Engineers and covers foundational identity services including authentication and authorization protocols such as SAML, SCIM, and OIDC. Candidates should understand identity administration tasks and how to manage policies and audit logs within the Zscaler platform.</li> </ul>
Topic 7	<ul style="list-style-type: none"> <li>• Connectivity Services: This domain evaluates Network Security Engineers on configuring and managing connectivity essentials like device posture assessment, trusted network definitions, browser access controls, and TLS</li> <li>• SSL inspection deployment. It also includes applying policy frameworks focused on authentication and enforcement for internet access, private access, and digital experience.</li> </ul>

## ZDTA Reliable Test Tips | Valid ZDTA Mock Exam

Attending ActualPDF, you will have best exam dumps for the certification of ZDTA exam tests. We offer you the most accurate ZDTA exam answers that will be your key to pass the certification exam in your first try. There are the best preparation materials for your ZDTA Practice Test in our website to guarantee your success in a short time. Please totally trust the accuracy of questions and answers.

## Zscaler Digital Transformation Administrator Sample Questions (Q68-Q73):

### NEW QUESTION # 68

Which of the following is a unified management console for internet and SaaS applications, private applications, digital experience monitoring and endpoint agents?

- A. Mobile Admin Portal
- B. One API
- C. identity Admin Portal
- D. Experience Center

**Answer: D**

Explanation:

The Experience Center delivers a single-pane console for managing internet and SaaS access, private applications, digital experience monitoring, and endpoint agent configurations.

### NEW QUESTION # 69

What is one of the four steps of a cyber attack?

- A. Find Least Secure Office Building
- B. Find Email Addresses
- C. Find Cash Safe
- **D. Find Attack Surface**

**Answer: D**

Explanation:

One of the four essential steps of a cyber attack is to find the attack surface. This step involves identifying vulnerabilities, entry points, and targets within an organization's network or systems that can be exploited by attackers.

The study guide outlines this as a critical phase in the cyber kill chain, where attackers map out potential avenues for compromise.

### NEW QUESTION # 70

What enables zero trust to be properly implemented and enforced between an originator and the destination application?

- A. Trusted network criteria designate the locations of originators which can be trusted.
- B. Cloud firewall policies ensure that only authenticated users are allowed access to destination applications.
- C. Connectivity between the originator and the destination application is over IPSec tunnels.
- **D. Access is granted without sharing the network between the originator and the destination application.**

**Answer: D**

Explanation:

Zero Trust is achieved by granting users application-level access without ever placing them on the same network as the destination, ensuring users can reach only the specific app and never the underlying network.

### NEW QUESTION # 71

Which of the following are types of device posture?

- A. Domain Joined, Process Check, Deception Check
- B. Detect Crowdstrike, Crowdstrike ZTA score, First name
- **C. Unauthorized Modification, OS Version, License Key**
- D. Certificate Trust, File Path, Full Disk Encryption

**Answer: C**

Explanation:

Types of device posture typically include attributes that reflect the security and compliance status of a device.

This includes Unauthorized Modification, which checks if the device has unauthorized changes; OS Version, verifying if the operating system is up-to-date; and License Key, confirming the validity of software licenses on the device. These attributes help in assessing device trustworthiness for access control.

Other options include some irrelevant attributes such as "First name" or product-specific detections not generally categorized as device posture in Zscaler's framework.

### NEW QUESTION # 72

Does the Cloud Firewall detect evasion techniques that would allow applications to communicate over non-standard ports to bypass its controls?

- A. As traffic usually is forwarded from an on-premise firewall, this firewall will handle any evasion and will make sure that the protocols are corrected.
- B. Zscaler Client Connector will prevent evasion on the endpoint in conjunction with the endpoint operating system's firewall.
- C. The Cloud Firewall includes an IPS engine, which will detect the evasion techniques and will just block the transactions as it is invalid.
- **D. The Cloud Firewall includes Deep Packet Inspection, which detects protocol evasions and sends the traffic to the**

respective engines for inspection and handling.

**Answer: D**

Explanation:

The Cloud Firewall includes Deep Packet Inspection (DPI) capabilities that detect protocol evasion techniques where applications try to communicate over non-standard ports to bypass firewall controls. Once detected, the traffic is sent to the appropriate inspection engines for further handling and mitigation. This ensures that evasive traffic does not bypass security controls.

## NEW QUESTION # 73

.....

Our ZDTA exam prep is subservient to your development. And our experts generalize the knowledge of the ZDTA exam into our products showing in three versions. PDF version of ZDTA learning quiz can support customers' printing request and Software version can support simulation test system. App/online version of ZDTA Training Materials can be suitable to all kinds of equipment or digital devices. You can choose your most desirable way to practice on the daily basis.
